Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

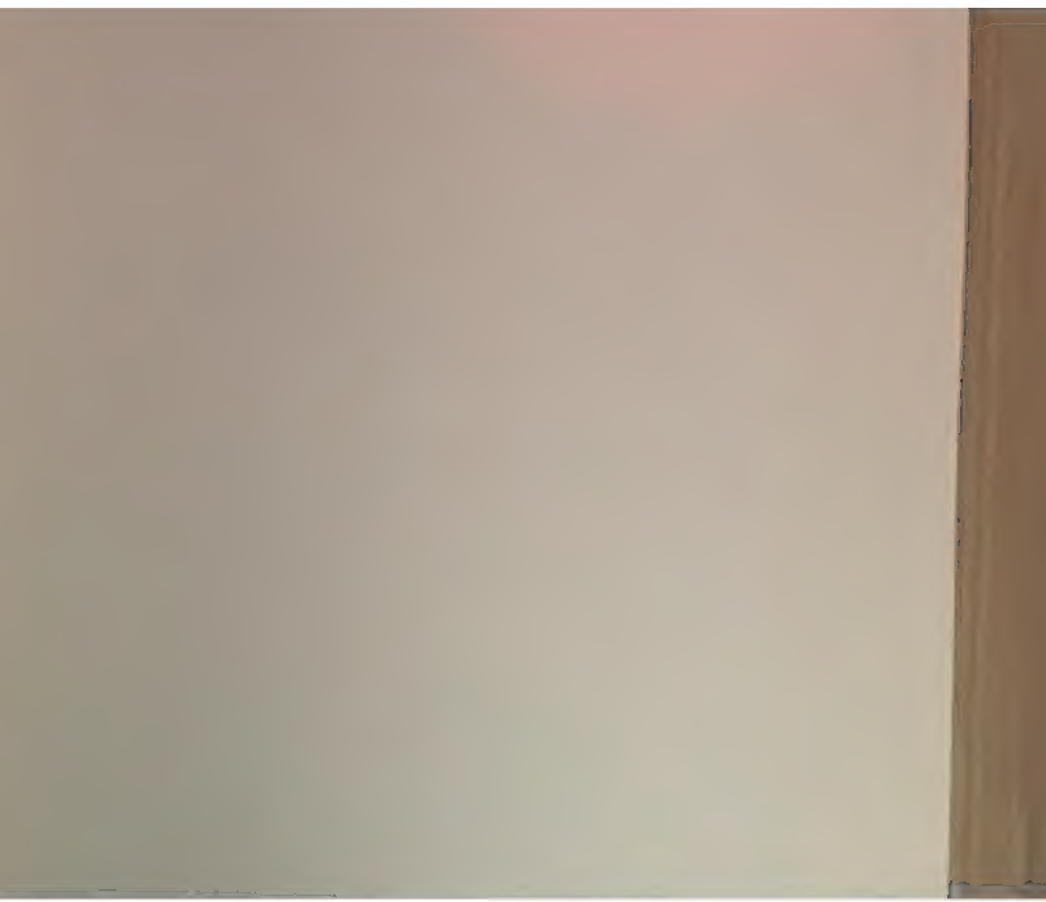
Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.



+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

gestion and advice, passed certain ordinances, amending existing ordinances and establishing a three cent rate of fare for the transport of passengers on lines within the City of Detroit Such a concession had been made to the people for a period of seven days some time prior thereto while the statement as to the earnings, when the sale of the property was in prospect, and the tremendous value of the franchises placed at over nine mil lions, with eight months and upwards for visible property was in my own mind, a confusion that the rate charged was exorbitant, and that upon the basis of this concession, the people of the city were entitled to a better and lesser rate. Directly upon the passage of the ordinances, and before they could be put into effect an injunction issued from the United States court for the eastern district of Michigan restraining the Mayor and Common Council and the City from proceeding further in the enforcement of the ordinances in question. With the permission of your honorable body I was permitted to retain counsel with authority to appear for me and present the issue before the court to which the railway companies had appealed. The argument of counsel in the case were heard and fully and the question raised of sufficient importance to call for the careful study and consideration of the learned judge of the United States court, before whom the issue is now pending for decision. I am confident both of the legality as well as of the justice of our contention and await the final outcome with confidence. If it should so happen that my contention is not sustained we shall at least have cleared up some important questions for your consideration, when the time to make the next deal regarding the corporations for the operation of municipal franchises again, and we shall be taught to place a value upon such safeguards as will protect for all time the great, and I hope great property the only control heritage that the people possess. It may content us to hold for them as to the future and when the city shall be vested with authority to act and as the franchises now held are to expire within a few years we may well wait even out the exorbitant rate which we are obliged to pay and construct our own roads making every dollar to count as dollars value and thereby pay for ourselves and for the generations that follow as the cheapest and the swiftest as well as the best transportation ever given any people or any city in the world.

It may be right to say in this connection that I believe no franchise should be granted and that no municipality should be adopted by the city which has not been a direct subject of popular ballot. While the [illegible] may [illegible] by the [illegible] that follow no other wise.

STREET PAVEMENTS

The ideal pavement is yet to be found. To secure a pavement that meets all the conditions of economy, noise, wear and climate, is to solve the enigma of the ages, and to rest on a lost art. For reliable information on the subject of pavement it is well to look to the testimony of competent disinterested parties whose investigations have been thorough and whose conclusions may be relied on. In an exhaustive article written by Prof Bartlett H Lenton of Purdue University in which after a full explanation of the constituent parts of sheet asphalt pavement the comment on the various natural deposits found best suited for the processes of mixing and laying the asphalt is made that the very best samples of this pavement that have been laid since 1876, when it first came into use in the United States have not endured for more than ten years, without developing the necessity for repair. Any failure on the part of the contractor to provide proper material or to fail to understand the nature of the materials, or to completely control the process of manufacture must and does result in a short-lived pavement. These words are quoted from the letter of Prof Lenton. The same authority then goes on to say that the influence of the quality of the different ingredients upon the life of the pavement is certainly not well understood that the pavement is really a sand pavement, cemented by asphaltum and by petroleum residuum with carbonate of lime with any other inorganic dust as a filler for the same. An examination of the conditions of asphalt as laid in the city of Grand Rapids, in this state and inspected in the summer last past, showed that every share of asphaltum pavement in that city was out of repair according to the specifications and also that all of the streets on which the guarantee had expired are to be paid to be kept in repair by an asphalt company which is the contract for the present year (1906) at a fixed price irrespective of the amount of repairs necessary from four to nine cents per square yard.

This contract appears to be similar to the one under which this city has asphalt which is guaranteed, after 2,000 square yards of pavement in each specific district. The high authority before quoted continues to say: "The fact that asphalt pavements failed in spots and not broadly seems to show how important an influence irregularities in mixing and mixing may have upon the life of the pavement. Such defects as these defects before mentioned may perhaps be minimized by careful supervision of contract, but there are still other defects which may be said to be inherent to the pavement and which no degree of skill or accurate testing of sheet asphalt is made of the materials and according to the methods now in use. After allowing the defects arising from extremes of temperature and other climatic causes, the most efficient and excellent pavement when this article was written was the Trinidad asphalt of a kind that could stand the life of the pavement and they may be sufficient to cause premature decay due to the durability of sheet asphalt as a paving material. The pavement has other defects, as it is not more sanitary or healthy than wooden block. It is not surprising, therefore, that sheet asphalt has met with little favor in foreign cities, and that its use is becoming less popular in American cities which have tried it extensively as the experience of many cities can testify." It remains that Detroit's experience fully upholds the conclusions of Prof Lenton. The fact that asphalt has been able to secure a foothold in a number of cities is doubtless due to the work of persistent promoters all of whose expenses are paid by the taxpayer in the price exacted for the pavement. Detroit, at the beginning of the fiscal year had 4,227,074 square yards of city street pavement, 1,113 per cent of which are in round numbers 477,040 square yards was asphalt.

For 30,000 square yards of asphalt [illegible] $3.06 for repairs of [illegible] $1,000 or more was expended in the past year for repairs of old streets on which guarantees have expired and the remainder is on streets guaranteed. The average cost, under the repair contract is about 10½ cents per square yard as a whole, on expired guaranteed streets the average for the past year has been 10 or 12 cents. Let us turn our attention to other pavements. Here we find according to the report of the Board of Public Works, 3,850,000 square yards were kept in repair last year, including the entire resurfacing of 11,000 square yards at an average cost of less than two cents per square yard for year. Plainly these are the bases of my opposition to further experimenting with asphalt. There have been better results from other kinds of pavement and I would respectfully impress upon your honorable body the fact that for residence streets, cedar blocks, as now laid or creosoted pine or Jamaica blocks as laid in Indianapolis block brick of best quality for our retail business or medium traffic streets, and granite or medina stone blocks for our heavy trucking streets all with concrete foundation, seem to have given the greatest benefit at the most reasonable cost of both construction and repair. The reports of the Board of Public Works show contracts for asphalt and repair surfacing only at $1.35 per square yard, while the cost of entire resurfacing of cedar block by the Board of Public Works is given at 13 cents per square yard. These incontrovertible facts lead to their own conclusion.

If we are to have more asphalt pavements, and my views are to be overruled, or, if we are to endeavor to keep the pavements already laid perfect, only the question of a special repair gang, belonging to the city is a very pertinent one. Guarantees on 1 streets will expire in the next two years. The expense to be incurred up to that time is about $35,000 a year, paid out of the general road fund. There is no doubt but that, if the city owned its own plant it could take care of asphalt repairs at much less figure than quoted above and get better satisfaction under the supervision of the Board. I am informed that asphalt plants are in operation in other cities for the purpose of repair and are giving general satisfaction. The traveling plants going about the country are not always on hand when needed and sometimes the work is very greatly retarded awaiting their return. This feature of delay will be obviated also by the city owning its own plant.

CURBING

In view of the authority conferred by

the last Legislature, whereby the city may forestall bonding for paving purposes I would recommend that the estimated amount for curbing be advertised for to be delivered at the rough free on board cars of some, at Detroit that the curbing when cut, on city account and furnished to the various contractors at cost the cost price to be named in the respective river sewer sections, the paving, the same to be paid for by through the Board of Public Works It will be seen that by this system of owning your own water line and controlling rates, which has proven eminently satisfactory I believe that in most municipal in the matter of urban as well as in other things is the keynote to speed For this reason I would recommend that curbing be regarded as and remain a private extension only, that the 1000 feet per year which the Board of Public Works is report I is basing on an average for new curbing laid for the past five years be [illegible] giving a certain per cent of [illegible] stone also per cent of granite the latter being intended only for [illegible] of heavier traffic and for position streets for first pavement of [illegible] that the specifications be modified so that the curbing shall not be less than 30 feet in length, 6 inches thick and 18 inches deep Now that the curbing is set on concrete without relation in depth and breadth to the of [illegible] ston will tend to resist the [illegible] without impairment of necessary strength A further saving of three dollars per lineal foot could be effected by abandoning what is known as "bull nosing" the curbing so as to benefits from such work or [illegible] compared is at present less hard [illegible]

CONTRACTORS AND MATERIAL MEN

Annoyance and loss of time is occasioned to the Board when it is called to deal with contractors who are irresponsible or who set up neglect or slight of probable [illegible] to avoid dealing with them and therefore very great trouble It would seem as if some system should be devised whereby the contractor should be required to furnish competent [illegible] or in default must be subject to [illegible] at the hands of arbitrators appointed by the Board Private parties in dealing with contractors are largely protected by the known responsibility of the [illegible] of the [illegible] for and very unsatisfactory of business dealings that the Board is subject to [illegible] those who do not appreciate the [illegible] I do not see why [illegible] extraordinary business [illegible] should not be conferred upon those who represent the city With the exception of [illegible] in connection those who deal fairly and those who do not is self evident

GARBAGE

I have been insistent upon the duty of the city to itself keep track of the collection and disposal of garbage In this recommendation I [illegible] influenced by any hostility whatever except that I believe it [illegible] as long as sanctioned by the [illegible] private control that which [illegible] could pass from public control If it should happen that disposal should [illegible] proper or economical of [illegible] garbage it can hardly be answered that this most important [illegible] has been farmed out to private control. The city, in my judgment, has no right to release its absolute control and responsibility in this matter especially when it is [illegible] that the [illegible] collection of the garbage of our city can be made the source of at least [illegible] profit to, for the ensuing [illegible] I therefore recommend, as I have on two other occasions, that the city obtain from the [illegible] authority to [illegible] control and operate its own garbage plant, and that authority to [illegible] this purpose be requested I think that at the termination of the existing contract held by private parties, it should be a question to enter upon the [illegible] control and treatment of its own garbage

SEWAGE.

The public sewer system of our city is something of which we may be proud as for the territory embraced is well kept [illegible] The system of carrying effete matter by means of underground conduits and sewers will probably long remain a feature of our city life the disposal of the contents of the sewers must undergo a change and that very soon The time is near at hand when there will be a determined objection entered to the [illegible] of the river by the deposit therein daily of upwards of a hundred tons of excrement It is now or soon must become a reproach upon the intelligence of the community that converts to discharge all of its sewage into a river of water originally pure and which should remain so The city of Chicago at an expense of thirty-three million dollars has deepened the bed of its sluggish river and projects carrying the waste of the city away until it finally reaches the broad waters of the Mississippi Against the pollution of the great river the dwellers of the Mississippi valley are already entering vigorous protest It will not be necessary for us to undertake any such work for by adopting the sanitary and economic system pursued in Paris and other cities of the old world, we will secure still better results. I do not think it is at all too soon to have this important matter in mind in looking to the time when we shall be obliged to destroy or to convert to fertilizing uses that which is today poured into the body of our river The present system of sewage and irrigation [illegible] originated twenty-five years ago The first year it was [illegible] only [illegible] and connected with [illegible] At the expiration of twenty years thereafter [illegible] of the parts of Berlin which [illegible] the sewers and [illegible] of [illegible] suburbs had been connected with it The latter works [illegible] not in the adoption of this system have been a marvelous A distinguished writer says that since [illegible] in connection with the [illegible] in the construction of building promises with the sewer system [illegible] the [illegible] in the death rate [illegible] especially in the [illegible] which [illegible] a year for each thousand of population [illegible] and we [illegible] [illegible] [illegible]

use the ounce of prevention before we are called upon to use the pound of cure

PERMANENT IMPROVEMENT

I regret that many of the local bills submitted at the last legislature did not become effective. It is to be regretted that the bills giving to your honorable body with the consent of the Board of estimates authority to bond for permanent improvements that are now needed, did not become law. I believe it is unjust to the present generation to place upon it all the burden of improvements which are permanent in character and which will protect the burden of the future in small as to the present for which the future will be called upon to pay nothing. Besides it happens that improvements in the matter of water supply which ought to be carried have been deferred because of the want of power to do that the necessity for which is recognized, and which ought to be done at once. Wherever it is by proper power to provide an appropriation for a sinking fund to redeem such bonds it should be done.

FIRE DEPARTMENT

The Fire Department of our city is recognized among the most efficient and best equipped of any department in the country. The fire boat purchased a few years ago has fully justified its purchase and, indeed, to such an extent that a larger and more powerful boat is being built and will be in commission some time during the coming year. With this addition to our department, and the possibility of the establishment of some stationary pumps at pump stations at different parts of the city we will have that protection which places our property under the most efficient fire protection. Insurance rates in Buffalo are established on a basis [illegible] upon the efficiency of the fire department as given by the [illegible] and I have no doubt that the rates will have the same relative rate as a result of the [illegible] in operating a most efficient fire department. It has been a privilege in the past year to personally witness the efficient and loyal work of our firemen and to observe that give promise of with a rapidly increasing [illegible] it [illegible] to what [illegible] the work of selection [illegible] with [illegible] and skill [illegible] Patriotic devotion of [illegible] to the [illegible] of our [illegible] the splendid fellowship of our [illegible]

WATER SUPPLY

The matter of the water supply of the city is one to be fairly worthy of [illegible] consideration and [illegible] [illegible] [illegible]

ther action and in view of our knowledge of the educational features of such an exhibit in the cities of the old world as well as in some of our own country, promise most gratifying results. The fishes natural to all fresh water, and especially those of our northern lakes and rivers, with, be collected there, and the institution will take its place among the interesting institutions of our city. The time is long gone by when men insist that business and manufacturing are indissolubly associated with dirt and smoke. That these elements must be present, in some slight degree is unquestioned but that they must of necessity become uncomfortable if not intolerable in every vicinity has long since been exploded. The modern elements of heat and light, to not justify such sooty conditions as are incompatible with the shade tree and flower, the well-appointed lawn and the open window. In fact it is a notable thing that, in and around many of our largest manufactories today, the door yards and approaches are lined with shrubs and flowers and the high art of the factory within takes a beautiful lesson from the natural art through which the factory is approached. There is a demand in these times in every city for comfort, and all the comfort possible a demand for sunlight and the greatest amount of **sunlight; for homes, and the best appointed homes**, and all these are not incompatible with abundance of opportunity for the work from which the livelihood of the people is attained. The extension of the Boulevard to the river on the west side and extending along the river to Fort Wayne I again urge. The sooner done the less will be the cost.

MUNICIPAL CONTROL OF LIGHTING.

It is, I think, fairly well established that for the amount if not for less than we could be charged by private owners we obtain our city light whereas it must be taken into consideration that we have abundantly and satisfactorily it as to make the cost of furnished by private enterprise far in excess of that which we now pay for it. I may say that the city of Chicago has taken up the question of municipal lighting and already such economy has been effected that the cost has dropped from eighty cents something upwards of sixty cents per lamp. The municipal plant and equipment as found in the fact that the improvement in electric light plants in the line of economy have been incessant and that which is of most character today becomes obsolete tomorrow or superseded by something of a better. It is certain that if the city were to be installed today it would cost less money and give a far better result, and one equipment than was possible to be obtained when it was started. The wisdom of discarding obsolete inventions and rapidly adopting new ones is left to the wise discretion and judgment of the Public Lighting Commission.

TAXATION

Low taxes means low rents.

It is hoped that the assessing board of the past councils had no basis of estimate in reference to the valuation without it being in existence to effect even of keeping it down to what it should be. It is a matter of gratification relief that the tax levy of the city is now in closer touch with the most favored cities of the union in the state of Texas, and that I am pleasing to be attractive to the investor and manufacturer.

I urge and to your honorable body the exercise of that patience in the examination of details of proposed expenditures which has already so manifested such good results, and must lead to even greater results than those already achieved.

The law with reference to living within the line of appropriations made and expenditures is being rapidly enforced and with such admirable results that deficiencies are the exception, where they have heretofore been the rule.

The transfer of the auditing authority to the City Controller at the opening of this year has been productive of good results and I trust the system may be continued until every exception now I pass through a like auditing and be at last approved and record paid by action of your honorable body.

In my last message attention was called to the matter of our indebtedness and the difficulties of the several boards in bridging the definite amount of their appropriations under the prevailing system. I am glad to say that, largely through the influence of the Controller the passage of a law was secured at the last session of the legislature creating a deficiency fund, into which goes all back taxes that does away with the trouble experienced in the past, it every board and commission now knows that it will receive within the first year all moneys appropriated by the board of estimates and the Common Council and authorized to expenditures with this assurance.

I regret that we are not able under existing laws, to offer many inducements that encouragement which, if received in other ties. The assurance of a low tax rate, and the very proper exemption of certain properties that are in actual use and whose value is decreasing every day who use is offered to many of these somewhere but we are without authority to confer the authority and fact is impossible law. We must confine however to offer everything but we have in the way of encouragement that of a low rate of taxation, cheap water and coal rates, the lowest possible taxes, cheap lots, healthy location and to the comforts of well-appointed and well governed city.

CONCEALED PROPERTY

One of the most perplexing and the most difficult to overcome, is the listing and collection of taxes. This cost would be far more easily attainable if that same care and justice so right who is cast the citizen in all other affairs of life were applied to the matter of taxation. It is deplorable to realize that by one almost universal method of property and income justly subject to taxation is evaded, thrown off. It is to be regretted that assessing officers are called upon to exercise discretion over non-producing with respect to property possessed of the highest value there is, and that such assessments are left with them after an experience with human nature should be sufficient to convince that a property owner will unfairly low estimate as to the amount of his taxation. The investment on the lower are often five times the

value of the same property when exempt for taxation. Purposely conceiling property from taxation is in my judgment as palpable a violation of a citizen's duty as though he had intentionally broken a written law, and is not an avoidance of the spirit of his duty as though he had avoided bearing arms for his country in her time of peril. I think the cultivation of a spirit of condemnation of such proceedings will be more to assist the assessors than anything that can be conceived.

CLEANING STREETS AND ALLEYS

In relation to streets, how an estimable improvement for clean streets and alleys, and for this the Common Council and the Board of Public Works are to be congratulated and commended. At the same time there is no need of wasting money. The first observation is suggested by the report of the Board of Works figures for a few years past covering the time since the return to assessments on the wards for street cleaning purposes, instead of using the liquor tax for that work.

For the years 1895 and 1896 miles of paved streets 225 expenditure	$110,710 00
For the years 1896 and 1897 miles of paved streets 225 expenditure	106,716 00
For the years 1897 and 1898 miles of paved streets 250 expenditure	122,493 00
For the years 1898 and 1899 miles of paved streets 260, expenditure	147,381 00

For the current fiscal year the expenditures may been for the first six months only, it ended and the funds in the several wards are at a low point to carry on the work for the coming six months. Taking 1896 and 1897 as a basis, with 25 miles of paved streets the expenditure for 1897 and 1898 should have been at least $20,000 less than they were, while it was for 1898 and 1899, it should have been nearly $30,000 less. We all demand and want clean streets and alleys, but no taxpayer is going to pay any more than it is worth to keep them clean.

ALLEY CLEANING

The system of cleaning will not be perfect while the city goes on to make streets into the place for waste of every character which under proper regulations to be made as to care and when to use the street itself. It is one phase of improvement which is born of the advancing. The alley of today, in the average city may well be termed a "cess pool" of filth, decaying and endangering public health. In some of the larger cities they always have been through force of habit and are the most favored localities for the dumping of refuse. But the demand for cleanliness is now as strong.

OPPORTUNITIES FOR CORRUPTION

In August last I communicated with the Board of Public Works relative to certain work not being done on paving matters, and I refer you to the communication made at that time. The opportunities for corruption on the part of any official of a board or department are, if the reduced to a minimum. This proposition is self evident and wholly in the public interest. Resolutions ordering paving are the basis of assessments to defray the expense thereof, and they as well as the proceedings thereunder should certainly be with as few words as that the assessments themselves and the bonds predicated thereon should have legal value. It is entirely within the province of the Common Council to see to it that such resolutions are made so as make it impossible that there should be more than one lowest bidder for a proposed improvement, and the Council is unjust to itself as a body as well as to the taxpayer, when it fails in this respect and leaves the door open to temptation. This is an important matter and the committee charge should see to it that their resolutions are right and their colleagues fully informed.

In my last annual message these words were used: "The law compelling the Board of Public Works to advertise for bids for supplies for all amounts over $200 is a wise one and might with profit be adopted by all the boards of the city and refers to certain expenditures amounting to many thousands of dollars by other boards without regard to this salutary provision of law for the Board of Public Works." I regret to say that during the year that has elapsed since that message was submitted there have been several demonstrations that this most wise provision of law is constantly violated by those whom it is supposed to govern. The Common Council had an example during the past summer in the matter of expenditures for asphalt repairs, although in the matter of asphalt not much was to be gained by advertising for bids the evidence of a combination being so clear as to show the city to what the nerve of those who controlled the asphalt. A review of the proceedings of the Common Council for the few months past however shows the many instances of disregard of this law, or at least the evasion of it by dealers having been paid for supplies of them during the months ending November 8, 1899 in aggregate amounting to $2,000 without advertisement. This is one case. There are [illegible] it is not going to excuse to say that agents of many different articles were invited to the purchase. A list of all bidders needed could be made up and competition called, this is fairness to all other merchants and dealers. It appears to me in the nature of a manifest discrimination, and it has no excuse. This course is pursued by the City Clerk under direction of your honorable body in the matter of job printing which calls for an infinite variety of matter and the contracts for it as I am credibly informed have always been at fair prices. I recommend that this matter be made the subject of conference between the committee of your honorable body and the [illegible] to it with a view to formulating the present most proper safeguard of the expenditures of public funds.

SEPARATION OF GRADES

The gratifying progress made in this important matter is of common knowledge. Embarrassed by a statute which is manifestly unjust to the city the railway authorities have been approached upon the question of accomplishing the separation of grades by mutual agreement. The proposal on the part of your honorable body has been received with manifest favor and the views of the Common Council, as a body, to

Buffalo and Chicago, were very fruitful of information which will be of very great value in future discussions. The presence here to-day of the Engineer of Grades, Mr. Gaynor of Buffalo, and of the Commissioner of Grades of Chicago, Mr. John O'Neil, both gentlemen having had the widest experience in the matters involved, cannot but be helpful in arriving at the most reasonable and economic way of accomplishing our purposes. The solution is simple compared to that involved in the cases which the Common Council visited. So far as engineering skill is concerned the difficulties are slight, and it remains for us to determine whether it is better for the city that the tracks should be depressed at all points, and the streets to pass over at a level or a considerable elevation, or whether it is better to depress the roadways as proposed and to elevate the tracks. I will say that so far as my own observation has gone, as well as after investigating the conditions prevailing elsewhere, I am decidedly of the impression that the streets should be moderately depressed, except on the easterly and westerly termini. I advise the limits of three and one-half feet as depressed instead of, and the tracks should sufficiently to give headroom to the extent of from twelve to fourteen feet. I believe this to be the most satisfactory solution, and will be most economical for the city, and not unreasonably expensive to the railroad companies. The proposition which I believe will be eventually submitted for the consideration of your honorable body will be a one in which the railway companies agreeing to stand all expense of depression and elevation, and the city taking care of the consequent damages to private property owners. I have thought it expedient arging that action now so happily and successfully begun be pushed vigorously until the work of depression is entirely completed, and the connection then limited to a reasonable period of time.

OFFICIAL JOURNAL.

A matter has been suggested to me which meets with much favor that I respectfully submit it for your consideration with the full indorsement of any plan which may be proposed to make it effective. The matter of conveying the record of official doings by the Common Council through an official newspaper each year. This saves the proceedings of your body, while the work of the several officers and committees of the city is fresh in the memories of the people, and appears in a form which renders it easy of reference, and is more or less widely among those in office and out. In view of this would it not be well to have printed weekly or bi-monthly an official report containing the proceedings of the meetings of the Board, and all bills thereof could be duly prepared, and be issued with at very great expense, and be sold from the Board of Public Works to any person who may desire to have them for a small sum sufficient to cover the cost of paper and printing, or by the purchase of a very small space upon the printed page, which would be sufficient to cover the cost of publication of every body interested in the city. The latter plan seems to be the best to make it self-sustaining. The compensation of the official paper might be fixed by the contract which is let for municipal and official printing at the same time. Even if an issue of 1,000 copies weekly were distributed among citizens sufficiently interested and thoughtful to ask for them the benefits would be very great. I would respectfully suggest that this matter be referred to the committee on printing, and that the same be fairly and fully considered in the public interest.

PUBLIC SCHOOLS.

The schools of our city continue to hold the high position in the estimation of educators which they have long enjoyed. The need of advanced education for all was not a greater than now. Skill in the measure applied to every accomplishment in art, industry and manufacture. A cultivated mind and trained hand are indispensable to success in this modern day.

The methods of instruction have undergone a decided beneficial change in these later days, whereby a studied effort is made to estimate the full value of a school before the appropriation is asked for from your honorable body and the board of estimates. While plans are prepared with special reference to the present and to be demanded, the current performance of school which heretofore prevailed is now a thing of the past. In the meantime there never were schools erected in this or any other city more perfect in equipment and in all that goes to make up an ideal school so far as school environment is concerned, viz. heat, light, ventilation, toilet accommodations, and every other convenience that makes school life attractive, and that educates the mental, moral and intellectual tastes of the pupils.

PUBLIC LAVATORIES.

Nothing has so far been done to carry out the suggestions made by my predecessor regarding this important matter. Public lavatories, especially in downtown districts, needs no emphasis. They are very good in other cities and are by no means a public comfort and need. Were they as in operation, they would not be tampered with or in any way interfered with. Reliable men might be established for these lavatories at a very moderate cost without disfigurement of the way in question. I trust that the Common will appoint a committee to report on the feasibility of this work at an early session.

BATHS.

I would urge upon your honorable body the necessity of considering as I shall soon present to you upon the Board of Health the wisdom of submitting for the approval of your honorable body, an estimate for the establishment of two or more baths, public bathhouses. Following somewhat in the course of the system adopted in the city of Boston, and which is elsewhere working, with great success, whereby a citizen may obtain a bath of hot and water and under the care of which are very easy to maintain, which would be a public benefit, possibly by a very small fee to pay for the use of towels and soap, other expenses to be met with public funds. I have given the matter the most careful thought of which I have the least doubt. The question has been raised in connection with many of our schools,

would be of great benefit. In any event there is no reason why in a city like this there should be any absence of the opportunity on the part of women to bathe. The demoralizing influences upon morals, as well as upon health, that accompanies the denial of being physically unclean, may not go so far as to wholly destroy a man's patriotism and love of country, but it will be hard more if he is compelled to that privation.

INCURABLE HOSPITAL

There is but one charitable institution further which seems to be in very great demand, that is a hospital for the incurables. Existing institutions apart from that supported by the county council, in the nature of homes take care of those who are suffering, and will suffer with progressive illness. I would like to see such an institution started in a modest way and to take care of the quite few cases we now have on hand and which are being cared for by private benevolence, and I believe, as I believe we shall, the great necessity of such an institution is needed to complete the fairly rounded number of our charitable institutions. I might say in connection with that such an institution should have been started under private auspices, and might at least for the present receive something of city support. I will communicate further on this point.

PUBLIC DEBT

At the close of the second year December 30, 1899, we find a gratifying condition of the city's finances. There was issued during the calendar year twenty-two A. R. building bonds and $156,000 of public school bonds, or a total of $178,000, and there was paid during the same period the sum of public improvement bonds. The decrease in the net debt covered during this period was $61,861.61. This small increase is explained with the amount of bonds issued and owned by the city going to the sinkings of our general and water funds. The limit of our borrowing is 3 per cent of the assessed valuation of all real and personal property in the city is now $4,370,429. We are therefore $1,944.08 within our borrowing limit. These figures are taken from the books of the Controller, as they were upon the night of the 31st of December last.

PERMANENT COMMITTEE ON LEGISLATION

I would recommend that there be a permanent committee appointed of your honorable body, to which might be added, by courtesy, the presidents of the several boards and commissioners and the City Councilor, to constitute a committee on the preparation of all proposed laws, and that these be prepared from time to time and reported to the meeting of the Legislature so that they may not only be ready for submission but through your considered and unanimously adopted before being put upon their passage. I think the failure to obtain legislation in so far as the city is concerned is due, very largely to the fact that our representatives to the Legislature are not pledged to support specific measures intended for the city only.

POLICE DEPARTMENT

The remarkable freedom from crime, and the excellent protection of life and property are matters of congratulation to all. Large numbers of visitors unacquainted with the ways of the city have walked its streets day and night and we have yet to learn of one case of assault or of the robbery worth of property unlawfully taken. Too much praise cannot be bestowed upon the gentlemen who gave their valuable time to wards the control and direction of the great interests of this department nor to the officers and men by whose care these most desirable conditions are brought to pass.

CARE OF EXPENDITURES

I would respectfully call attention to the carelessness or lack of good business management on the part of such boards as exceed in expenditure the amount appropriated to them, or if they do not focus exceed to the shortages that make it necessary the stopping and piping policy at the last half or all third of the fiscal year. When the appropriations are made each board knows the sum appropriation is for one year and not to be used or wasted in three, six or nine months. Good business management will carry the needed work on for the entire twelve months with the appropriation made, and in many instances pay a cash balance of hundreds of thousands. The boards that do their work and keep within the limits of appropriations are the best for the city. To the members of several boards who stop short of conducting the city's business on a business basis I would say that a majority and the best members of their respective boards will best entitle to public commendation. The complaints regarding this last year will be obviated by adherence to this rule.

CLAIMS AGAINST THE CITY

Claims made and suits brought by persons claiming to be injured upon the streets of the city have been largely reduced in the last year and this is due to more careful investigation on the part of the corporation attorneys as well as the police patrol who on the receipt of report, including the photographing of conditions existing at the time of the alleged injury, has been most effective in detecting fraudulent claimants.

In this connection permit me to say that it becomes a pertinent question as to whether the laying of stone walks would not be accelerated and relieved of burden if the same procedure were had as now obtains in the matter of street paving. The objection to enforcing the laying of stone walks is that they are considerably more expensive than board walks, and the payment thereof must be made at once upon the completion of the work. If however the cost could be met by partial payments extending over one, two and three years, or guaranteed by a bond issued somewhat after the manner of the street paving bond the property owner would be relieved from a burden too great for him to pay at once, and would find no difficulty in meeting the divided payments secured by this suggested method.

DETROIT'S BICENTENARY

I again urge upon your honorable body, as I have done upon citizens individually, the absolute propriety, if not the absolute necessity of suitable celebration, by memorial or otherwise, of the passing of the second century of the city's existence. It seems to me that some magnificent monument built in the highest perfection of modern art, the grateful contribution of a prosperous people to a great historic event, should be erected emphasizing thankfulness for past blessings and gratefulness for a future that already promises other and further graces. If no such memorials were found on consecrated beds and as memorializing the passage of memorable events in the world's history, much of wealth and inspiration would be banished from the earth. That community is only doing its allotted share in national life which takes up cheerfully the burden that falls upon it and leaves to the generations to come the example of having met a patriotic duty as well as those other demands for patriotism which invite sacrifices. It is permitted me to say that the question of a monument to individual gratitude here suggested is being considered and soon will be within the knowledge of all. I am sure that, when the plan is made known, it will call for the most liberal support of every lover of the city, and will secure a monument to which our people will point with pride, and which the stranger within our gates will seek with a reverent respect for those who have given of their fortunes to add to the entitlement of all. In addition to this project it will be entirely proper if not essentially necessary that the city itself as such should inaugurate at least something of public utility in the way of a convention hall, memorial bridge or something of like character and which is very greatly needed, to mark its recognition of its two hundredth year of life and of the blessings which have rather caused its strength to increase and its power to multiply with the increase of its years.

I will reserve the privilege of communicating further with your honorable body and of requesting the appointment of a special committee to make further examination into the suggestions here made so soon as greater progress has been made in the preparation of plans for the private memorial now in contemplation.

G. A. R. MEMORIAL

The co-operation whereby the city was enabled to place a very handsome improvement upon Cass Market square, and to embody therein all the purposes for which the land was dedicated and add thereto very comfortable, if not commodious, quarters for the use of our veteran soldier citizens is not among the least of the pleasant events which have marked this last year. As the building nears completion there arises the suggestion that for the use of the city's tenants on the lower floors it will be necessary to provide heat and light, which will be amply paid for by the rental revenues derived from the quarters occupied, and I beg to suggest that it would be a graceful thing, and entirely in consonance with the gratitude we feel towards those who would suffer for their country, that light and heat should extend to the quarters to be occupied by the Grand Army posts, thereby minimizing the expense which they will each have to contribute toward in the home which the last of them will occupy for only too few years. Would it not best interpret the spirit of our people to take off the shoulders of the veterans a burden, which will be returned to the city in many ways, leaving only the expense of such custodians and care takers as will be directly within their own number and brought in contact with them in the occupancy of their quarters. It will be borne in mind also as directly bearing upon this matter that the value of surrounding property has been enhanced for taxing purposes and in value by the erection of a building of such beauty. It certainly has not only served to beautify the square itself, but added character and value to property in the surrounding neighborhood. I make this suggestion to your honorable body as I know it will become a matter for consideration on the near completion of the building. I earnestly urge that a measure of generosity be exercised which I believe will have the unanimous indorsement and support of all our people.

PUBLIC PLAYGROUNDS

The status of the small boy is one which in the past has been considered all too little. We should do more than treat the small boy as an outlaw and should do our best to provide a natural outlet for the youthful spirits of the city. In doing this we would but be following the footsteps of New York, Philadelphia and Chicago where already the system of public playgrounds has been instituted with results which show themselves in the lessening of juvenile crimes in the police records. As a beginning I would recommend that the School Board take steps to throw open to the children in the neighborhood of the schools the grounds surrounding the same and provide suitable means for play.

EIGHT HOUR DAY

I believe there is a fast growing sentiment in favor of limiting the hours of labor, making the legal day that which now obtains with those employed by the city. The benefit of this concession is seen in every direction, and its benefit to those who labor is best realized when we multiply the substantially three hundred days of labor by the number of hours saved, making 600 hours, or thirty-five working days in the year for the laborer's association with his family, for recreation, self-improvement, and all this implies.

POOR FUND

The administration of the fund out

apart for the poor has been well administered. It is gratifying to note that the prosperous condition which has prevailed in the last year has reduced the number of applicants for aid to the minimum. Very few able-bodied persons now apply for relief; and the fund is drawn upon only by the widow and the orphan, the aged sick and poor. It would be a happy consummation of our fervent wishes if this could always be the case, and that the scenes of preceding winters might never be renewed, when those who were willing and able to work and not able to find it, were obliged to become the recipients of public charity.

The work of the Poor Commission together with the splendid private charities ramified in our city, nearly thirty in number relieve every form of misfortune and distress.

I have endeavored, so far as possible, to become acquainted, either by personal visitation or otherwise, by inquiry with the work being done by the several associations; and I do not believe that there are any more efficient institutions in the world than those which are ministering to distress in our midst. The work is done in the spirit of generous charity and yet with fair discrimination and with a spirit of helpfulness whose motto is to help the dependent to help themselves. It is a matter of great pride for us to know that there is such a universal manifestation of the spirit of charity and of good-will.

MAYOR'S COUNCIL.

This body has demonstrated its effectiveness in many ways in informal conferences disseminated amongst the members of the Council, and it impels me to recommend to your honorable body that the system be increased so as to bring about an association which will involve an accredited members every officer, salaried and unsalaried, in the city, including the members of the Common Council for the purpose of becoming better acquainted personally, and of discussing all matters of concern relating to municipal life.

I will communicate with your honorable body further upon this subject at a later day.

In closing may I express the hope that the year upon which we enter may find us all filled with a spirit and purpose mutually helpful and having one object in view only, the up-building and the ongoing of our city in all that make for civic righteousness. And while you, as a body are composed of members a majority of whom are not of one political faith, still I rejoice that we mutually forget these differences that are inconsequential when compared with the interest which we have in our homes, in our fellow citizens, and in this peerless city. I hope that my every action will be permeated by a spirit so wholly unselfish and disinterested as to command on your part a hearty support, to which I will give you in every direction possible both in my personal and official relations to you.

Respectfully submitted,

WILLIAM C. MAYER,
Mayor.

On motion of Ald. Coats the message was accepted, ordered printed in the proceedings and referred to appropriate committees.

FROM THE SAME

To the Honorable the Common Council

Gentlemen—I herewith return with my approval the resolution offered by Ald. Tosey and adopted by your honorable body on the 2nd inst. proposal of A. C. Lloyd to furnish a stretch of lateral sewer No. 100 and directing the Board of Public Works to advertise for bids for the construction of said sewer.

I am not fully informed of the exact reasons for the rejection of the proposal of Mr. Lloyd and my refusal to approve of the action of your honorable body is based upon a request made to me by Mr. Lloyd. All members of the Board will be present at the meeting with further reference of Commissioner James W. Mason of the Board of Public Works. This meeting is for the purpose which they believe to be in the interests of the public service and advise that the matter of Mr. Lloyd's proposal be referred again to the Committee on Sewers of the Board of Public Works of these two gentlemen for further investigation and report to your honorable body before final action be taken.

Respectfully submitted
WILLIAM C MAYBURY
Mayor

By Estimator Burton:

Resolved, That the Board of Estimates do hereby report to the Issue of Two Hundred Thousand ($200,000 00) Dollars of the Bonds of the Board of Water Commissioners of the City of Detroit, and bonds to be issued by authority of and in accordance with an act of the Legislature of the State of Michigan, approved March 8th, 1883, and [illegible] an act of the said State approved April 25th, 1885, said bonds to be of the denomination of $1,000 00 each, to be payable in twenty (20) years, and to bear interest at the rate of 3½ per cent per annum, the principal and interest to be payable in gold. The proceeds of said bonds to be used to pay for two hundred (200) of the [illegible] ($200,000 00) dollars of bonds heretofore issued by said Board, one hundred (100) [illegible] ($100,000 00) dollars of which matured September the first, 1899, and one hundred thousand ($100,000) dollars of bonds which will mature February the first, 1900.

Estimator Burton moved the adoption of the resolution

Estimator Babcock moved that the resolution be amended by striking out "Two Million Dollars ($2,000,000.00)" referring to amount of bonds to be issued and to insert in lieu thereof "One Million and fifty thousand ($1,050,000.00)" which motion did not prevail.

The motion of Estimator Burton then prevailed as follows

Yeas—Estimators Berger, Bickel, Bolton, Brzeszewski, Burton, Chapman, Dex, Dilworth, Gardner, Gray, Greenwood, Hatgermoser, Hawkins, Hunt, Kulczisky, Lindsay, McKay, Marten, Metz, Mundt, Neubnier, Obert, Payne, Peters, Ramsay, Reckie, Robinson, Saenger, Saville, Steiger, Taepke, Thompson, Wiluts and the President—34

Nays—Estimators Babcock and Wellinger—2

The following resolution was then offered

By Estimator Burton:

Resolved, That the Board of Estimate and Taxation hereby consent to the issue of fifty thousand ($50,000.00) dollars of bonds by the Board of Water Commissioners of the City of Detroit, said bonds to be issued by authority of and in accordance with an act of the legislature of the state of Michigan, approved March the eighth, 1873 said bonds to be of the denomination of $1,000.00 each to be payable in thirty (30) years and to bear interest at the rate of 3½ per cent per annum, the interest and principal to be payable in gold the proceeds of said bonds to be used for the purpose of extending and improving the Water Works of the city of Detroit

Estimator Burton moved the adoption of the resolution, which motion did not prevail as follows

Yeas—Estimators Berger, Bickel, Bolton, Brzeszewski, Dilworth, Gardner, Gray, Hatgermoser, Kulczisky, Marten, Metz, Mundt, Neubauer, Payne, Steiger and Wiluts—16

FROM THE SAME.

To the Honorable the Common Council

Gentlemen—I herewith transmit the protest of Edward Wildman against the election of Jeremiah D. Falvey as Alderman of the Sixth ward and of Albert F Gaede against the election of Edmund Atkinson as Alderman of the Sixteenth ward, which was referred to your honorable body by the Board of City Canvassers for such action as may seem proper.

Very respectfully
JOHN A SCHMID
Clerk Board of City Canvassers

Accepted
The following are the protests

To the Honorable Board, the City Canvassers

Gentlemen Your petitioner would respectfully represent that he was a candidate on the Republican ticket for the office of Alderman of the Sixteenth Ward of the City of Detroit and that he was voted for by the electors of the aforesaid ward at the election held Tuesday, November 7, 1899 that the respective boards of inspectors of the election for the several districts of the said ward have made statements of returns of the votes cast for your petitioner and for Edmund Atkinson who was the Democratic candidate for said office by the face of which returns it appears that the said Atkinson received more votes for said office than your petitioner but your petitioner hereby files his protest with your honorable body against issuing a certificate of election to said Edmund Atkinson as Alderman of said ward, because of the errors, mistakes, illegalities and frauds in the conduct of said election in said ward, and in the canvass by the inspectors of election

Said errors, mistakes, illegalities and frauds having occurred in each of the precincts of said ward, your petitioner conceives that sufficient reason such as had such errors, mistakes, illegalities and frauds not been committed, and had said votes been duly canvassed and said returns correctly made, your petitioner would be found to have received the largest number of votes for said office, and would have been duly elected

Your petitioner respectfully represents, in addition to the above, that in the third precinct of said ward at said election, there was used, instead of the usual system of voting a voting machine and that the work of such machine at such election was so manifestly and admittedly incorrect as to make any returns from said precinct ridiculous, ludicrous and utterly unworthy to be received as intelligently indicating the action of the electors of said precinct And that it is the manifest duty of your board to regard such returns as nullities and not to receive them

Your petitioner further charges that the use of said machine is unauthorized by any valid law and is inconsistent with the election laws of the city and state

Your petitioner also charges irregularities in the conduct of the election in said precinct in reference to said machine, which apart from the illegality of the use of said machine and the utter failure of the same to record the will of the voters constitute fraud Among such irregularities, your petitioner charges that the challenger of the Democratic party in said precinct, one Patrick Nester, did on said election day take and keep a position in election booth of said precinct next to said machine which enabled him to observe and determine the nature of the votes cast by each voter and that he maintained the position aforesaid for a period of two hours prior to the polls closing when he voluntarily gave up his position owing to the remoteness of some of the officials duly in charge of said election

Your petitioner charges that the unlawful action of said Nester as to the said polls prior to any date the election in said precinct

Your petitioner hereby makes a correction to the method pursued by each of said persons illegal, irregularities and frauds by your petitioner in the count of the First Second Fourth and Fifth Precincts in adding up the totals of the returns of said precincts And have duly presented a notice of this protest to each of the inspectors of said precincts and that they shall make an investigation of the facts herein set forth

ALBERT F GAEDE

Subscribed and sworn to before me this 7th day of November 1899
GEORGE T GASTON
Notary Public Wayne Co Mich

To the Board of City Canvassers City of Detroit

Gentlemen the undersigned your petitioner would respectfully represent that he was a candidate on the

[illegible] Alderman ticket for the office of Alderman of the Sixth Ward of the City of Detroit and that he was elected by the electors of the aforesaid Ward for said office of Alderman at the election held Tuesday, November 6, 1894.

That the representative Boards of Inspectors of Election for the First Second, Third and Fourth Districts of said Sixth Ward have made statements of returns of the votes cast for said office and for Jeremiah Falvey, who was the Democratic candidate for said office by the face of which it appears the said Jeremiah Falvey received more votes for said office than any other person not but not sufficient to elect him said district above named and specified there were cast for said Jeremiah Falvey as appears from the statements made by said Board of Election Inspectors of said precincts in figures as follows

That in the counting and canvassing of the votes cast for said office of Alderman of said Sixth Ward in the First Precinct of said ward there were [illegible] votes cast for your petitioner which were not counted for your petitioner and there were two votes counted for said Jeremiah Falvey which should not have been counted for said Jeremiah Falvey

That in the Second Precinct of said Sixth Ward your petitioner received [illegible] votes than the number returned as having been voted for him and that said Jeremiah Falvey received [illegible] votes than the number returned as having been voted for him

That in the Third Precinct of said Sixth Ward your petitioner received [illegible] votes than the number returned as having been voted for him and that said Jeremiah Falvey received [illegible] votes than the number returned as having been voted for him

That in the Fourth Precinct of said Sixth Ward your petitioner received [illegible] votes than the number returned as having been voted for him and that said Jeremiah Falvey received [illegible] votes more than the number returned as having been cast for him

That by reason of said errors in counting and canvassing the votes cast for said office of Alderman your petitioner was deprived of [illegible] votes which were cast for him in excess of the number returned as having been voted for him and said Jeremiah Falvey received [illegible] votes more than the number returned as having been cast for him

Your petitioner avers that he himself and [illegible] of his friends and supporters have been [illegible] and that [illegible] votes cast for your petitioner were not counted for him and that [illegible] votes cast for said Jeremiah Falvey were counted for him and that by reason of said errors in counting and canvassing the votes cast for said office of Alderman of said Sixth Ward your petitioner has been deprived of [illegible] votes for said office of Alderman of the said Sixth Ward and [illegible] elected to said office and your petitioner therefore asks a recount of said votes by the proper officials and that the Register of Deeds be ordered to open the ballot boxes and [illegible] said votes and that the said Board of Inspectors of Election of the First Second Third and Fourth Precincts of the Sixth Ward of the City of Detroit be ordered to make [illegible] report

Respectfully submitted

City Clerk.

AN ORDINANCE to provide for the operation of cars upon the Fort Wayne & Belle Isle Railway Company's tracks from the intersection of the westerly city limits and Fort street easterly to Clark avenue and from the intersection of the westerly city limits and the River Road easterly to Clark avenue, and upon Clark avenue, northerly to the intersection of said avenue and Fort street.

Whereas, It is evident that the service now given by the Fort Wayne & Belle Isle Railway Company from the intersection of the westerly city limits with Fort street easterly to Clark avenue and from the intersection of the westerly city limits and the River Road easterly to Clark avenue and upon Clark avenue northerly to the intersection of said avenue and Fort street is wholly inadequate and that the public convenience requires that the cars be run more frequently upon such portions of the tracks of said Fort Wayne & Belle Isle Railway Company.

It is hereby ordained by the People of the City of Detroit:

Section 1. That it shall be the duty of the Fort Wayne & Belle Isle Railway Company, its successors and assigns to furnish and provide sufficient cars so that a half hour service shall be given on Fort street between Clark avenue and the westerly city limits and on Clark avenue from Fort street to the River Road, thence on the River Road to the intersection of the said River Road with the westerly city limits. Said service to be given from 6 o'clock a. m. to 11 o'clock p. m. and after 11 o'clock p. m. then a 40-minute service.

Sec. 2. For each and every day on which the Fort Wayne & Belle Isle Railway Company, its successors or assigns, shall neglect to provide the service herein ordered said company may be complained of as for a distinct offense, and punished as hereinafter provided.

Sec. 3. Any violation or failure to comply with the provisions and requirements of this ordinance shall be punished by a fine of not to exceed three hundred dollars and said fine when so imposed may be recovered from the person or corporation so convicted in an action of law in the proper court.

Sec. 4. This ordinance shall take immediate effect.

Approved January 2, 1900.

WILLIAM C. MAYBURY,
Mayor.

Attest:

JOHN A. SCHMID,
City Clerk.

(Official papers please copy.)

AN ORDINANCE fixing the minimum price at one dollar and fifty cents per day to be paid laborers on public work.

It is hereby ordained by the People of the City of Detroit:

Section 1. No board, commission, contractor or sub-contractor doing any work for the City of Detroit, or for any board or commission for said city, shall pay to any laborer or workman working for such board, commission, contractor or sub-contractor, or doing any work for the said board commission or city, a sum less than one dollar and fifty cents per day. Whenever any contract is to be let by the city for any board or commission the minimum wage of one dollar and fifty cents per day shall be in and constitute a part of the specifications upon which contractors shall make their bids, and shall become a part of the contract.

Sec. 2. No board commission, contractor, sub-contractor or any other person shall employ either directly or indirectly for any public work within the City of Detroit any workmen or laborers who are not residents of the City of Detroit.

Sec. 3. Any contractor or sub-contractor violating any of the foregoing provisions shall be debarred from any further contracts with the city, or any board or commission of the city and upon the written petition of any such laborer, filed with the City Controller, stating that he is not receiving at least one dollar and fifty cents per day, the City Controller shall protect such laborer or laborers as far as lies in his power, by withholding his warrant for any balance which may be due any contractor which balance may be applied to such default as may be due such petitioner, provided that the amount of such default shall have been deducted from the balance due the contractor from the city.

Sec. 4. This ordinance shall take immediate effect.

Approved December 26, 1899.

WILLIAM C. MAYBURY,
Mayor.

Attest:

JOHN A. SCHMID,
City Clerk.

F. A. BLADES,
Controller

Accepted and referred to the Committee on Claims and Accounts.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—I herewith submit without my approval the following bills

[illegible]	[illegible]
Detroit Tribune	125 74
Daily Abend Post	123 84
Detroit Journal Company	97 20

These bills are for the publication of the [illegible] under the act [illegible] called Lockoff law, which was held to be unconstitutional by Circuit Court, and [illegible] Supreme Court, and [illegible] Controller at present from the payment of these bills. I therefore submit them to your Honorable body for such disposition as you may deem advisable.

I have deferred action upon these vouchers with the hope that some way might be found to pay them, as the bills were all contracted prior to the decision of the court but I am now advised by the Corporation Counsel that there is no alternative but to disapprove them

I recommend the reference of this communication to the Committee on Claims and Accounts

Respectfully submitted,
F. A BLADES,
Controller

Accepted and recommendation concurred in.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts to whom was referred the communication from His Honor the Mayor relative to the bills presented by Messrs. O'Neill and Guthrie, the expert engineers from Chicago and Buffalo, incurred upon their recent trip to the city at the invitation of this body, respectfully report that we have carefully considered the same and recommend, inasmuch as we believe the same to be correct, that the Controller be instructed to pay the same out of the Contingent Fund and we herewith offer the following resolution.

Respectfully submitted,
JOHN C. BLEIL,
W. H. BEAMER,
RICHARD P. JOY,
BASIL A. LEMKE,
M. W. McGUIRE.

Accepted and on leave the following resolution was offered:

By Ald. Bleil.

Resolved, That the City Controller be and he is hereby directed to pay the amount of the bills submitted by Messrs. O'Neill and Guthrie, the expert engineers from Chicago and Buffalo and also the bill of the Hotel Cadillac incurred during their stay out of the Contingent Fund amounting to $201.17.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Bleil, Coots, Deimel, Falvey, Frueher, Grunow, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Steiger, Tossy, Weibel, Weller, and the President—32.

Streets.

To the Honorable the Common Council.

Gentlemen—Your Committee on Streets to whom was referred the communication from the Board of Public Works submitting proposals for paving alley No. 3 in block bounded by Third, Second, Front and River streets with block brick on concrete foundation, respectfully report that we have carefully considered the matter and beg leave to state that your committee are of the opinion that the bids submitted are too high and furthermore that the work cannot be done at this time of the year. We therefore recommend that the contract be indefinitely postponed.

Respectfully submitted,
WM. F. McELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted and adopted.

Ordinances.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the several petitions to change the name of Welsh avenue to Military avenue, Sixth street to Dickinson avenue, Thirteenth street to Lafferty avenue, Saunders street to Buchner avenue and Sullivan avenue to Crescent avenue, respectfully report that we have carefully considered the same and beg leave to state that we are of the opinion that the name of any street should not be changed simply because the residents thereon desire the same so to be done. The several reasons presented before your committee are insufficient to grant their requests, and, furthermore, we beg leave to state that not only are the people along the street to be considered but the general public, who are interested to such an extent that it is as inconvenient to them to have the street name changed as it is for those living on the street to be satisfied with the name the street now has. We therefore recommend that the prayer of the several petitioners be denied.

Respectfully submitted,
PETER KNAUSS,
BASIL A. LEMKE.

Laid on the table.

Bridges.

To the Honorable the Common Council.

Gentlemen—Your Committee on Bridges, to whom was referred the communication from the Board of Public Works submitting proposals for furnishing the City of Detroit with white oak lumber for repairing the Belle Isle bridge respectfully report that we have carefully considered the matter and beg leave to state that inasmuch as we believe said bill to be high we recommend that the contract entered into with McClure, Kelsey & Co. be rejected and the Board be instructed to readvertise and we herewith offer the following resolution.

Respectfully submitted,
OSCAR B. MARX,
JOS. H. HANSJOSTEN,
OTTO REINHARDT,
J. D. FALVEY,
ANTHONY WEILER.

Accepted and on leave the following resolution was offered:

By Ald. Marx.

Resolved, That the contract entered into by the Board of Public Works with McClure, Kelsey & Co. for furnishing the City of Detroit with 100 M feet of white oak lumber be and the same is hereby rejected, and further

Resolved, That the Board of Public Works be and is hereby authorized and directed to readvertise for the usual time and in the usual manner for the furnishing of 100 M feet of white oak timber to the City of Detroit for the repairing or resurfacing of Belle Isle bridge.

Adopted as follows

Yeas—Ald Atkinson Beamer, Biehl, Coats Delmel Fulver Fracher Grusow Hanssgster Hilger, Houghton Jos Knauss Koch, Koenig Lemke, McGuire Marx, Mathew Merrell Miller Moeller Peoples, Reinhardt, Schmidt Smith Snow, Steiger Tossa Weibel, Weller, and the President 25

Special.

To the Honorable the Common Council.

Gentlemen Your Special Committee on Streets and Ordinances, to whom was referred back the petitions and ordinance relative to the construction of an extension to the Brush street line respectfully report that we are of the opinion that, inasmuch as there is a committee permanently appointed for the handling of such matters, namely, the Franchise Committee it should be referred to that committee for further action and therefore recommend such reference.

Respectfully submitted,

WM F MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL,
PETER KNAUSS,
BASIL A LEMKE.

Accepted and recommendation concurred in

Ald Marx moved that the Committee on Streets and Ordinances be discharged from further consideration of the ordinance submitted by Mayor Pollasky on Nov 2nd 1908 relative to a belt railway etc, which motion prevailed

AN ORDINANCE to amend Sections 2 and 4 of an ordinance entitled 'An Ordinance fixing and establishing the different routes of the Detroit Railway, and to regulate the running of cars upon said routes,' approved February 2nd, 1897.

It is hereby ordained by the People of the City of Detroit

Section 1. That section 2 of an ordinance entitled "An Ordinance fixing and establishing the different routes of the Detroit Railway, and to regulate the running of cars upon said routes," approved February 2nd, 1897, is hereby amended so as to read as follows.

Sec. 2. The line now known and designated as the "Crosstown & Belle Isle Line" shall be operated as a continuous route from the corner of Warren avenue and Fourteenth avenue to the Belle Isle bridge through the streets and avenues now traversed by said line, and shall be operated as a loop line through said streets, returning to said corner of Warren avenue and Fourteenth avenue by Forest avenue to the corner of Forest avenue and Fourteenth avenue, and thence northerly upon Fourteenth avenue to the corner of Fourteenth avenue and Warren avenue, the place of beginning. Cars shall be run upon said route no further apart than eight minutes, except between the hours of 10 p. m. and 5 a. m.

That portion of said Crosstown & Belle Isle line extending from the western extremity of Warren avenue, shall be operated as follows. The cars upon said line shall run from the western extremity of Warren avenue over the lines of said route to Fourteenth avenue, thence southerly on Fourteenth avenue to Forest avenue, and shall return over the same route from the intersection of Fourteenth avenue and Forest avenue, and shall run no further apart than eight minutes, except between the hours of 10 p. m. and 5 a. m. The cars upon said portion of said line shall be run so as to make connection as near as may be at the intersection of Forest avenue and Fourteenth avenue with the Belt line up Hastings.

Sec. 2. Section 4 of said ordinance is hereby amended so as to read as follows:

Sec. 4. The line now known and designated as the 'Fourteenth Avenue and Hastings Street Line,' shall be run as a continuous route Between 5 o'clock a. m. and 10 p. m., except Sundays cars on this line shall leave the corner of Beaubien street and Bethune avenue east and the corner of Fourteenth avenue and Warren avenue west at least every eight minutes between 6:30 a. m. and 8 a. m., and between 5 p. m. and 6:15 p. m., except Sundays, cars shall leave the above mentioned points at least every four minutes. Every other car going north on Beaubien street shall run through to the city limits Between 6:30 a. m. and 8 a. m. and between 5 p. m. and 6:15 p. m. every other car going north on Fourteenth avenue shall run to the corner of Warren avenue west and Thirty-first street.

Sec. 3. This ordinance shall take immediate effect.

Approved Jan. 9th 1900.

WILLIAM C. MAYBURY
Mayor.

Attest:
JOHN A. SCHMID,
City Clerk.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council:

Gentlemen: I herewith transmit to your honorable body a communication received from Col. Kallman, member of the Board of Public Works, having reference to the enlargement of the Belle Isle bridge, or the survey of a location for a new bridge, which must be a matter of early consideration. At the close of the last summer season public attention was called to the inadequacy of the present bridge to meet public requirements, and indeed very great difficulty and danger were experienced in the transit of people to and fro across the bridge. There is not room upon the present structure to accommodate the public travel which increases as our population increases, and as our people learn more and more of the pleasure of visiting the island. I deem this subject one of very great importance, and think it ought to have the earliest consideration, and a report from a committee of your honorable body. Should we take the initial step at this time it would be years before a new bridge could be constructed and in use, and the necessity of using the present bridge to its fullest capacity or reconstructing the same, is worthy of investigation.

I would therefore, recommend that this communication, and that of Col. Kallman be referred to the appropriate committee of your honorable body for an early report.

Respectfully submitted,
WILLIAM C. MAYBURY,
Mayor.

Accepted. The following is the communication referred to:

Hon. William C. Maybury, Mayor:

Dear Sir: The heavy traffic to Belle Isle Park has made the construction of a second bridge from the Detroit shore to said park a necessity.

I would therefore respectfully recommend that a committee be appointed to select a suitable site (85 or 90 ft.) on the river front for this bridge. The engineering party, which at present has time, can make the necessary survey, after which the plans, specifications and estimates will be prepared.

The enlargement of Belle Isle from 700 to 1,005 acres will also be considered.

Yours respectfully,
H. KALLMAN,
Vice-President.

Referred to the Committee on Bridges.

Accepted and placed on file.

From the County Treasurer.

To the Honorable the Common Council:

Gentlemen—On Feb. 8, 1898 your Board adopted a resolution relative to the erroneous assessment for the years 1896 and 1896 of certain lands which had been acquired by the City of Detroit for street purposes through condemnation proceedings in the opening of Kercheval and Alexandrine avenues and Sylvester and Leslie streets, requesting the cancellation of the state and county taxes, for three years. The authority for cancellation of state and county taxes, owing to erroneous assessment is vested solely in the Auditor General of the State and your resolution together with proper statement by this office, was duly forwarded to the Auditor General's department and I have the honor to report that the sales for these years were canceled April 4 1898 and taxes thereon discharged from the records of this office.

I find on examination of the records that the land contained in your resolution of February 8, 1898 has also been erroneously assessed for the year 1897. Taking your resolution as a **basis for action, I made application** to the Auditor General for the cancellation of these taxes and I have the honor to report that the same were **cancelled on January 18th, and the** taxes thereon discharged. In this connection, I believe it of importance to direct your attention to the fact that there are a large number of descriptions of land still upon the books of this office which have been acquired by the City of Detroit for various purposes, upon which taxes remain unpaid or tax titles have been acquired owing to the non-payment of taxes. During the past week my attention has been drawn to several instances of this kind.

For example lots 5 and 6, block 35, S. Hunt street, sub of W ½ of P. C. 91, from German street to Railroad street (Dubois Farm) which is now owned by the city and is occupied by the Police Department. This land has been sold for taxes of 1896 and unless redeemed or otherwise disposed of before May 1, will pass into the hands of the purchasers of tax titles. Lot 38, E. Mt. Elliott avenue, Walker & Sub of the west part of lots 24 and 25 and SW part of lot 26 Sub of the McDrum Farm, was acquired by the city in the opening of Elliott street and is now used for street purposes. This lot has been assessed for the taxes of 1896 and has been sold for the taxes of that year. There are numerous instances of this kind, which grow out of the fact that it is a common practice for owners of land to be taken for street purposes to cease the payment of taxes when condemnation proceedings are first begun.

Failure to discharge these taxes from the records of this office will eventually be a source of annoyance and expense to the city and I would respectfully recommend that the proper officer should be instructed to make such an examination into the matter as would result in clearing our records of lands thus erroneously assessed.

Respectfully,

CHAS. A. BUTZEL,
County Treasurer.

Accepted and referred to the Committee on Taxes.

From the Clerk.

That he presented such portion of the proceedings of the last session as is required by the Charter to be so presented to his honor the Mayor for approval on the 20th inst. and that they were approved on the 23d inst.

Franchises.

To the Honorable the Common Council

Gentlemen—Your Committee on Franchises, to whom was referred the matter of the Brush street extension, respectfully report that we have carefully considered the matter and beg leave to state that your committee were reluctant to grant any extension under the terms of the present franchise, but were convinced in this case that it is an absolute public necessity. We therefore recommend the adoption of the following ordinance.

Respectfully submitted

FRED W. SMITH,
OSCAR B. MARX,
WM. C. HOUGHTON.
WM. HILLGER.

Accepted

The following is the ordinance.

AN ORDINANCE supplemental to an ordinance authorizing the Detroit City Railway Company to construct and operate street railway lines on Brush and Russell streets, approved January 5th, 1885, and authorizing the extension of the Brush and Russell street railway line from its present terminus on Russell street and Clay avenue to St. Aubin avenue.

It is hereby ordained by the People of the City of Detroit

Section 1. Subject to and in accordance with the provisions and limitations of an ordinance authorizing the Detroit City Railway Company to construct and operate a street railway on Brush and Russell streets, to the south line of the Lake Shore & Michigan Southern railway crossing, approved February 5th, 1885, consent permission and authority are hereby granted to the Detroit Citizens Street Railway Company to construct, extend and operate a single track street railway with necessary and suitable turnouts, switches, from the present terminus at said Lake Shore & Michigan Southern railway crossing on said Brush and Russell street to Clay avenue, thence westerly on and along Clay avenue to St. Aubin avenue. Provided that the consent of the commissioner of railroads to cross the tracks of the said several railroads at grade cannot be obtained and said street railway is thereby compelled to transfer its passengers to and from the cars operated on the tracks hereby authorized to be constructed with said grades be separated, then said transfer shall be had without charging any additional fare and said extension shall in all respects be treated as a part of said Brush and Russell street line, so-called. And provided, further that whenever the grades at said crossing shall be separated then the said grantee herein shall immediately complete the construction of its tracks in conformity with the grade of the street and in accordance with the ordinances relative to laying street car tracks.

Sec. 2. This ordinance shall take effect when the said railway company shall have filed in the City Clerk's office its written acceptance hereof.

Read twice by title, ordered printed and laid on the table.

To the Honorable the Common Council

Gentlemen—Your Committee on Streets to whom was referred the petition of Pauline C. Bihl for leave to pay original assessment on the matter of paving Fourteenth avenue, respectfully report that we have carefully considered the matter and beg leave to state that Fourteenth avenue was paved in 1893, that the assessment roll for the paving of this street comes under the same category as Jefferson avenue and several other streets which have been in litigation in the Circuit and Supreme Courts of this state for several years, that your committee is advised by the Corporation Counsel that it would be to the best interests of the city to accept the original amount of the assessment, as appears upon the books of the City Treasurer amounting to $2x.96 and save the expense of further litigation. We therefore recommend that the City Treasurer be instructed to receive the original amount of said paving assessment as appears upon the books against lots 10 and 11 of Hamlin & Fordyce's subdivision of lots 8 and 9 of Leavitt's subdivision of the Messmore Farm and lot 1 of Hamlin & Fordyce's subdivision of lot 7 of Leavitt's subdivision of the east part of fractional sec. 36, T. 1 S., R. 11 E., and East part of fractional sec. 1, T. 2 S., R. 11 E. Fourteenth avenue and we herewith offer the following resolution

Respectfully submitted

WM. F. MOELLER,

Special.

To the Honorable the Common Council.

Gentlemen: Your Special Committee to whom was referred the petition of Edward Waldman relative to certain irregularities in counting the votes for Alderman in the Sixth Ward, respectfully report that we have carefully considered the matter and beg leave to state that we counted the votes cast for the office of Alderman on Nov. 7th, 1899 in the Sixth Ward as asked for according to the petition and also as asked for verbally by the petitioner Mr. Falvey, that the mistakes as claimed by the petitioner were found to be true even to a greater number than he alleges, that gross errors were committed in debiting and crediting the votes cast. After a recount of all the votes cast for the office of Alderman in said ward on the 7th day of November 1899 we find the result to be as follows:

Total number of votes cast for Edward Waldman	1,103
Total number of votes cast for Jeremiah D. Falvey	1,100
Majority for Waldman	3

Your committee therefore recommend, inasmuch as Mr. Edward Waldman received a majority of votes cast for the office of Alderman in the Sixth Ward that said Edward Waldman be declared member of this Council and we herewith offer the following resolution.

Respectfully submitted,
HOMER McGRAW,
J. J. HAARER,
L. F. FRACHER.

Accepted and on leave the following resolution was offered:

By Ald. McGraw:

Resolved, That Edward Waldman be and he is hereby declared member of the Common Council from the Sixth Ward, having been found the legal number of votes cast in said ward for Alderman.

Adopted as follows:

Referred to the Board of Public Works.

FOURTH WARD.

By Ald Snow:

Whereas, That portion of the general public who have occasion to use or are continually using the Third street line of the Detroit Citizens' Street Railway Co are bitterly complaining of the inadequate service given upon said line, which is accounted for by the fact that they compel a car to make a round trip in 4 minutes which it is almost impossible to do especially during the hours when the most travel mostly without compelling passengers to wait for the car following which in nine cases out of ten is generally the same condition, thereby delaying the public, and

Whereas This defect can easily be remedied by restoring the car which has been taken off the line allowing the conductors to make the round trip in 6 minutes instead of 4 minutes, the present schedule, therefore, be it

Resolved, That the Detroit Citizens' Street Railway Co be and is hereby requested to cause the service on Third street line to be so altered to meet the requirements of the citizens using the same by adding another car to said service

Adopted.

FIFTH WARD

By Ald Weibel

Resolved, That the Board of Public Works be and is hereby requested to transmit an estimate for the repaving of Orleans street from Alfred street to Gratiot avenue with brick on concrete foundation

Referred to the Board of Public Works

EIGHTH WARD

By Ald Schneider

Whereas, The cars of the Detroit Ypsilanti & Ann Arbor R R run down Michigan avenue at about the rate of 20 or 25 miles an hour which is a direct violation of the ordinance regulating the running of street cars and

Whereas, The said electric cars are not of the highest type of the electric car and so far as their speed is concerned they are not safe, and they are heard to complain with the speed of the cars of the Detroit Railway Co by and

Whereas, It is urged by the citizens to have the speed of the cars reduced to the ordinance rate of speed therefore be it

Resolved, That the police department be and is hereby requested to make complaint against the Detroit Citizens' Street Railway in the proper court for the reason that said cars do run at a greater rate of speed than the ordinance provides.

Adopted.

TWELFTH WARD.

By Ald. Peoples.

Resolved, That the Board of Metropolitan Police Commissioners be and the same are hereby instructed to enforce the state liquor law regarding the opening of saloons on the first day of the week commonly called "Sunday," and that the Police Commissioners direct the police officers gathering the evidence of the violation of the above named law, to be attired in citizens' clothes or dress.

Ald. Peoples moved the adoption of the resolution.

Ald. Crowley moved as an amendment that the resolution be laid on the table, which motion prevailed.

FOURTEENTH WARD.

By Ald. Fracher.

Resolved, That the Board of Public Works be and is hereby requested to consider the advisability of paving Rose street from Clark avenue to Twenty-fourth street with cedar on the sole foundation under the $200,000 clause of the Charter.

Referred to the Board of Public Works.

By Ald. Fracher.

Resolved, That the Corporation Counsel be and he is hereby requested to prepare an ordinance repealing an ordinance approved Jan. 3, 1900 entitled "An ordinance to amend section 2 [illegible] of an ordinance entitled 'An ordinance fixing and establishing the different routes of the Detroit Railway and to regulate the running of cars upon said routes'" approved February 21, 1896, and present the same to this Council at its next regular session.

Adopted.

FIFTEENTH WARD.

By Ald. Marx.

Resolved, That the Michigan Central Railroad Co. be and they are hereby requested to erect a flagman to be stationed at the intersection of Rosa street and the Belt Line railroad.

Adopted.

By Ald. Marx.

Resolved, That the Detroit City Gas Light Company be and they are hereby directed to lay pipe on the Baker street road from Fort road avenue via Marion and Jefferson avenues to the city limits at Mt. Elliott avenue, as shown by the plan.

Referred to the Committee on Franchises.

SIXTEENTH WARD.

By Ald. Atkinson.

Whereas, The time table now in force by the Michigan Central railroad in the city of Detroit, in the month of January, 1900, is a most unsatisfactory one, and

Whereas, Said time table does not provide for the accommodation of passengers who desire to leave the city on the early morning trains, be it

Resolved, That the Committee on Railroads be requested to consider the advisability of preparing and reporting to this body an ordinance providing for slower time in the running of these cars, so that motormen may be able to stop for passengers, and yet make the schedule required of them.

Adopted.

The Council then adjourned.

AN ORDINANCE granting to the American Car and Foundry Company permission to construct, maintain and operate two single lorry tracks across Clark avenue so as to connect its property on the west side of Clark avenue, known as all that part of private claims 47 and 53 lying west of Clark avenue, between the Lake Shore & Michigan Southern railroad in the Fourteenth and Sixteenth wards, about 27.84 acres with lots 47 and 53, on the east side of Clark avenue, of Scotten & Lovett's subdivision of all that part of private claim 583 lying north of Dix road and south of the Detroit, Monroe & Toledo railroad and south of the Chicago road.

It is hereby ordained by the People of the City of Detroit:

Section 1. That consent, permission and authority are hereby granted to the American Car & Foundry Company, its successors and assigns, to construct, maintain and operate two single lorry railway tracks, to be operated by hand or horse power, across Clark avenue at right angles, so as to connect its property on the west side of Clark avenue known as all that part of private claims 47 and 53 lying west of Clark avenue between the Lake Shore & Michigan Southern railroad in the Fourteenth and Sixteenth wards, about 27.84 acres with lots fronting, on the east side of Clark avenue, of Scotten & Lovett's subdivision of all that part of private claim 583 lying north of Dix road and south of the Detroit, Monroe & Toledo railroad and south of the Chicago road.

Sec. 2. Said tracks shall be laid under the supervision of the Board of Public Works, and shall conform to the grade of the streets in such a manner as to cause interfere with the ordinary travel on said street; and said grantee shall construct and maintain planking between said tracks in the portion of the street set aside for sidewalk purposes, and shall provide and keep in repair such suitable and proper approaches to said tracks at a point that teams, vehicles and persons shall be enabled to cross the said tracks conveniently at all times. Said work shall be done under the supervision and to the satisfaction of the Board of Public Works. The said tracks shall be constructed of grooved rails.

Sec. 3. Said grantee is authorized to use said railway tracks only for the purposes of such lawful business as may be conducted and carried on in the premises by the occupants thereof. The cars to be used on said railway tracks shall be propelled by hand power, the entire design of the track being to permit transportation to and from the premises of said grantee.

Sec. 4. The grantee shall keep the surface of the street as occupied by said railway track in good repair and order and shall restore said street, sidewalks and grounds to an equally good condition as when disturbed and shall, by good and sufficient bond, fully indemnify and save harmless the City of Detroit from any and all claims for damages for which said city shall be made or become liable to pay by any reason of the construction, making or operating of said railway, or the giving or the allowing of the license right and privilege hereby granted. Whenever said street shall be paved or repaved, the said grantee shall pay the cost of the paving or repaving of the portion of the street included between the rails.

Sec. 5. The privileges hereby granted shall in no wise restrict or alter the right of the City of Detroit, or any of its authorized municipal boards or officers to enter upon said street and occupy the same in building public works for general public purposes of any kind whatsoever.

Sec. 6. No employe of the said grantee shall permit any car to stop or remain on the said street so as to obstruct the free and ordinary use thereof, and no such person or any person or said grantee, shall permit any car to remain on said track during the hours of the day or night.

Sec. 7. The right is reserved by the Common Council of the City of Detroit to make amendments to this grant and ordinance, and such other relief, orders or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accommodation of the city and public in relation to said railway.

Sec. 8. This ordinance shall take effect immediately upon the filing of the written acceptance of the terms thereof in the office of the City Clerk of the City of Detroit by the said grantee, accompanied by a bond for one thousand dollars, running from said grantee with two or more sureties conditioned as mentioned in section four, provided such acceptance and bond are filed within thirty days after the adoption thereof.

Sec. 9. Any violation of or neglect or refusal to comply with the provisions of this ordinance by the said grantee, or by any agent or person in the employ of said grantee or any person or corporation connected with the operation of cars on the track hereby granted shall be punished by a fine not to exceed one hundred dollars and costs; and in the imposition of any such fine and costs the court may make a further sentence that the offender be committed to the county jail or the Detroit House of Correction until the payment of such fine and costs for any period of time not to exceed six months.

Sec. 10. The right to repeal this ordinance at any time is expressly reserved, and upon the repeal of the same all the rights and privileges hereby granted shall cease and be at an end and said grantee shall, at its own expense remove all the track laid under the authority of this ordinance from the said street and restore the roadbed to a condition equal to its present condition.

Approved Jan. 9, 1900.

Roll [illegible] For constructing and laying a water pipe or main [illegible] Brandon avenue from a point 66 feet north of [illegible] to a point 33 feet north of [illegible]

Roll [illegible] For constructing and laying a water pipe or main in Ashton avenue from a point 132 feet north of north line of Warren avenue to a point 33 feet north of a north line of Mt. Elliott avenue.

The said assessment rolls are made in three parts.

Part 1 is due and payable within 30 days from the date of this notice, without penalty or interest.

Parts 2 and 3 become due and payable in one and two years respectively after part one is due with interest at the rate of six per cent per annum.

Either of said parts may be paid within thirty days from the date of this notice, without interest or penalty.

If either of said parts one, two or three, shall not be paid when they become due, five per cent penalty and interest at the rate of six per cent per annum will be added.

If the foregoing assessments are not paid within sixty days after they are due, the property assessed will be advertised and sold as provided by law.

THOS. M. LUCKING,
Ju Receiver of Taxes.

COMMON COUNCIL

(OFFICIAL.)

Detroit, Tuesday, January 30, 1900.

The Council was called to order by the President, the Honorable Robert Battle.

Present—Ald Atkinson, Biell, Coots, Deimel, Fracher, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Smith, Snow, Steiger, Tossy, Wethel, Weller, Wildman and the President—25.

The Journal of the last session was approved.

Unfinished Business.

Ald Peoples moved to take from the table a resolution laid over Jan. 23, 1900, instructing the Board of Metropolitan Police Commissioners to enforce the state liquor law regarding the closing of saloons on Sunday, which motion prevailed.

Ald Peoples moved the adoption of the resolution.

The President then declared the resolution out of order.

Ald Grunow, Haarer, Hansjosten and Schneider entered and took their seats.

Resolution.

Unanimous consent being granted, the following was offered:

By Ald Coots:

Whereas, As set forth in the opinion of the Corporation Counsel the Common Council of the City of Detroit has no authority to strip the duties of the Police Commission and instruct that Commission how it shall handle its affairs, or otherwise; and

Resolved, That it is the sense of this body that the matter of the enforcement of the law rests entirely with those solemnly sworn to see that they are enforced, namely, the City's Chief Executive and the Board of Police Commissioners.

Ald Coots moved the adoption of the resolution.

The following was offered as a substitute:

By Ald Tossy:

Whereas, The resolution offered by Ald Peoples is evidently the result of the present sensational agitation now created by seekers after notoriety, whose statements and accusations would appear that Detroit was controlled by the criminal classes, unfit for the residence of decent people; and

Whereas, Such statements and charges, if believed, would work harm to our city and lessen its reputation in the eyes of the balance of the country, and are entirely without foundation in fact; therefore be it

Resolved, That it is the opinion of this Common Council that the records show the fact that no city in the United States of its size is freer from crime than the city of Detroit, that the experience of last year has demonstrated that, not only are the lives and property of our citizens protected by an efficient police force, but that large crowds can be held in this city, where thousands of strangers are congregated, without the loss of a dollar or a dollar's worth of property or the molestation of a single person, that the observance of the Sabbath and the general good order of the city have elevated the people who attended the Christian Endeavor and all other conventions.

Resolved, That the Common Council of the City of Detroit denounce the efforts of these artful agitators to blacken and besmirch the fair name and fame of our city.

Ald Tossy moved the adoption of the substitute.

Ald Grunow moved the previous question, which motion was seconded.

The question then being, "Shall the main question be now put?" it was so ordered, as follows:

Yeas—Ald Atkinson, Biell, Coots, Deimel, Fracher, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Steiger, Tossy, Wethel, Weller, Wildman and the President—33.

Nays—None.

Then the motion of Ald Tossy did not prevail.

The motion of Ald Coots then prevailed.

Third Reading of Ordinances.

Ald Smith moved to take from the table an ordinance laid over Jan. 23, 1900, entitled, "An ordinance supplemental to an ordinance authorizing the Detroit City Railway Company to construct and operate street railway lines on Brush and Russell streets, approved January 5th, 1885, and authorizing the extension of the Brush and Russell street railway line from its present terminus on Russell street and Clay avenue to St Aubin avenue," which motion prevailed.

The ordinance was then placed on the order of third reading.

Ald Smith moved to amend section 1 by adding thereto the following:

"Provided, further, that the said road shall be completed on or before July 1st, 1900, otherwise this ordinance to be null and void," which motion prevailed.

Ald Grunow moved to amend sec 2 by adding thereto the following: "Said acceptance to be filed within 30 days after the adoption of this ordinance," which motion prevailed.

The ordinance as amended was then adopted as follows:

Yeas—Ald Coots, Deimel, Fracher, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Knauss, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Moeller, Peoples, Reinhart, Schneider, Smith, Snow, Steiger, Tossy, Wethel, Weller, Wildman and the President—29.

Nays—Ald Atkinson, Biell, Koch and Miller—4.

The title to the ordinance was confirmed.

Petitions Presented.

BY ALD HAARER.

Of Charles S Waite for the cancellation of certain taxes.

Referred to the Committee on Taxes.

BY ALD. MARX

Of Vincent Field et al, in reference to the running of cars on Fort Wayne & Belle Isle railway line east of Woodward avenue.

Accepted, and unanimous consent being granted the following resolution was offered:

By Ald. Marx:

Resolved, That whereas the Fort Wayne & Belle Isle Railway Co. have changed the running of through cars to the east side, and

Whereas, Said change is detrimental to the patrons of said line east of Woodward avenue, be it

Resolved, That said railway company be directed to reconsider their action and that this matter be referred to your Committee on Franchises for further consideration.

Adopted.

BY ALD. HANSJOSTEN

Of Frank Schoenherr et al. for the opening of Caufield avenue from Helen avenue to Field avenue.

Referred to the Committee on Street Openings.

BY THE CLERK

Of Geo. S. A. Davis for damages for personal injuries sustained through falling on an alleged defective sidewalk.

Referred to the Committee on Claims and Accounts.

Of A. Secord for lateral sewer in alley between Brush and Beaubien streets and Hendrie and Mabury avenues.

Referred to the Board of Public Works.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council.

Gentlemen: I respectfully call your attention to the conditions existing in that district of the city bounded by Campbell avenue on the west, Clark avenue on the east, Fort street on the north and River street on the south. There is not a parallel street opened between Fort street and River street and connecting the easterly and westerly streets mentioned within the above described boundaries. In certain parts of the district streets are opened for a block or less, but there is no continuing street paralleling the streets mentioned running eastwardly and westwardly. The tracks of the Union Station Company extend through this district about midway between Fort and River streets.

In view of the inconvenience of going from one part of the district to another the tracks are used almost as commonly as though they were laid in a public street. In fact it is a very common way for use by all persons passing eastwardly and westwardly in the district named. The streets running north and south are generally opened through this district and across the railroad tracks, and for personal safety I find that watchmen are stationed at crossings of every fair precaution taken to protect human life. The Baptist Church, [illegible] situated on Merrick street [illegible] living upon any of the parallel streets eastwardly or westwardly thereof must either go around by way of Fort street—a very considerable distance to reach their homes—or must do the thing which children will always be tempted to do, viz: avail themselves of a short cut by way of the railroad regardless of impending dangers. In fact, it may be fairly said that they are not conscious of the dangers that surround them. Four fatal accidents have occurred on the railroad in the district mentioned, and all within a very short time. The frequency of these fatalities seemed to invite a personal inspection of the surroundings, which having been made, I beg to lay the results before you, and to be permitted to make suggestions for the consideration of your honorable body. I think it is essential that streets running parallel with the railroad tracks should be opened on either side thereof in the district mentioned at the earliest possible day. I am certain that this suggestion will meet with the hearty approval of your Committee on Streets or Street Openings, who were called upon to inspect the conditions prevailing. As it will take some considerable time to open the necessary streets, and as the lives of people will continue in constant danger until this relief is given, I would suggest the propriety of building a gravel or plank walk parallel with the premises of the street railway company or said on either side thereof, over which walk people may be enabled, without danger, to pass from one street to another. There is plenty of space adjoining the tracks for this temporary improvement, and I have no doubt that the Union Depot Co. would, without any compensation whatever, permit such a walk to be constructed until more permanent relief can be obtained. I would respectfully suggest that this matter be referred to the Committee on Streets or Street Openings of your honorable body for such recommendation as they may deem proper to make in the premises.

Respectfully submitted,

WILLIAM C. MAYBURY,

Mayor.

Accepted and referred to the Committee on Street Openings and Aldermen of the Sixteenth Ward.

Accepted, and leave being granted the following resolution was offered By Ald. Hansjosten:

Resolved, That the Controller be and is hereby directed to draw his warrant on the Public Building Fund in favor of Spitzley Brothers, for the sum of $1,555.50 as eleventh estimate for constructing a stone and brick market and memorial building for the Grand Army, on Cass market site bounded by Grand River, Adams and Cass avenues.

Adopted as follows:

Yeas—Ald. Atkinson, Bell, Coots, Deimel, Fischer, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Krauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrel, Miller, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Steiger, Tossy, Weibel, Weller, Wildman and the President—33.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Architect Raseman of the Grand Army building, who succeeded John Hess deceased, the original architect, submitted to the Board at its regular meeting on Saturday a communication stating that a number of changes and extras would be necessary to complete the interior of the building as it should be. He claims that they are absolutely necessary and should have been included in the original plans. The Committee on Public Buildings was notified, and consulted with the Board on the matter later in the day and the changes and extras gone over carefully and in agreement was arrived at that the whole matter should be submitted to the Common Council.

In view of the fact that there is no money in the Grand Army Building Fund the entire amount allowed by the Board of Estimates being used in the contract for the building the Board is not in a position to instruct the architect to go ahead and order the work done.

The total amount asked for the changes and extras is $670.50, a detail of which is herewith attached.

To changing girder under casing of stone from 7 in. I to 10 in. I beams .	$ 45.00
To two girders made of three 6 in. I beams 8 ft. long to support brick work of tower	50.00
To wood girder in Post Room enlarged from 8x12 to 12x12	9.50
To two struts of large roof truss, enlarged from 6x12 to 8x12	7.00
To 6 in. pole	40.00
To board floors on second, third and fourth floors	180.00
To 4 sinks in three stories at $25	75.00
To two extra beams in gallery	18.00
	$570.50

The matter of wiring the building for electric lighting, which was entirely omitted from the original plans was also brought up by Architect Raseman, and he urged that immediate action be taken in that matter. The Board decided to advertise at once for bids, as per plans and specifications on file in the Board's office, said bids to be opened next Monday. This was done in order that that amount of time might be saved. The architect's estimate of the cost of the electric light wiring is $800 and this matter is referred to your honorable body the same as the amount for changes and extras.

Respectfully submitted,
J. W. MILLEN

To the Honorable the Common Council:

Gentlemen—The Board of Public Works respectfully reports that lateral sewer No. 1128, heretofore ordered constructed, has been fully completed according to contracts and specifications therefor, and that all parties interested have been fully notified as required by ordinance, and the Board herewith transmits assessment roll No. 6068 for constructing said sewer and respectfully asks its approval and confirmation.

Respectfully submitted,
J. W. MILLEN
President.

Accepted and leave being granted the following resolution was offered

By Ald. Koch:

Whereas, It appears from a communication from the Board of Public Works that lateral sewer

No. 1128, in alleys between Baldwin and Van Dyke avenues, Ferry avenue and Granger street;

Has been fully completed in accordance with the contract and specifications for the same

Whereas, No person has appeared to object to assessment roll 6068, and due notice having been given as required by ordinance,

Resolved, That the lateral sewer above described is hereby accepted and that said assessment roll therefor is hereby approved and confirmed, and the Controller is hereby directed to place the same in the hands of the Receiver of Taxes for collection.

Adopted as follows:

Yeas—Ald. Atkinson, Bell, Coots, Deimel, Fischer, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Krauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrel, Miller, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Steiger, Tossy, Weibel, Weller, Wildman and the President—33.

To the Honorable the Common Council:

Gentlemen—On Jan. 27, 1909, the Board of Public Works placed upon the electric light poles, pole No. [illegible] at the West end of Yarie, an incandescent arc lighting [illegible] the premises on which was $210; the money for which [illegible] taken from the Board of Public Works General Fund. The owner of [illegible] at the electric light pole

and sheds at the yard should be inserted, but for the money should not come from the Board of Public Works General Fund. Inasmuch as the Board of Estimates last year allowed on the General Road Fund the sum of $5 for insurance which is not sufficient to cover the premiums, the matter is now submitted to your Honorable body to take such action in the premises as deemed best. In the meantime the insurance which expired Jan. 25th last has been renewed by an application for renewal pending the action of the Common Council.

Respectfully submitted,
J. W. MILLEN,
President.

Gentlemen: The Board of Health at its meeting held on the 23d inst. instructed me to inform your honorable body that the coal furnished by the Battle Coal Company, under its contract with the City for the Health Board building is of inferior quality, in that it does not yield sufficient heat, makes a large quantity of ashes, does not hold fire well, burns out quickly and seems to contain much soot and sulphur.

These conditions will necessitate the using of a much larger quantity of coal for our building this winter than we estimated.

Franchises.

To the Honorable the Common Council.

Gentlemen Your Committee on Franchises to whom was referred the resolution of Ald Marx relative of the running of the Baker street cars to Field avenue via Mt Elliott and Jefferson avenues respectfully report that we have carefully considered the matter and beg leave to state that there is no question but what the present service discommodes a good number of citizens who ride east on the Baker cars, desiring to reach Belle Isle bridge or the immediate neighborhood by compelling them to walk from Mt Elliott avenue and Congress street south two blocks to the Jefferson avenue line, which cars are usually pretty well crowded by the time they reach this point We further state that the franchise granted them upon Congress and Fort streets distinctly says that said cars shall run east on Congress street to Mt Elliott avenue, thence south on Mt Elliott avenue to Jefferson avenue thence east on Jefferson avenue to the intersection of Field avenue, which ordinances, it will be seen are being violated at the present time Inasmuch as it is absolutely necessary, especially at this time of the year that said cars should run to their destination at the intersection of Jefferson and Field avenues we recommend that said Detroit Citizens Street Railway Co be given until Feb 5th to comply with the ordinance governing the same and if not complied with within that time the Corporation Counsel be instructed to commence such proceedings against said company as may be necessary to compel them to give the required service and we herewith offer the following resolution

FROM THE SAME.

To the Honorable the Common Council

Gentlemen Your Committee on Sewers to whom was referred the petition of Wm Polaith et al remonstrating against the extension of time for the payment of lateral sewer assessments respectfully report that we have carefully considered the matter and beg leave to state that the contention of the petitioner was just one according to an opinion rendered the Common Ordinances, relative to the petition of C L Buckley et al, who applied for an extension of time on a certain lot of penalty and interest charges on an alley paving assessment which is to read as follows

Regarding an extension of time to which to pay an alley assessment and amending the ordinance relative to assessments for paving alleys, I beg to say that whether or not the ordinance can be amended with reference to the time within which assessments must be paid it could not be made to apply to assessments already made under existing ordinances.'

"I do not think the Council has power to change the length of time within which the special assessments of any kind can be paid, without the addition of interest and penalties, nor in my opinion, has it the power to change the rate of interest nor the amount of the penalty added As to the time when property shall begin to be subject to sale for non-payment of a special assessment I think the Common Council may regulate that I think the foregoing applies to all special assessments, either for paving streets or alleys cost of their opening or for laying lateral sewers."

The particular sewers referred to by your petitioners are those constructed in the blocks bounded by Medbury, McClennan Belvidere and Gratiot avenues and Holcomb, Belvidere Medbury and Gratiot avenues, which were completed and confirmed on Aug 28th and Sept 5th of last year, where the Common Council on Oct 10th last granted an extension of time on the first mentioned sewer (being Roll No. 5956) to Jan 1st, 1900, and an extension on the last mentioned (being Roll No 5954) to Jan 15th 1900, to which your petitioners had no objection, but they do object to the further extension granted on Dec 19 last, which extends the time of payment to March 1st and 15th prox respectively In view of the fact that the Corporation Counsel has given a written opinion contrary to the action of the Council, we can see no other course to pursue than to rescind the resolution adopted on Dec. 19th last extending the time of payment on said sewers, and therefore offer herewith the following resolution for adoption

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen Your Committee on Taxes, to whom was referred the petition of Barnes Safe & Lock Co W M Hull, manager, for the reduction of a personal tax, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner was assessed the sum of $3,000 upon stock and fixtures etc, located at 129 Jefferson avenue for the year 1889 that he made a statement to the Board of Assessors at the proper time showing that said stock was not worth more than $600, with affidavit attached, that he personally visited Mr Oakman when he learned of being assessed $3,000 and was assured that it would be reduced in accordance with the statement, that the Barnes Safe & Lock Co never had a stock of goods here within the last two years other than the samples in their rooms above mentioned that all the orders were filled from Pittsburg direct that through someone's neglect the mistake was never rectified consequently the assessment remained upon the books at $3,000

Your Committee feel satisfied that the petitioner is entitled to a rebate and therefore recommend that he be refunded the taxes over $2,400 and we herewith offer the following resolution

Respectfully submitted
HOMER McGRAW
OLIVER H GRUNOW,
LOUIS E TOSSY

Accepted and on leave the following resolution was offered

By Ald McGraw

Resolved That the City Controller be and he is hereby authorized and instructed to draw his warrant upon the proper fund in favor of W H Hull, manager, Barnes Safe & Lock Co for the sum of $41 60 being the taxes upon an over assessment of $2,400 assessed against the aforesaid firm (then located in this city) upon presentation of the proper receipt showing that he has paid the taxes upon $3,000 for the year 1889 assessed at 129 Jefferson avenue

Street Openings.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings to whom was referred the petition of Geo H Hees Son & Co et al, for the vacation of part of an alley in block bounded by D & B C R R, Myrtle street Michigan and Hubbard avenues, respectfully report that we have carefully considered the matter and beg leave to state that the petitioners are the owners of all the property lying in said block with the exception of those lots facing on Michigan avenue which belong to the estate of Bela Hubbard who have given their consent to the proposed vacation that the petitioners desire the alley running north and south parallel with Hubbard avenue, extending from Myrtle street southerly to the northerly line of lot 14 in said block to be vacated, for the reason that all the property abutting upon said alley between said points is used for manufacturing purposes that the owners of lots 1 to 14 inclusive of said block will cause the obstructions in the alley in the rear of their lots to be removed and said alley opened for use of the general public as a public highway on condition that the balance of said alley above described is vacated by the Common Council Your committee therefore recommend that the prayer of the petitioners be granted provided the obstructions in the alley running east and west and parallel with Michigan avenue, lying between Hubbard avenue and the D & B C R R be removed and said alley opened to the public as a public highway and we herewith offer the following resolution

Respectfully submitted

FROM THE SAME.

To the Honorable the Common Council

Gentlemen: Your Committee on Ordinances to whom was referred the petition of Charles E Bleakley et al, for the reduction of penalty and interest on alley paving assessments respectfully report that we have carefully considered the matter and beg leave to state that we submitted the matter to the Corporation Counsel for his opinion who states in part as follows.

I beg to say that whether or not the ordinance can be amended with reference to the time within which assessments must be paid it could not be made to apply to assessments already made under existing ordinances I do not think the Council has power to change the length of time within which the special assessments of any kind can be paid, without the addition of interest and penalties, nor in my opinion has it the power to change the rate of interest, nor the amount of penalty added In view of the opinion rendered by the Corporation Counsel, we see no other course to pursue but deny the prayer of the petitioner, which is our recommendation.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council:

Gentlemen—I have the honor to submit herewith my bill for the annual dues of Detroit to the League of American Municipalities.

The amount is $100 and has been duly audited by the Auditing Board and the League [illegible] and I recommend that an appropriation be made to pay this bill

Respectfully submitted,
WILLIAM C MAYBURY,
Mayor.

Accepted and referred to the Committee on Ways and Means

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I am informed that the road district fund is very much depleted and does not provide suitable means for keeping our streets and avenues clean for the ensuing months of the fiscal year I will not discuss the question as to whether extravagance and the unnecessary expenditure of money has occasioned the depletion of the fund although I believe this to have been very largely the case I believe the work accomplished could have been brought within a far less expenditure and I confidently hope to see it demonstrated during the coming fiscal year that as good if not better results can be obtained with a far less expenditure from the road district funds Time will demonstrate whether my judgment in this matter is justified

Our concern however is for the present, and for present conditions It is needless to say that all our people are united in demanding that the streets and avenues shall be kept as clean as it is possible to keep them and that all waste matter shall be as quickly gathered up and disposed of as is consistent with the greatest amount of care and energy. But this requires money, and if the Board of Public Works specially charged with this department of work, are embarrassed by want of funds this embarrassment should be relieved in some way I believe the Common Council has power to provide means by which the present emergency can be met within the law and it is for this reason that I earnestly request your honorable body through your appropriate committee, to take up this matter in connection with the controller, and Board of Public Works to the end that this emergency may be met and the record of cleanliness in our streets, of which we are all so justly proud, be not disturbed by present financial depression in the fund set apart for the accomplishment of street cleaning and other kindred purposes

Respectfully submitted
WILLIAM C MAYBURY
Mayor

Accepted and referred to the Board of Public Works

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—In returning to your honorable body the petition of [illegible] has seemed advisable [illegible] that the following suggestions regarding the relief which [illegible] should be extended to certain taxpayers [illegible] matter of the payments of assessments for certain lateral sewers The petitioners for sewers of local improvements in [illegible] in blocks bounded by M Dean McPherson Hendrie and Grand river and Holden Brailey McMorran and Grand avenue They were completed and confirmed on August 30 and 31 and September 1897 Respectively One-fifth [illegible] October 1898 the [illegible] and grants an extension of time for the payment of the assessment for

the building of the first mentioned sewer to the 1st of January, 1900, and the extension of the last mentioned to January 15, 1900. On December 19, 1899, by the further action of your honorable body the time was extended to the 1st and 15th of March proximo, respectively. The corporation counsel advised the committee on sewers of your honorable body that this action was illegal, and that the resolution adopted at that time should be rescinded. At your last session an report of committee and upon motion of Ald. Koch, the proceedings taken on December 19th were rescinded.

The parties who petitioned for relief supposed up to the time of the last action of your honorable body that the extension of time given them was legal and some of them were obliged to take advantage of the time given them while others if able to pay felt that they ought not to be obliged to pay before their neighbors and have therefore refrained from paying their respective assessments.

I would therefore, suggest that in view of the good faith exercised by the parties involved in the assessment rolls in delaying paying their assessments, believing that the relief extended by your honorable body was legal, and that they had the time specified in which to pay that the Receiver of Taxes be now instructed to receive from said parties the amount of the assessments up to December 19, 1899, remitting any interest and penalties that might be due and which it seems to me the taxpayers of the district, as a matter of justice should not be obliged to pay. At present the Receiver of Taxes would have no authority to accept anything but the full amount of the assessment and any penalty that may attach, and would therefore need the order of your honorable body directing him to accept the lesser sum, and to give full receipts for the sums so received.

I would therefore recommend the adoption of the following resolution.

Respectfully submitted.

WILLIAM C. MAYBURY,
Mayor.

Accepted and leave being granted the following resolution was offered:

By Ald. Koch:

Resolved, That the Receiver of Taxes be and he is hereby instructed to receive assessments for the building of lateral sewers in 1899 in the blocks bounded by Medbury, McClellan, Belvidere and Gratiot avenues and Balcomb, Belvidere Medbury and Gratiot avenues and to make no charge for interest or penalties that may have accrued between December 19, 1899 and January 15, 1900, and be also instructed to give a receipt in full for such assessments.

F. A. BLADES,
Controller.

Accepted and referred to the Committee on Claims and Accounts.

From the Corporation Counsel.

To the Honorable the Common Council:

Gentlemen—The case of Mary Albright against the City of Detroit will come on for trial in the Circuit Court within the next few days.

The plaintiff in this case claims to to have been injured on a defective walk on the south side of Macomb street, in front of a vacant lot west of the Sisters' Home, so-called, on May 27, 1893, and that she is still suffering from the injuries received. The bill of Dr. Miner for medical services amounts to over $150 00.

The plaintiff agrees to accept $30 00 in settlement of her case, and under all the circumstances I believe such a settlement will be most advantageous to the city.

I therefore recommend that the case be settled by your honorable body upon that basis.

Respectfully,
CHAS. FLOWERS,
Corporation Counsel.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts to whom was referred the communication from the Corporation Counsel relative to the case of Mary Albright vs. City of Detroit, respectfully report that we have carefully considered the same and beg leave to state inasmuch as the Corporation Counsel advises that he believes under the existing circumstances a settlement for $300 would be to the City's interest that we concur in his recommendations and the Controller be instructed to draw his warrant in favor of said Mary Albright for said sum and we herewith offer the following resolution.

Respectfully submitted
JOHN C. BLEIL,
RICHARD P. JOY,
M. W. McGUIRE,
BASIL A. LEMKE.

Accepted and on leave the following resolution was offered:

By Ald. Bleil.

Resolved, That the City Controller be and he is hereby authorized and instructed to draw his warrant upon the proper fund in favor of Mary Albright, for the sum of $300 upon presentation to him of a receipt in full for all claims for damages that she may have against the City of Detroit by reason of a fall upon an alleged defective sidewalk on May 27, 1899.

Adopted as follows:

Franchises.

To the Honorable the Common Council:

Gentlemen—Your Committee on Franchises, to whom was referred the resolution of Ald. Marx relative to the recent action of the several telephone companies operating in this city, respectfully report that we have given the matter our careful consideration, and beg leave to state that if the telephone companies operating in this city, through the combination recently formed, intend to cripple the service now given by the Detroit Telephone Co. thereby compelling their present patrons to substitute the new service which they advertise at $72.00 per year, or any other exorbitant amount, the Common Council make such arrangements as may be necessary by which a proper telephone franchise may be offered to the highest bidder. The ordinance to be prepared in such a manner that all the safeguards known to the law be inserted so as to prevent the control of such a franchise passing into the hands of other than those to whom it may be sold, and that in the event of its passing into the hands of others than those to whom it is granted, it remain within the province of the Common Council to annul all privileges mentioned therein.

Sewers.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of H. Schalk for the cancelation of a sewer tax, respectfully report that we have carefully considered the matter and beg leave to state that we can see no reason why the petitioner's sewer tax should be canceled inasmuch as he was never before this time assessed for the construction of a sewer in the rear or about his premises. We therefore recommend that the prayer of the petitioner be denied.

Taxes.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Frances Hyde, Agent, for the refunding of an erroneous assessment, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is the agent for James McMillan, who is the owner of the south 70 feet of all that piece or parcel of land, part of frac. sec. 31, T. 1 S., R. 12 E., bounded northerly by R. R., westerly by Cass avenue, southerly by Park Lot 47, easterly by west line of Woodward avenue and upon which he was assessed for a brick building valued by the Assessors at $60, which in reality should have been assessed against the N. 100 feet of the same

sub above described as is shown by the books of the Board of Assessors, that it was through a clerical error this mistake occurred and should therefore be rectified. We therefore recommend that the petitioner be refunded the taxes wrongfully assessed and we herewith offer the following resolution.

To the Honorable the Common Council

Gentlemen Your Committee on Taxes to whom was referred the petition of J A McClain, asking to be refunded amount paid for tax assignment respectfully report that we have carefully considered the matter and beg leave to state that the petitioner purchased from the City Treasurer on the 10th day of June, 1896 a certificate of assignment for the tax of 1894 assessed against the north 39 feet of south 57 feet of lot 73, Loranger farm etc, which said property was taken for the opening of Poplar street in 1895 that the city is entirely to blame in this matter for the reason that the officials under whose jurisdiction it came, were negligent in not seeing that all the taxes were paid upon that property which was to be taken by the city in said opening.

Your committee therefore recommend that the petitioner be refunded the amount he paid for said certificate of assignment, and we herewith offer the following resolution

Respectfully submitted,

Special.

To the Honorable the Common Council:

Gentlemen Your Special Committee on Street Openings and Alderman of the Sixteenth ward, to whom was referred the communication from his Honor the Mayor relative to the existing conditions in that part of the city bounded by Campbell avenue on the west, Clark avenue on the east, Fort street on the north, and River Road on the south, respectfully report that your committee have carefully considered the matter and beg leave to state that we went over the grounds above outlined and find that there is but a single street opened all the way through from Artillery avenue to Clark avenue; that we coincide with the Mayor's views that the school children living south of the railroad tracks excepting those living on Morrell street, are compelled to walk along the tracks to reach their schools house or otherwise go by way of Fort street or River Road, which is very inconvenient on account of the enormous distance they would be compelled to travel but we disagree entirely with his ideas about building a sidewalk along the right-of-way of the railway company as even if such permission be granted by them, for the reason that it would endanger more lives instead of diminishing the present rate of mortality which is explained by the fact that the children, more especially the boys who delight in being around railroad cars, would come this way to school even if it was located by some other route

We believe that the only and most sensible plan to adopt is that of instructing the Board of Public Works to lay a sidewalk to be laid on Anthon street from Junction avenue east to the alley lying between Junction and Morrell streets, and the Board of Education be requested to lay a sidewalk from the rear of the school house to the alley in the rear of the school so that the same will be a continuation of the one laid by the Board of Public Works and the Board of Education cause suitable gates to be erected in the fence along the alley so that proper ingress and egress can be had, which plan will answer very well for the present

We further recommend that the Corporation Counsel be instructed to cause the proper resolutions to be prepared for the opening of Anthon street from Junction avenue to Morrell street, and Harvey avenue from Junction avenue to Morrell street, and as a further safeguard and one which we believe to be an absolute necessity under the existing conditions, we recommend that the Railroad Commissioner be requested to cause the Wabash R R. Co. to place gates at the intersection of said road and Campbell and Junction avenues and Morrell street and McKinstry avenue Ferdinand street, Lansing street and Military avenue, and we herewith offer the following resolution

SECOND WARD.

By Ald. McGraw:

Whereas, Other cities have an ordinance regulating transient tradesmen and the putting up of advertising signs in connection with same, that is such concerns as come to the city and rent a store for a month or such a matter and put up great display signs or placards advertising such sales as Bankrupt sales, Assignee sales, Sales of damaged goods, Closing-out sales, Receivers' sales, or Chattel Mortgage sales and

Whereas, These concerns pay no taxes and are of no benefit to our city but sell inferior goods and before the public find out the swindle are gone to some other city to carry on the same deception, therefore be it

Resolved, That the Committee on Ordinances be and they are hereby instructed to draft an ordinance to license and regulate transient tradesmen and to license and regulate the putting up of advertising signs in connection with the same and submit the same to the Common Council for its approval

Adopted.

By Ald. McGraw

Whereas, Many damage suits are brought against the city for serious injuries caused by falling on defective wood sidewalks, and,

Whereas, The city is at great expense maintaining ten sidewalk inspectors at a cost of about ten thousand dollars ($10,000.00) per annum and a special photographer and a clerk to serve notices on owners for the repair of defective sidewalks and the Board of Public Works is keeping up at great expense two quick repair wagons, one for the east side and one for the west side, to immediately repair dangerous sidewalks where the safety of the public demands immediate attention, and

Whereas, A great proportion of this expense can be saved to the taxpayers by doing away with wood sidewalks and substituting therefor some material of a more permanent nature, as can be shown by the fact that the city of Grand Rapids will no wood sidewalks to be constructed, but substitutes for same a tar sidewalk which makes a safe and durable walk at about the same cost per foot as the wood walk thereby relieving the city from expensive damage suits on account of injuries caused by holes in the walks and by loose and defective planks, therefore, be it

Resolved That the President of the Common Council be and he is hereby requested to appoint a special committee of three to investigate the advisability of discontinuing the further construction of wood sidewalks and of substituting therefor tar walks, their report to be made to the Common Council at an early date

Said streets and avenues to be paved according to the specifications for asphalt on concrete adopted by the Common Council April 11, 1899, and amend-

ed May 16, 1899 and August 1, 1899, also to the estimates of the City Engineer, as above, and the charter and ordinances of the City of Detroit.

For the above work bidders will state the price per cubic yard for excavation, price per lineal foot for curbing, price per square yard for paving or concreting, and price per lineal foot for retaining plank or stone, etc.

Bids will only be received for the entire of the work or material for any street or section of street, as per quantities stated in the estimates, and the bid will be accepted which is the lowest on aggregating the above detail, regardless of any error of extension or footings made by the bidders.

Each bidder must deposit with his bid inclosed in a separate envelope a certified bank check payable to the order of the Board of Public Works of the City of Detroit, as follows:

Canfield avenue	$ 850
John R street	1 250
Grummond avenue	1 500

Which sum will be forfeited to the City of Detroit in case the bidder refuses or neglects to enter into contract for the work, subject to confirmation by the Common Council, within five days after acceptance of his tender by the Board of Public Works. Checks deposited with rejected bids will be returned to the bidder on demand.

The bidder whose tender is accepted will be required to furnish with his contract an approved bond to the City of Detroit in the sum of 35 per cent of the contract price for the work, conditioned on the full and faithful performance of his part of the contract.

No bids will be accepted from any person or firm who is in arrears to the City of Detroit upon debt or contract or who is in default as surety or otherwise upon any obligation to said city.

On the proper execution of the contract bond the amount deposited with the tender will be returned to the contractor.

Printed specifications in detail for the above work are on file in the office of the Board and copies thereof may be had on application to the Secretary.

The Board of Public Works expressly reserves the right to reject any or all proposals.

FROM THE SAME

To the Honorable the Common Council.

Gentlemen: The City Treasurer's the Receiver of Taxes and the City Assessors offices have made repeated requests on me as City Controller for copies of Mackay Plats which he said to be the only accurate and exact description of the plats of the property in the City. The Treasurer now has to collect [illegible] former duties, to make out [illegible] tax [illegible] on property [illegible] for taxes and showing that all taxes [illegible] paid in order to have the deed recorded.

The Receiver of Taxes and the City Assessors [illegible] much in earnest to [illegible] their best [illegible] all property with what they have to do.

As the [illegible] appropriated for this purpose is almost exhausted I do not see how [illegible] Mackay plats and maps without [illegible] your honorable body for [illegible] out of the contingent fund. I therefore recommend that this communication be referred to the Committee on Ways and Means.

Respectfully,

F. A. BLADES
Controller.

Accepted and recommendation concurred in

From the Corporation Counsel.

To the Honorable the Common Council.

Gentlemen: In response to your directions I have prepared an ordinance relative to the transportation of freight by electric cars and herewith transmit the same to your honorable body.

Respectfully,

C. D JOSLYN,
Assistant Corporation Counsel

Accepted

The following is the ordinance

AN ORDINANCE, allowing Street Railway Companies to carry and transport certain kinds of freight within the city of Detroit, between the hours of eight o'clock a. m. and eight o'clock p. m.

It is hereby ordained by the people of the city of Detroit

Section 1. Under and by virtue of the provisions of section 6,465 of the Compiled Laws of 1897, consent, permission, and authority are hereby granted the street railway companies now lawfully operating street railways within the city of Detroit, to carry packages, merchandise and other light freight, milk, farm produce and garden truck, on any lines or tracks within said city belonging to said companies, during the hours from eight o'clock a.m. and eight o'clock p. m. of each day, on the terms and conditions hereinafter mentioned: Provided, that all such freight and merchandise above mentioned shall be carried and transported in suitable cars, the character, construction and design of which shall be approved by the Board of Public Works.

Sec. 2. Said cars shall be in appearance as like that of passenger cars as the character of the business will permit. Each car shall be a trolley car and operated singly and not in trains. No cars shall be allowed to obstruct any street or public place within said city or shall be stopped thereon for the purpose of receiving or discharging freight.

Sec. 3. The operation of freight cars shall not be permitted in any way to interfere with the operation of passenger cars nor with the necessities of passenger traffic or the proper regulation thereof.

Sec. 4. A suitable or convenient building or central station shall be provided where all freight shall be received or discharged: Provided, That when the same shall become necessary for the convenience of the public in relation to the freight traffic herein provided for, three other suitable and convenient freight buildings or stations one to be located east of Woodward avenue, one west of Woodward avenue, and one on Woodward avenue, shall be provided by said street railway companies. And said street railway companies are hereby authorized to provide such stations when the same shall become necessary and to connect their tracks therewith by the necessary turnouts and switches. But this shall not be con-

strued as granting authority to construct or lay street railway tracks on any street not now occupied by street railway tracks for a longer distance than .. . feet

The central station herein mentioned and the proper connection therewith shall be provided within days from the acceptance of this ordinance

Sec 5 The street railway companies herein mentioned shall make no discrimination directly or indirectly between other companies in freight rates or in the price of hauling cars or in any manner, but shall treat all companies alike in this respect

Sec 6 All companies carrying or transporting freight within the city shall keep a true record of the number of freight cars hauled into or out of the City of Detroit, showing the number hauled daily, and shall pay into the city treasury at such times as they pay other taxes the sum of . . .. for every car so hauled

Sec 7 The City of Detroit and its independent executive boards or commissions having the power of making contracts, shall have the right to require any of said companies to carry materials or supplies used by them or any of them upon any reasonable terms that may be agreed upon

Sec 8 The rights and privileges herein conferred shall not extend beyond the life of the franchises of the respective companies nor shall this ordinance be construed to extend any rights or privileges not herein specifically granted

Sec 9 Any street railway company which shall violate any of the provisions of this ordinance shall upon conviction thereof be punished by a fine not exceeding two hundred fifty dollars for a recovery of which proceedings may be had in any court of competent jurisdiction Provided That any and all such companies shall have, after accepting this ordinance the period of months in which to provide the freight cars required by it and a similar time to provide a central station, as required herein

Sec 10 This ordinance shall take effect within ten days after the same shall be accepted by the street railway companies herein affected but no rights or privileges shall be deemed to have been granted to any company lawfully operating street railways within the City of Detroit which shall not accept the same in writing

Read twice by title, ordered printed and referred to the Committee on Ordinances

FROM THE SAME.

To the Honorable the Common Council

Gentlemen—The resolution of Ald Koch relative to that portion of Jos Campau avenue between Atwater street and Detroit River being beautified with trees shrubs and lawns, was read to the Commissioners of Parks and Boulevards at their last session held February 12 and also a letter from the Board of Public Works stating that a resolution from your honorable body was passed by the Common Council requesting that Board to turn over to the Park Commission that portion of Jos Campau avenue as above described and stating that they were willing to do the same but that they felt that they should be instructed as to the feasability of the matter and to that end have asked the Corporation Counsel for instructions.

The Commissioners of Parks and Boulevards direct that I inform your honorable body that it is not within the jurisdiction of this Board to ask an appropriation for the suggested improvements within the property described and under the control of this Board

Respectfully yours,

M P HURLBUT,

Secretary and General Manager

The following is the matter referred to:

Whereas, A bill is now before Congress requesting permission to bridge the river at Detroit and

Whereas, The location of the said bridge is to be somewhere within the limits set forth in the act as follows (page 2 lines 6 to 10)

The bridge shall be located on the line of Fort street at some point between the middle of Fort street and of the main land of Detroit at a point not more than two and one half miles southwesterly of the southwesterly limits of the city of Detroit and

Whereas, The limits as mentioned in said bridge bill grant the power to said bridge company to locate the bridge and the approaches thereto wherever the bridge company or its agents may choose within said limits regardless of the interests of the city of Detroit and to construct without even granting the right to protest against the location of said bridge until the bill has passed both Senate and House of Representatives and is in the hands of the Secretary of War or Board of Engineers, appointed by said Secretary of War, it is therefore

Resolved, That the Senator and Congressman representing this district who introduced said bridge bill in the Senate and House of Representatives, respectively be and they are hereby requested to cause an amendment to be made to said bill locating definitely said bridge at least within one thousand feet of the point of crossing the river if within the City of Detroit and cause a map of said bridge and approaches to be attached to said bill showing the route of bridge and approaches on the American side of the river and be it further

Resolved, That in any bridge bill to be introduced in future a clause be required definitely locating said bridge at least within one thousand feet of the point of crossing the river also a map showing rout of approaches

The object of this resolution being that the people of the City of Detroit may guard their interests and protest against any bill providing for a bridge liable to damage the interests of the city before the bill has passed the Senate and House of Representatives

"Committee to confer with Representatives in Congress in regard to plan of bridge best suited to the city's interest"

FREDERICK F SNOW

Copy of letters mailed Senator McMillan and Representative Corliss Feb 5th, 1906

Dear Sir Enclosed you will find resolutions passed by the Special Committee appointed by the Common Council to look after the interests of the city of Detroit in regard to a bridge over the Detroit river

This committee believes that in any bridge bill before Congress the point of crossing the river should be definitely located, and not left entirely to the bridge company or railroads to choose after the bill has become law

If you will carefully read the bill, you will see that the interests of the vessel men are placed in the hands of a board of engineers, appointed by the Secretary of War. The interests of the people of the city of Detroit are practically ignored

After the bill has become law, even though a public hearing was held, the bridge would be placed where the railroads want it located, regardless of the interests of the city of Detroit

The reason for these resolutions is that a bridge might be located where the Michigan Central Railroad Bridge Company proposed to build, between the north line of the right of way of the Michigan Central Railroad commonly known as cent to their bridge at West Detroit passing over the city high in the air. The Michigan Central plan would make it necessary for the traveling public in order to board through trains, to go to West Detroit, either on the street cars or on a bridge train out of the Michigan Central Station, as through trains would not run into the present depot and then back out to West Detroit in order to get onto the bridge approach. Such a plan would completely side-track Detroit, and would be very greatly damage the interests of the city just as the Grand Trunk tunnel has sidetracked Port Huron, making it necessary to ride some miles on the street cars in order to board a through train.

We believe that the people of the city of Detroit are entitled to a voice in a matter of such vast importance to the city and should be given the opportunity to protest against any bridge bill detrimental to the interests of the city before the bill becomes law and not afterwards, as the bill provides when it would be too late.

The railroads know just what kind of bridge they want, and where they wish it located, and the general public has the right to know exactly the definite location and the plan and route of approach, and other details affecting the public welfare.

If a bridge is built at all, it will be built by permission of the representatives of the people of this district in the Senate and House of Representatives, and such a valuable privilege should not be given away until the public is fully informed as to whether it will be a benefit or a damage. If the bridge is to be within the limits of the city of Detroit, this committee respectfully requests that the plans be made known and the point of crossing the river be defined in the bill.

Respectfully yours,
RICHARD P. JOY,
OSCAR B. MARX,
FREDERICK F. SNOW.

Special Committee appointed by the Common Council, Jan. 30th, 1900.

United States Senate, Washington, D. C., Feb. 10th, 1900.—Dear Sir: I am in receipt of your letter signed by yourself and the other members of the sub-committee appointed by the Common Council, who have charge of matters relating to the proposed bridge across the Detroit river.

I have referred this to the Committee on Commerce to be filed with other papers in relation to the Detroit River Bridge bill, and when the bill is taken up by the committee you will be notified in ample time to present your case.

Yours very truly,
JAMES M'MILLAN.

Richard P. Joy, Esq., Detroit, Mich.

Hon. Richard P. Joy, Hon. F. F. Snow, Hon. Oscar B. Marx, Committee of Common Council of the City of Detroit:

Gentlemen—I am in receipt of your communication with reference to the Detroit River Bridge Bill introduced in the Senate by Senator McMillan and by myself in the House, by request.

At each succeeding Congress, at the request of parties interested, we have introduced bills but have refused to advocate their passage by Congress until first they were submitted to the Common Council of the city of Detroit, the location for the bridge definitely fixed and ample provision made for the use of the bridge by all railroads now or hereafter desiring to secure the right to pass over the same. Parties interested have not pressed the consideration of the measure and it therefore, stands at present as it did in the preceding Congress, in statu quo.

If you will look up the newspaper publications with reference to this subject you will find that I have repeatedly stated that I would not allow it in my power to prevent a measure to pass that would locate the bridge outside the city or in such a manner as to permit Detroit to be side-tracked.

I can assure you the privilege of a hearing before the Interstate and Foreign Commerce Committee when this measure is taken up for consideration.

Respectfully yours,
JNO. B. CORLISS.

Special.

To the Honorable the Common Council.

Gentlemen—As chairman of the Committee on Recount of Votes in the Sixteenth ward, I feel it my duty to submit for your consideration a report of the facts regarding the counting of votes cast for aldermen in said ward. While acting as chairman of this committee I have conscientiously endeavored to cast aside partisan bias and to give my verdict in favor of the candidate for alderman of the Sixteenth ward who received the highest number of votes. That man in my opinion is Albert Gadde.

Your committee recounted the ballots cast in the Sixteenth ward three different times. The first count gave Gadde 1,069 votes and 1,071 for Atkinson, or a majority of two in favor of Atkinson. During the recount three ballots had been counted for Atkinson, the legality of which was doubted by your committee. The Corporation Counsel's opinion was asked and without giving the matter careful consideration he verbally advised that the three ballots were valid votes. In the afternoon three similar votes in favor of Gadde were discovered and the committee again called for the opinion of the corporation counsel. Mr. Flowers was engaged at the time in court and Mr. Joslyn, the chief assistant, came before the committee. He advised that under the decisions of our Supreme Court the ballots were illegal. The committee proceeded to throw out the three ballots in favor of Gadde not without finding three similar ballots had been received in the morning and counted in favor of Atkinson. It will therefore be seen that according to the first count Gadde was entitled to a seat in this body with a majority of one vote.

SECOND RECOUNT.

This recount resulted in a tie vote with seven disputed and uncounted ballots. Under the opinion of the Assistant Corporation Counsel one of the seven disputed ballots should have been counted for Atkinson. Subsequent testimony convinced your committee so that they decided unanimously in favor of admitting two of the remaining six in favor of Gadde. The result should have been therefore as in the first recount a majority of one in favor of Gadde. Nevertheless the committee concluded to count the entire vote over again.

THIRD RECOUNT.

Before commencing this count the committee decided to be guided by the utmost liberality and to endeavor so far as possible to arrive at the intention of the voter and to discard such irregularities which were not in conflict with the provisions of law. I regret to say that the committee's idea of liberality did not agree with the ideas of the chairman of the committee. As an example of the inconsistency which marked the committee's finding I wish to have the members of this body refer to ballot shown as "Ex. 15," clearly showing an intent to vote for Gadde which the committee decided in the face of its rules to throw out. The committee proceeded to count in favor of Atkinson ballots shown as exhibits 4 and 27 which in the opinion of the chairman of the committee are clearly similar to the ballot they had discarded. Again ballot known as "Ex. 29" was thrown out because a few faint lines had not drawn through the Democratic column although the proper cross had been placed at the head of the ticket. The committee had al-

ready received ballots known as ex [illegible] and 24, similarly marked with [illegible] were heavy [illegible] in such a manner as to indicate [illegible] that it had been [illegible] Atkinson.

[illegible] were counted for Atkinson. Before the disputed ballots [illegible] received similar ballots with [illegible] from top to bottom had been counted. Those references to the [illegible] by your committee are [illegible] to lay before you all the [illegible] of inconsistency in the findings of the committee, but to show [illegible] some of the points of disagreement in the committee. The final report [illegible] by a majority of the members of the committee after [illegible] the ballots three separate times and by pursuing a policy of throwing out in favor of one candidate only, gave the Atkinson had received a majority of the vote after laying aside [illegible] disputed ballots. Of the disputed [illegible] the committee counted five for Atkinson and two for Gaddie, this in the opinion of the chairman disfranchising a majority of the voters of the Sixteenth ward. In the opinion of the chairman ten of the disputed ballots should have been counted in favor of Gaddie and eight in favor of Atkinson. Had this been done and the decisions of the committee been applied to contested ballots irrespective of the results the third recount would have resulted as did the first and second recounts, in a majority of one for Gaddie.

As chairman of the special committee on the recount of the votes in the Sixteenth ward I therefore submit the report of the committee in accordance with the facts as I found them. In presenting this report it is not my purpose to impugn the motives or criticise the short members of the committee. I regret that we could not reach the same conclusion. Inasmuch, however, as the recount of the election for the republican office of alderman in the Sixteenth ward must be decided by a vote of this board and also because [illegible] interested parties have seen fit to [illegible] both against the chairman of this committee, I recommend that the special committee be discharged from further consideration of the matter and that a special committee be appointed to again canvass the votes of the Sixteenth ward and report its findings to this body.

MAX C. KOCH.

Accepted and laid on the table.

AN ORDINANCE supplemental to an ordinance authorizing the Detroit City Railway Company to construct and operate street railway lines on Brush and Russell streets, approved January 5th, 1886, and authorizing the extension of the Brush and Russell street railway line from its present terminus on Russell street and Clay avenue to St. Aubin avenue.

It is hereby ordained by the People of the City of Detroit:

Section 1. Subject to and in accordance with the provisions and limitations of an ordinance authorizing the Detroit City Railway Company to construct and operate a street railway on Brush and Russell streets, to the south line of the Lake Shore & Michigan Southern railway crossing, approved January 5th, 1886, consent, permission and authority are hereby granted to the Detroit Citizens' Street Railway Company to construct, extend and operate a single track street railway, with necessary and suitable turnouts and switches, from the present terminus at said Lake Shore & Michigan Southern railway crossing on and along Russell street to Clay avenue, thence easterly on and along Clay avenue to St. Aubin avenue: Provided that if the consent of the commissioner of railroads to cross the tracks of the said steam railroads at grade cannot be obtained, and said street railway is thereby compelled to transfer its passengers to and from the cars operated on the tracks herein authorized to be constructed, or said grades be separated, then such transfer shall be made without charging any additional fare, and said extension shall in all respects be treated as a part of said Brush and Russell street line, so called. And provided further that whenever the grades at said crossing shall be separated, then the said grantee herein shall immediately commence the construction of its tracks in conformity with the grade of the street and in accordance with the ordinances relative to laying street car tracks. Provided further that the said road shall be completed on or before July 1st, 1900, herwise this ordinance to be null and void.

Sec. 2. This ordinance shall take effect when the said railway company shall have filed in the City Clerk's office its written acceptance hereof said acceptance to be filed within 30 days after the adoption of this ordinance.

I hereby certify that the foregoing ordinance was presented to the Mayor for approval on the third day of February 1900, and that the same was neither approved nor disapproved that notwithstanding the above fact, the ordinance, under the provisions of Section 14, Chapter 7 of the Charter of the City of Detroit, goes into effect February 7, 1900.

Sealed proposals will be received at this office until Monday, Feb. 5, 1900, at 11 o'clock a. m. sharp, for furnishing according to specifications on file in this office during the year ending January 1, 1901, the Board and each of the gravel that may be required for the use of the Board of Public Works.

Bidders will deposit in Board of Pub-

the Works Office samples of bank and river sand and bank gravel on which their bids are based.

For furnishing sand and gravel, contractors will file separate bids for the districts lying east and west of Woodward avenue, sand to be delivered at three, four (4) points on railroad tracks in each district, if required, and [illegible] yards.

Each bidder must deposit with the Board of Public Works on presenting his proposal a certified bank check in the sum of $500 payable to the order of said Board.

Said sum will be forfeited to the Board in case the bidder refuses or neglects to enter into contract for the work, subject to confirmation by the Common Council, within five days after he or they shall have been notified of the acceptance of his or their tender by the Board. Checks deposited with proposals will be returned to the bidders on demand. The bidder whose tender is accepted will be required to furnish with his contract an approved bond to the City of Detroit in the sum of 25 per cent of the estimated contract price for the work, conditioned on the true and faithful performance of his or their part of the contract.

On the proper execution of the contract bond the amount deposited with the bid will be returned to the contractor.

The right to reject any or all proposals is expressly reserved.

Unfinished Business.

Ald Koch moved to take from the table a report of the chairman of special committee laid over Feb 13, 1900. in matter of recount of votes cast for office of alderman Sixteenth ward, which motion prevailed

Ald Koch moved the adoption of the report

Consent being granted the following was presented

REPORT OF COMMITTEE.

Special.

To the Honorable the Common Council.

Gentlemen Your Special Committee to whom was referred the petition of Albert F Gadde for a recount of the votes cast for the office of Alderman in the Sixteenth Ward Nov. 7, 1899, would respectfully report that we have opened the ballots cast for said office in the First Second Fourth and Fifth Districts of the said ward and find that Albert F Gadde received 630 votes, and Edmund Atkinson received 760 Votes with 62 ballots in dispute withheld for further consideration.

Your committee after due deliberation decided to award 2 (exhibit Nos 5 and 21) of the disputed ballots for Mr Gadde and 5 (exhibit Nos 4, 18, 22, 24 and 25) for Mr Atkinson This is correct with the vote cast in the Third district of said ward where the voting machine was used which gave Albert F Gadde 250 and Edmund Atkinson 301 votes, would make a total of 1062 votes for Albert F Gadde and 1061 votes for Edmund Atkinson

In reference to fraud alleged to have been committed in said Third District your committee after hearing the testimony and counting find that there may have been some ground for complain on the part of petitioner as to the action on the part of the election board or the witnesses to violate the law but that the infraction of the law was not such as would warrant your committee to throw out the vote or any part of the vote cast in said district

Your committee therefore find that Edmund Atkinson having received the largest number of votes cast for the office of Alderman in Sixteenth ward on Nov 7th 1899 was duly elected Alderman of said ward and we therefore recommend that he be declared by your honorable body to be duly elected Alderman of said ward for the term of two years and that no change be made in the returns of the election in said ward

Respectfully submitted,

WALTER H. COOTS

Accepted

Ald Coots then moved as an amendment to the motion of Ald Koch the adoption of the report of the Committee which not on prevailed as follows.

To the Honorable the Common Council:

Gentlemen: On [illegible] a verdict for $[illegible] was rendered in the Circuit Court for the County of Wayne against the City of Detroit in favor of Sarah E. Walker, [illegible] have been asked at the [illegible] amount of the judgment. [illegible] The Corporation Counsel [illegible] the City upon [illegible] that [illegible] against the [illegible] of [illegible] and [illegible] an [illegible] [illegible] [illegible]

witnesses living in the neighborhood, by the plaintiff herself and members of her family, and the evidence upon the part of the plaintiff tended to show that the walk had been in a defective condition for some weeks before the accident. The plaintiff is a woman of nearly 70 years of age, and the evidence tended to show that she was seriously injured, the nature and extent of her injuries being proven by three physicians, by her daughter and herself.

When this matter was heard before the Committee on Claims and Accounts the committee offered the plaintiff $150 for settlement in full which amount was refused.

There being no question of law involved, but simply question of fact and the case having been fairly tried, there is nothing upon which an appeal can be based and I recommend the payment of the judgment.

Respectfully,
CHAS FLOWERS,
Corporation Counsel.

Gentlemen We have this day received from the Board of State Tax Commissioners a list of about ten thousand unpaid mortgages owned by resident mortgagees and held against real estate in the several counties of this state

These mortgages coming to us at this time necessitates an enormous increase in the work of this office and in order to get the best results we are compelled to identify each owner by a personal visit

This work you can readily see is no small task, but if carefully and properly done will add a million or more dollars to our tax rolls

The transportation fund is exhausted and we therefore respectfully request your honorable body to instruct the Controller to pay a sufficient sum to properly do the work not to exceed $3000 thus insuring the faithful performance of this unexpected labor

Grade Separation.

To the Honorable the Common Council:

Gentlemen:—Your Committee on Grade Separation beg leave to report as follows:

A meeting was held in the office of the City Engineer, at which met and the Engineer representing the M. C. R. R. Co., P. R. R. and L. S. & M. S. R. R. companies were present. The plans for the proposed separation of grades as prepared by the City Engineer were submitted to the Railway Companies. As the said Engineers were to be a non-committal, your committee is not capable to report whether or not the said plans are looked upon by the railway companies with favor. The engineers representing the several railways, however, were unanimous in stating that a copy of the plans would be submitted to their superior officers in order that they would receive proper attention.

Your committee is hopeful that the plans will be agreed to, substantially as drawn by Mr. McCormick. Should this be so, your committee ask to be authorized to enter into negotiations with the railway companies as to the division of expense entailed by the proposed change of grades. We also ask that the plans as prepared by the City Engineer be approved, and herewith submit the following resolution:

Respectfully submitted,
W. H. BEAMER
JOHN C. BLEIL
WALTER H. COOTS
JOSEPH MERRELL
JOHN WEIBEL

Accepted, and on leave the following resolution was offered:

By Ald. Beamer:

Resolved, That the plans for the general separation of railway and street grades, as prepared by the City Engineer, be and are hereby approved; and further

Resolved, That in the event of agreement by the railway companies to the plans as proposed the Committee on Grade Separation be authorized to negotiate with said companies as to division of expense in connection therewith.

Streets.

To the Honorable the Common Council:

Gentlemen: Your Committee on Streets, to whom was referred the communication from the Board of Public Works, submitting proposals for the repaving of John R. street and Canfield avenue with sheet asphalt on concrete foundation, respectfully report that we have carefully considered the same and beg leave to state that we are of the opinion that the bids submitted are altogether too high. We fully appreciate the fact that the price of all materials have increased in price, but think that the increase proposed is altogether too much. Further it is too early in the season to establish a price which we believe would be satisfactory to the city's interest, and should that price be established now, we could expect nothing else but that contracts hereafter submitted would be of about the same range. In view of this, we recommend that the contracts entered into be rejected and the Board of Public Works instructed to readvertise and we herewith offer the following resolution:

Respectfully submitted,
WM. F. MOELLER

From the Corporation Counsel.

To the Honorable the Common Council.

Gentlemen—An action has been commenced in the United States court by the Detroit United Railway against the City of Detroit and the Corporation Counsel by which it is sought to secure a decree of that court declaring the ordinance passed by your honorable body and approved February 17th, 1900, being "An Ordinance to provide for the granting [illegible] franchises from any point of the Detroit Railway to other routes of the same system" to be invalid, and an order has been issued by Judge Swan requiring the defendants to show cause on March 12th, next why a preliminary injunction prayed for in the bill of complaint, should not be issued.

The ground upon which such injunc-

tion is prayed for is that the ordinance in question is illegal, and void for the reason that it is in conflict with the franchise of December 4th 1894, in which franchise the rates of fare and the provisions relating to transfers were fixed, and therefore cannot be changed by the Common Council without the consent of the railway company.

Section 10 of said franchise contains the following provision

"The rates of fare, as above prescribed, shall not be reduced during the period of this ordinance without the consent of said grantees."

The same section provides that, upon the payment of a single fare, each passenger shall be entitled to a ticket of transfer check, good for a ride over any other line or route operated by the grantees.

The ordinance in question attempts to change the provisions of section 10 and to require the railway company to give more than one transfer to a passenger paying a single fare.

I am constrained to say that in so far as the ordinance attempts to change the plain terms of the original ordinance of December 4, 1894 it is illegal and void and that any attempt to control the said pending in the United States Court would result in mulcting the city in costs. I know of no legal defense that can be made to the action.

Respectfully,
CHAS FLOWERS,
Corporation Counsel.

Accepted and placed on file.

From the Board of Public Works.

To the Honorable the Common Council:

Gentlemen—The Board of Public Works herewith transmits assessment rolls Nos 6067 to 6076 inclusive for constructing sidewalks, and assessment rolls Nos 6077 to 6086 inclusive for repairing sidewalks in accordance with the ordinance adopted by the Common Council Dec 6th 1892 and hereby asks for approval and confirmation of the same.

Mr. John A. Schmid, City Clerk Detroit, Michigan

Dear Sir: The inspection and hearing for application for protection over the several street crossings of the Union Terminal Association in the city of Detroit will be held beginning Wednesday morning, February 28, 1900 at 9 o'clock a. m. standard time at the Westminster hotel in the city of Detroit. I trust that you will arrange to have the proper officers present in order that your wants may be heard at that time.

Very respectfully yours,

CHAKE S. OSBORN,
Commissioner of Railroads.

Accepted and placed on file.

Also, the following:

To the Honorable the Common Council:

We desire to call your attention to an ordinance supplemental to the Grand Trunk Railway Company to construct and operate a street railway line on Brush and Russell streets, approved January 5th, 1885, authorizing the extension of the Brush and Russell street lines from its present terminus at Russell street and Clay avenue to St. Aubin avenue.

Section 2 of that ordinance provides that the ordinance shall take effect when the Detroit Citizens' Street Railway Company shall have filed its written acceptance thereof in the City Clerk's office, said acceptance to be filed within thirty days after the adoption of this ordinance. The ordinance therefore went into effect February 7th. Immediately upon the passage of this ordinance this company communicated with the Commissioner of Railroads in relation to the several railroad crossings to be encountered on the proposed extension and this matter with others is set down for the 6th of March at Lansing but we cannot say that it will be reached on that day nor disposed of for some time thereafter. We would therefore request your honorable body to grant such additional time—say thirty days—for the acceptance of said ordinance as may be necessary in view of the present negotiations with the Railroad Commissioner.

Very respectfully,

The Detroit Citizens' Street Railway Company,

J. C. HUTCHINS,
Vice-President.

To the Honorable the Common Council:

Gentlemen—I beg leave to report that I have been served with a copy of subpoena and also copy of an injunction issued out of the Circuit Court for the County of Wayne, in cause therein pending wherein August F. Wettlaufer is complainant and John Martin Superintendent of Police and John A. Schmid City Clerk are defendants.

Said injunction commands the defendants to desist from destroying, etc., ballots used at election held Nov. 7, 1899 in certain election districts of the city of Detroit.

I have referred the same to the Corporation Counsel.

Very respectfully,

JOHN A. SCHMID,
City Clerk.

To the Honorable the Common Council

Gentlemen -Your Committee on Ways and Means, to whom was referred the communication from the Board of Assessors relative to mortgages owned by resident mortgagees and held against real estate in the several counties of this State, respectfully report that we have carefully considered the matter and find that there are, according to the State Tax Commission about ten thousand unpaid mortgages owned by resident mortgagees and held against real estate in the several counties of this state, that to carry out this work and identify the owners thereof will cost about $300, being for extra time and transportation that if the work is properly performed it will add a million dollars or more to our tax rolls that the fund used for to cover part of this expense is exhausted; that we believe that it will be to the interest of the city to appropriate said money for the purpose above outlined. We therefore recommend that the City Controller be instructed to pay out of the Contingent Fund such bills as may be presented for said work, not exceeding the sum of $300, and we herewith offer the following resolution.

Sewers.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers to whom was referred back the report relative to the claim of John Wagner respectfully report that we have carefully investigated the matter and beg leave to state that we are informed on that Mr Wagner is entitled to the amount of interest claimed on the [illegible] which figures have been verified by the Board of Public Works. If there was any discrepancy between the Board of Public Works and the contractors at that time, regardless of what the differences may have been it is not the fault of the contractor in the particular case that the same was not made out, and he should not be made to suffer therefor. The contractor paid for the construction of the sewer at the time it was built, but the city neglected to do its duty when it accepted the sewers and did not order the rolls to be made out and so that they were confirmed by the Council, so that those receiving the benefits therefrom could pay their assessments.

We therefore recommend that the resolution offered by Ald Hacket at a session held Jan 2 1900, (C P. 1051 1899) be adopted.

Respectfully submitted,

THIRTEENTH WARD

By Ald. Miller:

Resolved, That it is the sense of this body that whenever a majority and minority report are submitted by a committee, the President or President Pro Tem. shall recognize the report containing the majority of the signatures of the committee so reporting as the majority report, thereby annulling the present form of recognizing the chairman's report as the majority report.

Adopted.

SIXTEENTH WARD

By Ald. Atkinson.

Resolved, That the Board of Public Works be requested to attempt to secure right of way so that sewer may be put through such private property as is necessary to give block between Livernois and Welch, from Julia street north, proper sewer connections.

Referred to the Board of Public Works.

By Ald. Atkinson:

Whereas the sidewalk on westerly side of Lonyo avenue, running south from Michigan is, in places, in a dangerous condition because of its slopes toward the deep excavation at its westerly edge, with the possibility that some one may be badly hurt by slipping from a wet or icy walk into the excavation, therefore be it

Resolved, That the Board of Public Works be instructed to cause said walk to be put in safe condition.

Referred to the Board of Public Works.

SEVENTEENTH WARD

By Ald. Smith:

Resolved, That the Board of Public Works be and is hereby requested to place the sum of $300 to be included in their estimates for the purpose of providing a hose and such other necessary sprinkling apparatus as may be necessary to sprinkle and properly care for the Eastern Market.

Referred to the Board of Public Works.

The Council then adjourned.

COMMON COUNCIL

(Special—Official.)

Detroit, Thursday, March 1, 1900.

The Council was called to order by the President, the Honorable Robert Barrie.

Present Ald. Atkinson, Beamer, Coots, Delmel, Grunow, Hansjosten, Holker, Houghton, Joy, Lemke, McGraw, McGuire, Marx, Merrell, Miller, Reinhardt, Smith, Tossy, Weber, Wildman, and the President.

There being a quorum present, the Council was declared to be in session.

The Clerk read the following:

SPECIAL CALL.

Detroit, Feb. 27, 1900.

Hon. John A. Schmid, City Clerk, Detroit, Mich.

Dear Sir: You will please call a special session of the Common Council, to be held in the Council Chamber on Thursday, March 1st, inst., at 11 o'clock a. m., for the purpose of acting on report of the Committee on Ways and Means on a resolution authorizing the employment of legal assistance in the person of street railway cases in the United States court.

Very respectfully,
ROBT. BARRIE,
Acting Mayor.

Accepted and placed on file.

REPORT OF COMMITTEE.

Ways and Means.

To the Honorable the Common Council:

Gentlemen:—Your Committee on Ways and Means to whom was referred the resolution of Ald. Beamer authorizing the Mayor and President of the Common Council to employ an attorney to represent the City in the case now pending in the United States court, respectfully report that we have carefully considered the matter and beg leave to state that your Committee are of the opinion that the object of the ordinance recently passed is not for the purpose of reducing the fares now charged by the street railway company, but for the purpose of compelling the Street Railway Company to live up to the terms of its franchise. During the first two years of the operation of the Detroit Rapid Railway Ordinance the company refused to do what is now desired to be accomplished by this ordinance but which they discontinued after the time of construction. We therefore, recommend that the Mayor and President of the Council be authorized to employ an attorney to represent the City in the case now pending in the United States Court relative to "AN ORDINANCE No. 1 to provide for the transfer of passengers from any route of the Detroit Railway to any other routes of the same system," with the understanding that the Common Council reserves the right to place the compensation at such a figure as they may see fit, and we herewith offer the following resolution:

Respectfully submitted,
WALTER H. COOTS,
OSCAR R. MARX,
OLIVER H. GRUNOW,
WM. C. HOUGHTON.

Accepted, and on leave the following resolution was offered:

By Ald. Coots:

Resolved, That the Mayor and the President of the Common Council be and are hereby authorized and instructed to employ an attorney to represent the city in the case now pending in the United States court wherein the Detroit Electric Railway seeks to enjoin the city from enforcing and maintaining an ordinance entitled "An Ordinance to provide for the transfer of passengers from any route of the Detroit Railway to any other routes of the same system."

Provided, That the Common Council reserves the right to make the amount of compensation at such a figure as they may see fit for the attorney so employed.

Adopted as follows:

Yeas—All. Atkinson, Beamer, Coots, Delmel, Grunow, Hansjosten, Holker, Houghton, Joy, Lemke, McGraw, McGuire, Marx, Merrell, Miller, Reinhardt, Smith, Tossy, Weber, Wildman and the President—21.

Nays—None.

Suspension of Rules.

On motion of Ald. Coots, the rules were suspended for the purpose of reconsidering the vote by which the foregoing resolution was adopted.

Reconsideration.

Ald. Grunow moved that the vote whereby the foregoing resolution was adopted be reconsidered.

Ald. Beamer moved that the motion of Ald. Grunow be laid on the table, which motion prevailed.

The Council then adjourned.

ROBERT BARRIE,
President.

JOHN A. SCHMID,
City Clerk.

The complainants filed a bill to restrain the city of Detroit from tearing up or interfering with the tracks of the Detroit Suburban Railway Company, which have been leased to the Citizens' Company on that portion of Grand Boulevard northerly of Sheridan avenue. It will be remembered that your honorable body had directed a contract to be made with Archibald Grant for the paving of said portion of Grand Avenue from curb to curb and also for the paving of said avenue leaving a space for the double tracks on the street, should the Citizens' Company decide to lay them. And it was to restrain interfering with their track that the complainants filed their bill.

It is claimed by them that the decrees entered in the Supreme Court in the cases of the city of Detroit against the Grand Avenue Railway Company and the Attorney General against the same company did not bind the complainants in this case because said decrees were entered by the consent of the Grand Avenue Railway Company after it had sold or parted with all its interest in the railway.

The Circuit Court has agreed with them in this contention, and held that they have a right to operate a street railway under the Hamtramck franchise, and has entered a decree enjoining the city from interfering with the tearing of the single track when said street is graded and paved.

A claim of appeal has been filed in said case, so that the decree just rendered can be reviewed by the Supreme Court.

I have no opinion to express as to the probable outcome in the Supreme Court. The question is probably an exceedingly close one. I expect to submit the case at the April term, but of course cannot tell when it will be decided.

Very respectfully,
C. D. JOSLYN
Assistant Corporation Counsel

Accepted and placed on file.

From the Board of Public Works.

To the Honorable the Common Council:

Gentlemen—In reply to a notice from this office the following proposals for furnishing the city with sand and gravel during the year ending January 31st, 1901, were received:

From the Metropolitan Police Commission.

To the Honorable the Common Council

Gentlemen: In compliance with the resolution of Ald. Marx, adopted Feb. 21, 1900, directing the Police Department to cause the Detroit Citizens' Railway Co. to comply with the resolution adopted Jan. 23d relative to running the Baker street cars to Field avenue under the ordinance, I respectfully call your attention to the accompanying copy of a report made to Captain William Nolan by Sergeant George A. Wolf.

I have the honor to be,

Yours respectfully,

J. EDWARD DU'PONT,
Secretary Metropolitan Police Commission.

Accepted.

The following is the report referred to:

Captain Wm. Nolan, Commanding Second Precinct:

Sir: This morning I went to the Municipal Building, saw Assistant Corporation Counsel Palmer. I offered complaint against the Detroit Citizens' Street Railway Company for not running their cars south on Mt. Elliott to Jefferson, and east on Jefferson to Field avenue. I saw Mr. Flowers at his office and laid the matter before him. He gave me no complaint saying there was no ordinance that would reach them as to running cars on that line, as there is no penalty. He said the best thing to do would be to mandamus the company.

Respectfully submitted,

(Signed) GEO. A. WOLF,
Sergeant.

Referred to the Committee on Ordinances.

From the Board of Health.

To the Honorable the Common Council:

Gentlemen:-At a meeting of the Board of Health the following resolution was adopted:

Resolved, That the Common Council be and is hereby requested to make a thorough examination of all the books of the Health Commission and to report with any suggestion of recommendation he may offer regarding same. Also to report in writing the result of said examination.

Yours etc.,

JOHN F. M'KINLAY,
Secretary.

Accepted and referred to the Committee on Ways and Means.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen:-At the last meeting of the Board of Health, the following was adopted:

Whereas, The taxpayers of Detroit pay annually through the Poor and Health Commissions large sums of money to private hospitals for the care of contagious and non-contagious sick poor; and

Whereas, The cost of maintenance of said Wayne Hospital is largely paid by Detroit taxpayers, and

Whereas, It is the opinion of this Board that at small cost arrangements could be made for reception of both the poor and health commission cases which are now charged from $4 to $5 each per week by private hospitals with prospect of said higher rates therefore

Resolved, That it is the judgment of this Board that an investigation be made at once by both the Common Council and Board of Estimates of the practicability of the change as herein suggested and that this Board favors the change as both economical and desirable so far as the Health Department is concerned in the event that it is found to be practicable.

It is further ordered that a copy of the resolution be sent by the Secretary to the President of the Common Council and of the Board of Estimates. This resolution to take immediate effect.

Very respectfully,

JOHN F. M'KINLAY,
Secretary.

Taxes.

To the Honorable the Common Council.

Gentlemen – Your Committee on Taxes to whom was referred the petition of F J Chambers for the refunding of a personal tax, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is the owner of a stock of cigars tobacco etc, located at the corner of Fort and Griswold streets and was assessed thereon the sum of $3,000, that he was also assessed the sum of $7,000 in the name of the Exchange Cigar Co, which he claimed to be erroneous but that his clerk filed a statement with the Board of Assessors showing that his stock was assessed for the last mentioned amount and signed the same in the name of the Exchange Cigar Co. Instead of F J Chambers. That the Board upon receiving said statement thought that they had overlooked this item and therefore placed said company upon the roll for the above mentioned amount making a double assessment upon the same stock of goods We therefore recommend that the petitioner be relieved the taxes against the assessment of $7,000 and herewith offer the following resolution

Public Buildings.

To the Honorable the Common Council

Gentlemen—Your Committee on Public Buildings to whom was referred the communication from the Board of Poor Commissioners relative to the dilapidated and unsanitary condition of the carpet in their quarters in the Municipal Building, respectfully report that we have investigated the matter and find that the carpet is in such condition as they set forth, but instead of purchasing a new carpet, we would recommend the laying of a hardwood floor, the expense of which would not exceed $75. Your Committee beg leave to report further that while visiting said building we found that it is absolutely necessary that several other minor additions and repairs be made, such as the construction of a lavatory in the Boiler Inspector's room, repairing doors in several of the offices, heating the prisoners' room in the basement of the building, by placing two radiators therein, and the reconstruction of a stone sidewalk on the Clinton street side of said building. These repairs and a few other minor ones should be attended to immediately because it will cost less money to repair now than if postponed until some other time. Your Committee therefore recommend that the Board of Public Works cause said repairs to be made the expense thereof not to exceed the sum of $500 to be paid out of the Public Building Fund, and we herewith offer the following resolution

Respectfully submitted,

JOS H HANSJOSTEN,
WM. KOENIG.

Taxes.

To the Honorable the Common Council:

Gentlemen - Your Committee on Taxes to whom was referred the petition of F J Chambers for the refund of a personal tax respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is the owner of a stock of cigars tobacco etc located at the corner of Fort and Griswold streets and was assessed thereon the sum of $1,500 or that he was also assessed the sum of $4,000 in the name of the Exchange Cigar Co, which he claimed to be erroneous but that his clerk filed a statement with the Board of Assessors showing that his stock was assessable for the last mentioned amount and signed the same in the name of the Exchange Cigar Co, instead of F J Chambers, that the Board upon receiving said statement thought that they had overlooked this firm and therefore placed said company upon the roll for the above mentioned amount making a double assessment upon the same stock of goods We therefore recommend that the petitioner be refunded the taxes upon the assessment of $1,500 and herewith offer the following resolution

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of John Gresshow for the refunding of a mortgage tax, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner, on March 14 last, filed a statement with the Board of Assessors showing that he owned a stock of merchandise valued at $400, and that he was also the owner of a mortgage of $500, whereas he failed to note upon the statement that said mortgage was offset by a mortgage of like amount that he owed. We therefore recommend that the petitioner be refunded the taxes upon the mortgage above referred to inasmuch as it should not have been assessed although the error was the fault of the petitioner and we herewith offer the following resolution:

Respectfully submitted,

HOMER M GRAW,

AN ORDINANCE to amend Sec. 2, Chapter 7, of an ordinance entitled "An ordinance to provide for the appointment and prescribe the duties of an officer to be known and designated as the Chief Accountant," approved January 22 1875, as amended July 14, 1884.

It is hereby ordained by the people of the City of Detroit.

Section 1. That Section 2, Chapter 7, of the Revised Ordinances of 1895 be and the same is hereby amended so as to read as follows:

Sec. 2. It shall be the duty of the Chief Accountant once in each month, or oftener if directed by the Common Council, to examine the books, records and accounts in the various city offices and departments, and keep a suitable record of and to report the same to said Council when called for and perform such other duties as the Common Council may from time to time prescribe. In the performance of his duties the said Accountant shall be under the control and direction of the Mayor and the Committee on Ways and Means of the Common Council.

Sec. 2. This ordinance shall take immediate effect.

Read twice by title ordered printed and referred to the Committee on Ordinances.

AN ORDINANCE to provide for the appointment and prescribe the duties of an officer to be known as the Secretary of Common Council Committees.

It is hereby ordained by the People of the City of Detroit:

Section 1. There shall be an officer of the city of Detroit to be known as "Secretary of Common Council Committees" with powers and duties hereinafter prescribed to be appointed by the Common Council by viva voce vote on the 2d Tuesday of June 1900 and every two years thereafter whose term of office shall begin on the first day of July following his appointment and who shall hold his office for two years or until his successor is duly appointed and qualified.

Sec. 2. It shall be the duty of the Secretary to attend all meetings of Committees of the Common Council and act as Secretary thereof, to prepare all reports of all Committees of Common Council Committees when requested so to do, have charge and care of all papers, books etc. belonging to the various Committees of the Common Council and keep a record and file of the same, and deliver same to his successor at the expiration of his term of office. He shall attend to the correspondence of the members of the Common Council relating to public business, when so requested and to perform such other duties as the Common Council may from time to time prescribe.

Sec. 3. The Secretary hereinbefore provided shall receive such annual salary as the Common Council may determine, to be paid at the time and in the manner that the salaries of city officers are paid. The Secretary shall give a bond of $1,000 for the due and faithful performance of his duties.

Sec. 4. This ordinance shall take immediate effect.

Read twice by title ordered printed and referred to the Committee on Ordinances.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council:

Gentlemen—A communication has been received by me this day from the Bicentennial Association, requesting the members of your honorable body to meet with a committee from said association tomorrow, March 14, at 11 o'clock a m in the Council Chamber.

It is urgently requested that every member of your honorable body be present, believing that a conference will result in advancing the objects sought to be obtained and which will redown to the credit of our city

Respectfully,

ROBT BARRIE,
Acting Mayor

Accepted and placed on file

Ald Coots moved that when the Council adjourns it shall adjourn to meet at 11 o'clock in the forenoon March 14, that which motion prevailed

FROM THE SAME

To the Honorable the Common Council:

Gentlemen: Your Committee on Agriculture has had under consideration the matter of the appropriation for the Agricultural Commission during the ensuing year. The Secretary of the Poor Commission reports that there are $10,000 still unexpended from last appropriation. It is estimated that it will require $20,000 more to carry the Commission through the year. Your committee have therefore recommended that the Board of Estimate be requested to add $10,000 to the estimates for the Poor Commission to be raised by the Assessment Roll.

Your committee would also recommend that the Secretary of the Board of Estimate be requested to [illegible] the Poor Commission [illegible] the Board of Estimate [illegible] Ward Yards to be used for a term of years. The said Poor Commission is of the opinion that if such

land could be secured at a reasonable rental. It would be fertilized and improved and greatly add to the value of the work of the committee

Respectfully,

ROBT BARRIE

Acting Mayor.

Accepted and leave being granted, the following resolution was offered:

By Ald Grunow

Resolved, That the City Controller be and is hereby directed to include in the estimates of the Board of Poor Commissioners, the sum of Five Hundred Dollars to defray the expense incidental to the planting of vacant land by City poor

Adopted

FROM THE SAME

To the Honorable, the Common Council

Gentlemen—Complaints regarding the overcrowding of street cars continue to be made at the office of the Mayor, and cases are reported which not only involve the greatest inconvenience and discomfort, but which also involve danger to life and limb. I have called the attention of your honorable body to this matter by special message, and made it also a part of my annual message recently submitted. There are certainly remedies for the correction of this evil in the authority and prerogative of your honorable body that should be set in motion at once, and which I believe can be made effective in so far correcting this evil that both the discomfort and danger will be minimized, if not absolutely avoided.

That the power to regulate the operation of street cars in our streets and avenues is reserved to your honorable body in the contracts or franchises existing between the city and the Railway Company is patent, and we have but to exact the letter and spirit of the bargain to effect the public welfare in the direction here indicated. But even if no such reservation were made in terms in the written contracts existing between the city and the Railway Company there would be an inherent and inalienable right existing in and reserved by the law to your honorable body, for the correction of abuses such as is herein complained of, and as applying every reasonable corrective to the operation of street cars which the public interests from time to time demand.

That the evil of overcrowding cars at certain hours of the day exists goes unchallenged. It is a matter of common fame. It is the experience of every citizen and is demonstrated from day to day to the most casual observer, whether he patronizes the cars or observes them as he goes his way to and fro in our streets and avenues.

The plain remedy to be applied in my judgment is more cars and run at shorter intervals in those hours of the day when it is a necessity for the people to be carried to and from their homes and to and from their places of business and amusement.

It is well known that the very highest rate of fare is now being charged for the accommodation which our people receive at the hands of the Street Railway Company, and it naturally implies the greatest amount of comfort possible in transit. It is for this we pay and for nothing else, and I do not believe it would therefore unreasonable to ask that the travel on our streets be accommodated and that it be accommodated with comfort, as well as with safety and speed. All these conditions are fairly within the province of the agreement between the city and the Street Railway Company, whether it be in writing or in that larger and broader contract which is unwritten, but yet well understood. I would, therefore, urgently recommend to your honorable body that this matter be referred at once to the Committee on Ordinances or a special committee, as may be deemed best to investigate thoroughly and report promptly ordinances that will remedy the evil so justly complained of. In my judgment no time should be lost in the considerations of the committee of your honorable body sufficient time only being given to permit of a thorough knowledge of the difficulties involved and to hear, if possible the complaints of citizens and their suggestions. After this course of procedure the way to correct the evil will be demonstrated clearly, and the ordinance can be framed accordingly. As I have before stated additional cars, run at certain specified hours, seems to be a proper and the only remedy, but possibly on inquiry, there may be some other course of procedure that has more of merit and of promise. It is because of the great public importance of this matter that I have taken the liberty of inviting the attention of your honorable body to this matter by special communication.

Respectfully submitted

WILLIAM C MAYBURY,

Mayor.

F. A. BLADES,
Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—In compliance with sec-

tion 37 of the City Charter I have to report that in pursuance of a resolution adopted by your honorable body, I caused to be prepared 100 park improvement bonds of the City of Detroit of the denomination of one thousand dollars each, and numbered from 1 to 25 both numbers inclusive, issued March 1st, 1898, and maturing March 1, 1918 bearing interest at the rate of 3½ per cent per annum.

The amount to be paid to the City Treasurer for these bonds is as follows:

25 bonds, $1,000 each	$100,000
Premium on same	9,611
Total	$109,611

The above bonds were purchased by N. W. Harris & Co., of Chicago, Ill., and were delivered by me to the City Treasurer, taking his receipt therefor as provided by the City Charter.

I recommend the reference of this communication to the Committee on Ways and Means.

Respectfully,

F. A. BLADES,
Controller.

Accepted and recommendation concurred in.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—As provided by the City Charter chapter 5, section 1, page 35, I herewith transmit to your honorable body the estimated expenses of the several municipal departments of the government of the City of Detroit for the fiscal year ending June 30, 1901, as they have been submitted to me by the said departments.

During the time I have occupied the office of City Controller two questions have agitated the taxpayers of this city, the first being that Detroit was overtaxed in proportion to other cities. In my estimates for 1899 I included answers to two hundred questions submitted to Detroit, Cleveland, Cincinnati, Buffalo, Louisville, St. Paul, Minneapolis, Milwaukee and Rochester, affording our taxpayers an opportunity to make a fair comparison between the several cities mentioned. I think it is only fair to say that Detroit did not suffer by the comparison.

The next question agitated was that the taxes in Detroit had been, and still were increasing out of all proportion to the growth of the city, and consequently were proportionally higher than they were ten or twenty years ago.

For the last three years I have had in mind to devise some plan by which the expenditures of the city for any purpose could be compared with the expenditures of the city with any one year for the past twenty years for the same purpose, and thus be able to determine whether we are drifting and whether we are tending to economy or to extravagance in our expenditures.

To this end I have had prepared a set of tables taking each fund by itself from 1879 to 1899, and, as far as possible, limiting the same for each year.

Owing to the lack of uniformity in the system of bookkeeping in the several departments 15 or 20 years ago it was found to be extremely difficult to make an accurate comparison in detail, prior to 1879, and even since 1879 many errors, inaccuracies and omissions have been found. So far as possible, however, these have been corrected, and the tables presented are, I believe, as accurate as can be made. I have also had prepared to accompany the tables of disbursements, a tabulation of all appropriations by taxation, issue of bonds, liquor moneys, and revenues from the House of Correction, during the same period.

In order that the per capita appropriations and expenditures of any one department for any one of these years may be determined by those so desiring, I have included a statement of the population of the city during each year of this period, as computed by the Water Board.

If the Common Council will, by resolution, each year require of the Controller a continuance of these condensed appropriation and expenditure tables, it will not be many years before you will have explicit data that will aid the Common Council and the Board of Estimates very much in the work of estimating the expenses of the city.

There are two items of expense in considering the cost of running the government of a great city that I think should be carefully considered and generously provided for:

First, The natural growth of the city; and,

Second, The natural wear or depreciation of the material property of the city. I think that these two items should be treated as fixed charges, and be carefully and generously provided for.

Then the desirable improvements in the several departments may be considered and classified as necessities or luxuries.

And right here the controversy begins with the people, en masse, who are demanding more and more of the conveniences, comforts and even the luxuries of civilized life and, as they have the votes, they command at least attention to their claims.

On the other hand is the taxpayer who, having the property, has to foot the bills in taxes for all of the improvements made, they are not necessarily ungenerous or mean because they are conservative and ask where the line is to be drawn; may not this expenditure of public money grow to practical confiscation of property?

The result is that one year the clamor of one interest secures the land, and large improvements are made and the taxes are high, even burdensome. Then the taxpayers are aroused and become active, and there is but one voice heard in the land, "Cut, cut, cut the estimates," and the result is that for a year but comparatively little improvement is made, and the taxes are lower. It was practically this condition of things that led me to have prepared the tables which I submit to you with this year's estimates, hoping that information will come out of the comparisons with the years gone by that may give a clue to a rational expenditure of public money. So far as I have been consulted, I have advised that each officer and board or commission honestly and fairly estimate in detail what they think is needed for a conservative and fairly economical administration of their trust; and, when the estimates are once made, expend the amount allowed for the purpose for which it was estimated, and then stop right there. If there is not money enough allowed to carry on the city government to the satisfaction of the people, then let the people go to the Common Council with

their grievances; they are responsible for the amount of money furnished, while the officer, board or commission is severally responsible for the judicious expenditure of the money allowed

The following are the aggregate estimates of 1899 and 1900.

Total estimates for 1900 . .	$5,426,851 98
Total estimates for 1899 . .	5,200,393 67
Increase in estimates submitted . . .	$ 226,458 31

This is more than covered by the increase in permanent improvements which aggregate $1,151,111 75 as against $852,082 50 in 1899. Embraced in the classification are public school buildings and sites, extension of the public lighting plant police stations and tug, engine houses and fire boat, construction of public sewers, opening of streets and various items in the park and boulevard estimates Of this amount, the estimates for public school buildings and sites aggregating $500,026 00, are the only ones for which the city has an undoubted legal right to raise money by the issue of bonds, but it cannot issue this year more than $492,093 00, as that amount will reach the bond limit of 2 per cent of the city's assessed valuation. Whatever permanent improvements it is possible to provide for by the issue of bonds, I am in favor of doing If the city had secured the proper legislation last winter for making our permanent improvements by the issue of thirty years bonds and raising of 2½ per cent of the face value of the bonds each year, and place the same in a sinking fund to pay for said bonds at maturity, we could have raised the amounts estimated for and the cost to the taxpayers this year—2¼ per cent of the face value of the bonds, would have

been	$28,777 79
And for each of the succeeding years for the life of the bonds the same	28,777 79
And the interest at 3½ per cent	40,288 91
Total for each year .	$69,066 70

Each generation would pay for the use of $1,151,111 75 of public property the sum of $69,066 70 every year, and at the end of thirty years have the bonds all paid. I called attention to this subject in November, 1898, and it was generally approved, but fell by the wayside so far as legislation was concerned.

Having no such law, whatever permanent improvements are provided for in the estimates outside of the School Board will have to be provided for by taxation.

As to the balances in the several funds at the close of the fiscal year, the city has no settled policy except such as has grown up by use, and this became common law. Evidently there was contemplated in the years gone by that the sinking fund should be benefited by these balances, see section 208 of the City Charter page 116 where it is provided that the City Treasurer shall, under certain circumstances, credit such balances to the sinking fund For the reason that the sinking fund, as at present reinforced will not appear to need these balances they have remained to the credit of the several funds, and the new appropriations have been added at the beginning of each fiscal year Whether the city desires to look more carefully after these balances, and by resolution or ordinance direct as to their disposal, is for the Common Council to determine.

As far as the funds over which the Controller has particular jurisdiction are concerned, I have for the last three years, as near as I well could, estimated what amount could be credited to a fund, and thus reduce the taxes by as much

As a result the appropriation for the general fund has been reduced as follows.

[illegible]	[illegible]
For 1898	[illegible]
For 1899	50,000
Estimated for 1900	15,000
And for the interest fund, estimated for 1900	50,000
Total	$200,000

For some two or three years past I have noted that at the close of the fiscal year a considerable balance remained in the interest fund It was supposed that this amount was required to meet matured coupons outstanding, but not presented This year I have made a careful examination of the bond registers of the city, and find that the money in the interest fund will meet all outstanding coupons due up to July 1st and leave a balance of about $50 000, which amount I have deducted from the gross appropriations required for the interest fund for the coming fiscal year Whether this surplus was caused by bonds being canceled prior to their maturity, or to errors in the computing of interest for required appropriations, I cannot say, but the money is in the treasury and the appropriation this year for the interest fund is thereby reduced this amount.

I am the more particular in calling attention to this matter at this time in view of the new departure of last year in the city's finances

We secured the passage of a law creating a "Deficiency Fund," into which all of the back taxes paid during the year should be placed, and a sufficient amount taken from the moneys paid on liquor licenses to equal the amount of the shortage on the appropriations for the several funds of the city

The account at the close of the fiscal year June 30 1899, was:

DEFICIENCY FUND

Dr. To uncollected taxes 1899	$ 212,556 10
Cr. By back taxes, June 30 1899, on levies 1855 to 1898	$ 190,038 32
Cr. By cash from liquor license moneys .	22,518 07
	$ 212,556 39

Thus each fund for the first time so far as I know in the history of this city, received the full amount appropriated for its use during the year, and in the future it will not be necessary to figure on any loss for uncollected taxes in making appropriations

The question of the use of balances in the several funds at the close of the fiscal year is not without difficulty. In some of the funds there may be contracts uncompleted at the close of the fiscal year that would have to be paid out of any balance. Still the question should be considered, and some settled policy determined upon

In compliance with resolutions of your honorable body, I have included in the general fund estimates for all extra pay-rolls heretofore paid out of

the contingent fund, also to establish a free public employment bureau.

The trustees of the Museum of Art have requested an appropriation of $12,000 for the maintenance of the Museum during the coming year, which sum I have, as authorized by an act of the last Legislature, also included in the general fund. The communication from the trustees I append to the estimates for the general fund.

Of the liquor moneys there will probably be available for the reduction of taxes, to be applied on the health, fire and police appropriations, about $150,000.

The estimates this year, with such supplementals as are already being presented, will exceed last year's appropriations by over $2,000,000, this is the sum which must be cut out if the taxes are to be kept at about last year's rate. Every estimate must therefore be closely scrutinized, and its necessity carefully considered, and, while I have not deemed it necessary to call attention in detail to the estimates of each department, I shall hold myself in readiness, and will be pleased to furnish your honorable body and the Board of Estimates, any information in the power of my office.

Respectfully,
F. A. BLADES,
Controller.

The following is a communication received from the Trustees of the Detroit Museum of Art, requesting transmission of estimates as included above

Hon. F A. Brades, Controller City of Detroit

Dear Sir—In asking for the appropriation for the maintenance of the Detroit Museum of Art for the coming year, we beg to make the following statement:

It is only by the closest economy that the Museum has been able to keep open free to the people and continue its work under the annual appropriation of eight thousand dollars A great amount of important work has been left undone for the want of means. This cannot continue without seriously retarding our progress and value as an educational institution

At the present moment we are in urgent need of a number of cases in which to display Egyptian material sent us by the Exploration Society the study of which is constantly called for by the pupils of the public schools and by various local societies who are reading the history of that country It is the same in the scientific department where we are constantly receiving gifts of interesting material which while of moderate value in themselves, are of considerable value in the aggregate We cannot lay these articles out where they can be handled, but must display them where they can be seen and studied and yet be secure.

During the past year quite a large collection of material relating to the early colonial and pioneer history of the state and country has been brought together by loans and gifts. We could make a most interesting exhibit of this in the small lecture room on Hastings street, had we the cases for it, and, when once in place and properly labeled much more would be added to it

There too, the mere matter of keeping the place clean and presentable to the thousands of visitors from our own and other cities is of no small moment, and is certainly increasing to say nothing of the necessity of a sufficient number of attendants to protect the property

The other items which grow from year to year are those of light and heat It has been the policy of the Museum to encourage the citizens and pupils of the public schools to use the galleries and collections as freely as possible and several societies who regularly have lectures on art, archaeology, travel and kindred topics have been given the use of the large gallery for these lectures on condition that they be free to the public. This, of course entails an extra but legitimate expense in this direction

In the matter of labelling, it alone is one of considerable expense as it requires research and often many letters to other institutions both in this country and Europe, as well as the purchase of special books of reference The fact that we are in correspondence with nearly one hundred institutions of similar character and are frequently in receipt of letters from them asking questions in return for favors shown us in the same lines, proves that this institution is known and valued abroad as well as at home

The frequent exhibitions of works of art during the winter months enables the people who cannot afford the expense of travel to study and enjoy that which under other circumstances would be entirely out of their reach and which cannot help but elevate and better the character of citizenship

In conclusion we can only repeat what has been said before If the people are willing to donate works of art and valuable material to the various departments of the Museum certainly it is the duty of the city to house take care of and make the collections available for the enlightenment and education of the people

It is with this plain statement of the needs and necessities of an institution which is visited by over one hundred thousand people each year that we ask that the appropriation for the maintenance of the Museum of Art be increased this year under the law enacted last winter to the sum of twelve thousand dollars $12,000 00

Very respectfully

Board of Education.

Detroit, Mich., February 23, 1900.

Hon. F. A. Blades, Controller, City:

Dear Sir:—I am directed by the Board of Education to transmit to you the following supplemental estimates of the Board for the fiscal year ending June 30, 1901:

For providing for teaching German in the Primary schools, $12,000.

For purchasing 20 ft. frontage on Concord avenue, adjoining the Berry school on the north, $1,000.

Respectfully yours,
L. H. CHAMBERLIN,
Secretary

Estimates of the Fire Commission.

Office of the Fire Commission of the City of Detroit,
Detroit, February 1, 1900.

Hon. F. A. Blades, Controller:

Sir:—In accordance with the provisions of the Act of the Legislature creating the Fire Commission of the City of Detroit, the Commissioners submit herewith, in detail, their estimate of the whole cost and expense of providing for and maintaining the Fire Department for and including the fiscal year ending June 30, 1901.

For the ordinary operating expenses of the department the sum of $516,207.60 is required.

For needed extension of the water supply for fire extinguishing purposes, $24,276.00.

For necessary extension of the fire alarm telegraph system, $3,740.00.

For the purchase of necessary apparatus, $33,250.00, making a grand total of $563,942.60.

Supplemental estimate No. 1, for $22,500 is for the purpose of completing the fire boat allowed last year. This is made necessary by reason of the advance in price of material.

Supplemental estimate No. 2, for $22,491 is for the purpose of equipping the new fire boat for service.

Supplemental estimate No. 3, for $13,000 is for the purpose of replacing engine house No. 9 with a building suitable to the needs of the service which is demanded of this company. When the present house was erected in 1859 it was on the outskirts of the city and was large enough, but the down town service demands larger and heavier apparatus. This the present building will not accommodate and its condition is such that the necessary alterations cannot be made.

Supplemental estimate No. 4, for $8,250 is for the purpose of extending the underground system of wires.

Supplemental estimates Nos. 5, 6 and 7, for $32,920 each are submitted in response to petitions for better fire protection in the vicinity of the following locations:

Campbell avenue and Fort street;

Hancock avenue and Twenty-seventh street;

Crane and Kercheval avenues.

Supplemental estimate No. 8 for $1,500 is for the purpose of extending the Eighth street pipe line from River to Fort streets.

Supplemental estimate No. 9, for $2,500 is for the purpose of extending the Woodward avenue pipe line from the Campus Martius to Wilcox street.

Supplemental estimate No. 10, for $3,120 is to enable the commission to increase the pay of 26 house watchmen from $480 to $600 per annum.

Supplemental estimate No. 11, for $54,000 is submitted in order that the commission can grant members of the department one day off in five.

All of which is respectfully submitted,

EDWARD H. PARKER,
JOHN LENNANE,
FRED T. MORAN,
OREN SCOTTEN.

By the Commission,
GEORGE W. STOCKWELL,
Secretary.

Estimates of the Public Lighting Commission.

Detroit, January 30, 1900.

To the Honorable the Controller, City of Detroit:

Dear Sir—Complying with your request of January 12, 1900, we respectfully submit herewith our estimates of funds that will be required for the fiscal year ending with June 30, 1901.

FOR OPERATING AND MAINTENANCE.

For an average of 2,000 arc lights at $45 each	$ 90,000
For the incandescent system at 12½ per cent of the arc expense	11,250
Total	$101,250

FOR EXTENSIONS AND BETTERMENT OF THE ARC SYSTEM.

Two engines and arc dynamos, direct connected complete with switch board connections steam piping, foundations, etc.	$ 13,000
Lines and poles for 200 arc lights	12,000
200 arc lamps and switches	4,500
Cost of operating 200 additional arc lights for 9 months at $45 per light per annum	6,750
Total	$ 36,250
Grand Total	$137,500

In arriving at the estimated cost price of an arc light for the next fiscal year the commission based its figures on the cost of an arc light as per the reports of the commission for the past 18 months (copies of which will be sent you and to the Estimators), together with the increased cost of supplies.

The commission after a careful consideration of the city lighting were unanimous in recommending an addition of 200 arc lights to the system.

Providing no unusual expenses occur, it is estimated that the commission

will have a surplus at the end of the present fiscal year of about $3,000.00.

We have the honor to be,

Yours respectfully,

F F INGRAM,
HAMILTON CARHARTT
JOHN ERHARD,
JAMES E. DAVIS,
EDGAR H McCURDY,
DAVID W. SIMONS,
Commissioners.

Estimates of the Commissioners of Parks and Boulevards.

Office of the Commissioners of Parks and Boulevards,
Detroit, January 29, 1900.

To the Honorable, the City Controller:

Dear Sir—Your communication of January 12 relative to the estimates was read to the Commissioners of Parks and Boulevards sometime since and by their direction, I herewith submit to you the estimates of the Commissioners of Parks and Boulevards for the coming fiscal year as adopted by the Board on January 23 last. Also in accordance with your letter find enclosed statement of expenditures for the first half of the present fiscal year, i. e., from July 1, 1899, to January 1, 1900. The cash balance on January 1, 1900, was $18,347 09. The appropriation balance $16,322 07, making the amount available $34,670.16. As to the expenditures of the fiscal year ending June 30, 1899, enclosed I send you annual report, which gives the items in detail. The cash balance on July 1, 1898, of the Park and Boulevard fund was $9,245 76, and on July 1 1899 it was $353 03. This I believe answers all your questions in your favor of January 12.

If anything further is required, I am at your service.

Respectfully yours,
M. P HURLBUT
Sec'y & Gen'l Mngr

Office of the Commissioners Parks and Boulevards,

Detroit, Mich., March 6, 1900.

To the Honorable the City Controller.

Dear Sir—By resolution of the Commissioners of Parks and Boulevards at their last session, held March 5, I herewith transmit to you a supplementary estimate to be placed in the estimates of this board for the coming fiscal year.

For the purpose of commencing the reclaiming of the middle ground at the west end of Belle Isle Park $50,000 00

Respectfully yours,

M. P. HURLBUT,
Sec'y and Gen'l Mngr.

Resolution.

Unanimous consent being granted, the following was offered.

By Ald. Coots:

Resolved, That so much of the annual estimates as refers to the General Road and Repaving funds be referred to the Committee on Streets. The estimates for the Road District funds be referred to the Aldermen of the various Wards. The estimates of the Health Department and Garbage fund to the Committee on Health. The estimate for the Street Opening fund to the Committee on Street Openings. The estimates for the Recorder's Court to the Committee on Judiciary. The estimates for the Public Building fund to the Committee on Public Buildings. The estimates for the Fire Department to the Committee on Fire Limits. The estimates for parks and boulevards to the Committee on Parks and Boulevards. The estimates for the Public Lighting fund to the Committee on Public Lighting. The estimates for public sewers to the Committee on Sewers, and the balance of the estimates to the Committee on Ways and Means.

Adopted.

From the Corporation Counsel.

To the Honorable the Common Council:

Gentlemen—I inclose herewith a letter from Mr. W. F. Atkinson relative to a tax suit now in the Circuit Court. I suggest that this communication and the papers be referred to the proper committee.

To the Honorable the Common Council

Gentlemen—Two years ago the Board of Public Works was ordered by the Common Council to remove the old steamer Milton D Ward from her moorings in front of the Waterworks park, on the east side of the city. The job of moving her was contracted for by a party who moved the boat to a slip at the foot of Twenty-fourth street where she is now anchored for which the Board is paying $10 a month rent. The Courts was notified of this action and the Board desires to call attention to the fact that the rent is being paid every month and that they do not think it is a matter that should be allowed to drag along for all time. The Board respectfully asks the Council for instructions as to whether it desires to have the Ward remain where she is at the above rent, or dispose of in some other way

Respectfully submitted,

To the Honorable the Common Council

Gentlemen—On Feb 13th, a resolution was offered by Ald Hillger, requesting the Board to consider the advisability of paving Mack avenue from Baldwin to the city limits with cedar on concrete foundation under the $200,000 clause of the charter

Inasmuch as there will undoubtedly be questions raised between the city and the street railway company relative to tracks franchises etc as was the case in the Gratiot avenue job, and desiring to save as much time as possible, the Board is of the opinion that this is a matter that should be taken up now and disposed of, if possible before the paving season starts. The Board would suggest that the matter be referred to the Committees on Streets and Franchises in order that the parties directly interested may have an opportunity to present their views of the case.

Respectfully submitted.

To the Honorable the Common Council:

Gentlemen—In compliance with resolutions adopted by your honorable body, the Board of Public Works herewith submits additional estimates as follows. These estimates are transmitted as supplemental to the Board's repaving estimates, already submitted, and the Board offers no recommendations taking it for granted that the petitioners presenting the various resolutions will stand sponsor for their respective requests

Respectfully submitted.

To the Honorable the Common Council of the City of Detroit, Mich.:

Gentlemen—In view of the universal demand of the citizens of Detroit for more adequate street car service, and in view of the desire of your honorable body to aid them in securing such service, we deem it proper to make a statement to you, and through you to the people of Detroit, of the conditions which exist, and of our intentions for the future.

During the last summer, for the purpose of providing what we supposed would be an adequate number of cars for the traffic of the present winter we constructed in our own shops and put in service 29 winter cars of larger capacity than any which had before been in use, expecting that this number would be ample to provide for the traffic during the present season.

The increase of traffic has been caused 1. By the prosperous times, which resulted in the employment of a greater number of people, and 2. By the granting of universal transfers upon all the lines of railway operated by us in the city.

The increase of revenue passengers by reason of the first condition amounted to about 8 per cent over the corresponding time of the year previous. The increase of transfer traffic by reason of the granting of universal transfers amounted to about 36 per cent.

The additional cars which we placed in service would have been more than sufficient to have accommodated the natural increase by reason of the prosperous times, and whatever inconvenience has come to patrons during the morning and evening hours has been occasioned by our own act in granting universal transfers where before none had been given.

We have had no inclination to withdraw the universal transfer system in order to give relief in the matter of overcrowded cars at workingmen's hours, but intend to continue the system in force, and have made provision for taking care of passengers for the present.

As soon as the time arrives for using open cars, our facilities will be

ample to provide for all. We have now in process of construction at our own shops 50 new large closed cars, with double platforms, such as are now in use on Woodward avenue, and we propose in addition to this to place double platforms upon the cars now in use.

For the purpose of securing additional power, necessary to operate this increase, we have let contracts for additional batteries at the power house involving an expenditure in this item alone of nearly $200,000. Without this additional expenditure, it would be impossible for us to operate more winter cars than we have at present in use, and the necessity of this expenditure is mainly because of the great increase in travel resulting from the granting of universal transfers at workingmen's hours.

It will thus be seen that we have laid the foundation for the operation of a railway system which will give the people of this city the best possible facilities for comfortable travel at the present low rate which we have inaugurated.

We trust that with this statement the common council and the public will understand that we propose to discharge our full duty in rendering every facility in our power to accommodate the public in every way possible.

We are as jealous as the citizens of Detroit themselves in maintaining the best street railway system operated anywhere in the world.

Yours truly,

DETROIT CITIZENS' STREET RY CO

Franchises.

To the Honorable the Common Council:

Gentlemen — Your Committee on Franchises, to whom was referred the resolution relative to the service, etc., upon the Oakland avenue line of the Detroit Electric railway, respectfully report that we have carefully considered the matter and beg leave to state that your committee are of the opinion that the Street Railway Co should show cause why they have abandoned the west track on Oakland avenue and why they have neglected to comply with the ordinance and give the service therein specified. We are of the opinion that the service given at the present time upon that line is just as good as no service whatever and that steps should be taken to remedy such a condition of affairs From testimony given before the committee we are creditably informed that the patrons of that line are compelled to wait all the way from eight to thirty minutes for a car, and then the car is so crowded that hardly standing room is left and we feel that a satisfactory explanation, if such can be given should be made to the Council, and therefore recommend the adoption of the following resolution:

Respectfully submitted,
FRED W. SMITH,

WM. C. HOUGHTON.

Accepted and on leave the following resolution was offered:

By Ald Smith:

Resolved That the Detroit Electric Rai way officials be and are hereby directed to state before this committee at its next session why the west track on Oakland avenue has been abandoned and further why the service is not given upon said line in accordance with the ordinance governing the same.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Franchises, to whom was referred the petition of Vincent Field et al also the resolution of Ald Marx relative to the service given on the Fort Wayne & Belle Isle Railway, respectfully report that we have carefully considered the matter and beg leave to state that we find from the testimony given before the committee that the service given on that line at the present time is inadequate We therefore recommend the adoption of the following ordinance

Respectfully,
FRED W. SMITH,
OSCAR B MARX,
WM C HOUGHTON,
WM. HILLGER.

Accepted.

The following is the ordinance:

AN ORDINANCE to provide for the operation of cars upon that portion of the lines of the Fort Wayne & Belle Isle Railway Company lying east of Woodward avenue.

It is hereby ordained by the People of the City of Detroit:

Section 1. It shall be the duty of the *Fort Wayne & Belle Isle Railway Company, its successors* and assigns, to furnish and provide sufficient cars upon its lines east of Woodward avenue, so that a six-minute service shall be given upon all of said lines between the hours of 5 30 a m and 8 30 p m

Sec. 2. For each and every day in which the Fort Wayne & Belle Isle Railway Company shall neglect to provide the service herein ordered, said company may be complained of as for a distinct offense, and punished as herein after provided.

Sec. 3. Any violation of or failure to comply with the provisions of this ordinance shall be punished by a fine of not exceeding three hundred dollars; and said fine when imposed, may be recovered from the person or corporation so convicted in an action of law in the proper court.

Sec. 4. This ordinance shall take immediate effect

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen — Your Committee on Streets, to whom was referred the communication from the Board of Public Works submitting proposals for furnishing the city with sand and gravel during the year ending Jan 31 1901 respectfully report that we have considered the same and beg leave to state that the C H Little Co is the lowest bidder for furnishing all the bank sand that may be required in the Eastern District, and all the bank gravel that may be required in the Eastern and Western Districts and the Henry Merdian Co. for all the bank sand for the Western District. We therefore recommend that the contract entered into by the Board with the several parties hereinbefore mentioned be approved and confirmed and the resolution offered by Ald Moeller at a session held March 6th inst be adopted

Respectfully submitted
WM F. MOELLER,

To the Honorable the Common Council.

Gentlemen—Your Committee on Streets to whom was referred the petition of J. W. Booth, for the cancellation of an assessment for the construction of a sidewalk, respectfully report that we have carefully considered the matter and find that the records of the City Treasurer show a sidewalk tax against lot 88, Leavitt's subdivision of part of private claims 574 and 171 east side Welch avenue, which was sold to the city for the non-payment thereof, that the petitioner was not aware that such a tax existed, and when informed of the same stated that evidence could be produced to show that the city never constructed said walk, although to save the trouble of any further litigation and have the matter cleared up, he is willing to pay the original amount of said assessment as appears upon the books of the City Treasurer, amounting to $11.79 and that the contractor is willing to file an agreement that he will accept the amount due him for constructing the same without penalty and interest. In view of the fact that such a settlement can be made, we recommend that he be allowed to pay said amount, being $11.79 upon the filing of the agreement referred to with the City Treasurer, and we herewith offer the following resolution

Respectfully submitted.

WM. F. MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted and on leave the following resolution was offered:

By Ald. Moeller:

Resolved, That the City Treasurer be and he is hereby authorized and instructed to receive from J. W. Booth the sum of $11.79 being the amount of the original assessment, as appears upon his books for the construction of a sidewalk in front of lot 88, Leavitt's subdivision of part of private claims 574 and 171, east side Welch avenue, upon receipt from the contractor of an agreement that he is willing to accept his share of said amount without penalty and interest.

Adopted as follows

Yeas—Ald. Atkinson, Biell, Coots, Fracher, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Stieger, Wiebel, Weiler, Wildman, and the President—31

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets to whom was referred the petition of executors of John Kelley estate for permission to pay a paving assessment without penalty and interest, respectfully report that we have carefully considered the matter and beg leave to state that the estate of John Kelley is the owner of the southerly ½ of lot 5, block 26, Crane & Wesson's section of the Forsythe Farm, west of Fifth street, that parts 2, 3 and 4 for the paving of said Fifth street remain unpaid, amounting to $143.07, with interest and penalty added thereto, of $27.85, making a total due of $170.92. Your Committee believe that the estate should be relieved from paying the penalties and interest due thereon on account of the peculiar circumstances connected with this case it being an act of charity exclusively. The estate has been relieved from the penalties and interest due upon the general city taxes by the Committee on Taxes by a report and resolution submitted at a session of this Council held on Feb 27th ult which was unanimously adopted and we feel that the same course should be pursued as to the paving assessment due thereon, by relieving them from the accumulated interest and penalty. We therefore recommend that the City Treasurer be instructed to receive the original amount of the paving assessments due thereon, as appears upon his books amounting to $143.07 and the City Controller be instructed to draw his warrant in favor of the City Treasurer for the sum of $27.85, being the amount of the penalties and interest due thereon the last mentioned warrant being for the purpose of balancing the City Treasurer's books and we herewith offer the following resolution

Respectfully submitted.

WM. F. MOELLER
MICHAEL MILLER
JOSEPH MERRELL.

Accepted, and on leave the following resolution was offered

By Ald. Moeller

Resolved That the City Treasurer be and he is hereby authorized and instructed to receive from the executors of the estate of John Kelley the original amount of the paving assessments due for the paving of Fifth street as appears upon his books, amounting to $143.07, assessed against the southerly ½ of lot 5 block 26, Crane & Wesson's section of the Forsythe farm, west Fifth street and further

Resolved That the City Controller be and he is hereby authorized and instructed to draw his warrant upon the proper fund in favor of the City Treasurer for the sum of $27.85 being the amount of penalty and interest due upon parts 2, 3 and 4 for the paving of Fifth street, according to the books of the City Treasurer, against the southerly ½ of lot 5, etc., above described.

Adopted as follows.

Yeas—Ald. Atkinson, Biell, Coots, Fracher, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Stieger, Wiebel, Weiler, Wildman, and the President—31

Part 4 ...	28 13	23 74	51 87

We beg leave to state further, in connection with this matter that the father of the petitioners, Matthew Stierling, has been incapacitated for doing business by age and infirmity for a number of years past and has been entirely dependent upon the petitioners for support, and they have also their aged mother to care for. Your committee feel that this is a just and worthy case and therefore recommend that the petitioners be allowed to pay the original amount of said paving assessments as appears upon the City Treasurer's books, and we herewith offer the following resolution

Respectfully submitted,

WM. F. MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted, and on leave the following resolution was offered:

By Ald. Moeller:

Resolved, That the City Treasurer be and he is hereby authorized and instructed to receive from Julia Stierling the original amount of the paving assessments due upon parts 3 and 4 for the paving of National avenue, as appears upon his books, amounting to $58 48, assessed against lot 38 Crane & Wesson's section of the Lognan farm, n. s. of Michigan avenue.

Adopted as follows:

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets to whom was referred the petition of D. W. Simons for the acceptance of the original amount of a paving assessment for the paving of St. Antoine street, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is the owner of the westerly 30 feet of lots 1, 2, 3 and 4 of block 31, A. Beaubien farm, south side of Farnsworth street, corner of St. Antoine street, that said St. Antoine street was ordered paved in 1891 and an assessment was levied and confirmed on the 25th day of August of the same year that said paving was assessed against the westerly "80" feet of lot 2, and all of lots 1, 3 and 4 of said property, amounting to $294; that on account of the petitioner not paying the assessments when the same fell due, the property was advertised for sale on March 18 1892 under the above description last mentioned but when the date of sale arrived it was found that the description had been erased on the assessment roll so as to read "thirty" instead of "eighty" bringing it back to the original description and under which description it was sold that on April 24, 1894 the Council released some of the lots sold, leaving the entire assessment on the westerly 30 feet of lots 1, 2, 3 and 4 that in June, 1895, Contractor Farwell who did the paving presented to this honorable body a petition setting forth the facts of the change and demonstrating the invalidity of the assessment caused by such changes and demanded the payment from the city of that which was still due him on account of such paving, which petition was at first denied but later referred back to the Committee on Streets who, on June 23 1896 (C. P. page 553) upon the advice of the Corporation Counsel granted the prayer of the petitioner, but who failed to take such action as was necessary to rectify the assessment. After giving the matter the fullest investigation possible and finding that the error is on the part of the city, we recommend, upon the advice of the Corporation Counsel, that the petitioner be allowed to pay the original amount of said paving assessment according to the books of the City Treasurer, being $331 55 and we herewith offer the following resolution.

Respectfully submitted

WM. F. MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted, and on leave the following resolution was offered.

By Ald. Moeller:

Resolved That the City Treasurer be and he is hereby authorized and instructed to receive from D. W. Taxes.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes to whom was referred the petition of J W Wason for the cancellation of a tax sale respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is the owner of fifty-one 20 feet of the north ½ of north 7 44 acres of south 7 44 acres of outlot 16 Maurice Moran farm east side Moran street, that said property above described was sold to the city for the taxes of 1893, but when the owner thereof recently became aware that such had been the case, he immediately looked up his tax receipts and found that he paid the taxes thereon for the year in question, which receipt was shown before your committee In view of the fact that it is a clerical error we recommend that the tax sale be canceled and we herewith offer the following resolution

Respectfully submitted.

HOMER M GRAW,
OLIVER H. GRUNOW.

Accepted and on leave the following resolution was offered:

By Ald McGraw

Resolved, That the City Treasurer be and he is hereby authorized and instructed to cancel the sale held against the following 20 feet of the north ½ of north 7 44 acres of south 7 44 acres of outlot 16, Maurice Moran farm east side Moran street, for the taxes of 1893

To the Honorable the Common Council

Gentlemen Your Committee on Street Openings, to whom was referred the petition of C L Measmore for permission to pay assessment for the opening of Sixteenth street without penalty and interest, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is the owner of the N 21½ ft of O L 1 adjoining Seventeenth street and N 21 feet O L 1 adjoining Fifteenth street that after Sixteenth street was opened and the as-

assessments became payable, the petitioner inquired of the Receiver of Taxes as to how much his assessment amounted to and upon being informed that it was $250 00, he paid the same on July 1st 1893 that is two or four months afterwards the petitioner applied to the City Treasurer for the amount of his award, which he secured, but which should not have been paid to him by the City Treasurer on account of an assessment of $250 00 left unpaid for the opening of the aforesaid street, and it was his duty to retain any assessments against said property and only pay the balance due thereon but, however, he failed so to do that the petitioner was assessed the sum of $25 upon the property on each side of the street for said opening, but being unaware of this and after paying what he supposed to be his entire assessment and receiving the amount of his award from the City Treasurer, your committee feel that a compromise settlement should be made, and recommend that the petitioner be allowed to pay the amount of the original assessment according to the books of the Receiver of Taxes, with 3 per cent interest added thereto from the time the same was sold to the city, being January 24, 1894, amounting to $46 25, which is divided as follows: Original assessment, according to the book of the Receiver of Taxes, $250 00, interest thereon at 3 per cent from January 24, 1894, to date $46 25, and we herewith offer the following resolution

Respectfully submitted,

Ordinances.

To the Honorable the Common Council

Gentlemen Your Committee on Ordinances to which was referred the ordinance offered by Ald Reinhardt, granting permission to the Detroit Bridge & Iron Works to construct and operate a railroad track across Twenty-third street, respectfully report that we have carefully considered the matter and beg leave to state that the committee is of the opinion and feel satisfied that only one track across said street is necessary at this time We therefore recommend that they be given permission to construct a track across said street, and we herewith offer the following ordinance

Respectfully submitted
J J HAARER
PETER KNAUSS,
BASIL A LEMKE

Accepted.

The following is the ordinance

AN ORDINANCE granting to the Detroit Bridge & Iron Works permission to construct, maintain and operate a railroad track across Twenty-third street, known as lot B of part of outlots 55 and 58 of the Porter farm, with lot A of part of outlots 56 and 58 of the Porter farm on the west side of Twenty-third street in the Twelfth ward of the City of Detroit.

It is hereby ordained by the people of the City of Detroit

Section 1. That consent permission and authority are hereby granted to the Detroit Bridge & Iron Works, its successors and assigns, to construct maintain and operate with pony engine one railway track near the Michigan Central railroad tracks adjoining the property of the Detroit Bridge & Iron Works, at right angles across Twenty-third street, to connect its property on the east side of Twenty-third street, known as lot B with lot A, on west side of Twenty-third street both lots being part of outlots 55 and 58 of the Porter farm in the Twelfth ward of the City of Detroit

Sec 2 Said tracks shall be laid under the supervision of the Board of Public Works and shall conform to the grade of the streets in such a manner as to least interfere with the ordinary travel on said street and said grantee shall construct and maintain sidewalks between said tracks in the portion of the street set aside for sidewalk purposes and shall provide and keep in repair such suitable and permanent approaches to said tracks as all persons that teams, vehicles and persons shall be enabled to cross the said track conveniently at all times, such work shall be done under the supervision and to the satisfaction of the Board of Public Works

Sec 3 Said grantee is authorized to use said railway only for the purpose of such lawful business as may be conducted and carried on upon the premises by the occupants thereof The cars to be used on said railway shall be propelled by a pony engine the entire design of this grant being to permit transportation to and from the premises of said grantee Cars or pony engine each several time before crossing said street shall be preceded by a flagman in the employ or grantee, whose duty it shall be to see that the roadway and sidewalks of said street are clear of vehicles and pedestrians, and to warn the public of the approach of cars and pony engine of said grantee over said track

Sec 4 The grantee shall keep the surface of the street as occupied by said railway track in good repair and order, and shall restore said street, sidewalks and grounds to an equally good condition as when disturbed and shall by good and sufficient bonds indemnify and save harmless the City of Detroit from any and all claims for damages for which said city shall be made or become liable to pay by any

reason of the construction, making or operating of said railway, or the giving or allowing of a license right and privilege hereby granted. Whenever said street shall be paved or repaved, the said grantee shall pay the cost of the paving or repaving of the portion of the street included between the rails.

Sec. 5. The privileges hereby granted shall in no wise restrict or alter the right of the City of Detroit, or any of its authorized municipal boards or officers to enter upon said street and occupy the same in building public works for general public purposes of any kind whatsoever.

Sec. 6. No employe of the said grantee shall permit any car to stop or remain on the said street so as to obstruct the free and ordinary use thereof and no such person or any person, or said grantee shall permit any car to remain on said track during the hours of the day or night.

Sec. 7. The right is reserved by the Common Council of the City of Detroit to make amendments to this grant and ordinance and such other relief, orders or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accommodation of the city and public in relation to said railway.

Sec. 8. This ordinance shall take effect immediately upon the filing of the written acceptance of the terms thereof in the office of the City Clerk of the City of Detroit by the said grantee, accompanied by a bond for one thousand dollars, running from said grantee, with two or more sureties conditioned as mentioned in section four, provided such acceptance and bond are filed within thirty days after the adoption thereof.

Sec. 9. Any violation of or neglect or refusal to comply with the provisions of this ordinance by the said grantee or by any agent or person in the employ of said grantee, or any person or corporation connected with the operation of its cars on the track hereby granted shall be punished by a fine not to exceed one hundred dollars and costs, and in the imposition of any such fine and costs the court may make a further sentence that the offender be committed to the County Jail or the Detroit House of Correction until the payment of such fine and costs for any period of time not to exceed six months.

Sec. 10. The right to repeal this ordinance at any time is expressly reserved, and upon the repeal of the same all the rights and privileges hereby granted shall cease and be at an end and said grantee shall at its own expense remove all the track laid under the authority of this ordinance from the said street and restore the roadbed to a condition equal to its present condition.

Bidders will deposit in Board of Public Works Office samples of bank and river sand and bank and river gravel on which their bids are based

For furnishing sand and gravel, contractors will file separate bids for the districts lying east and west of Woodward avenue sand to be delivered at three (3) or four (4) points on railroad tracks in such district, if required and at city yards.

Each bidder must deposit with the Board of Public Works on presenting his proposal a certified bank check in the sum of $500, payable to the order of said Board

Said sum will be forfeited to the Board in case the bidder refuses or neglects to enter into contract for the work subject to confirmation by the Common Council, within five days after he or they shall have been notified of the acceptance of his or their tender by the Board Checks deposited with rejected bids will be returned to the bidders on demand The bidder whose tender is accepted will be required to furnish with his contract an approved bond to the City of Detroit in the sum of 25 per cent of the estimated contract price for the work, conditioned on the full and faithful performance of his or their part of the contract

On the proper execution of the contract bond the amount deposited with the bidder will be returned to the contractor

The right to reject any or all proposals is expressly reserved

The following is the estimate

To the Honorable the City Controller.

Dear Sir At a meeting of this Commission held March 6th, 1900, it was the unanimous opinion of the commissioners that the buildings, machinery and stores of the Board be protected from fire by a proper amount of insurance against loss, and that a supplemental estimate be sent to the Board of Estimates to cover the premium on a policy to the amount of $100 000

This supplemental estimate is therefore, hereby submitted, as follows

For the premium on a policy amounting to $100,000 protecting the buildings, machinery and stores of the Public Lighting Commission against fire as follows.

$25,000 insurance upon buildings at 80c per $100	$ 200 00
$70 000 insurance upon machinery, both electrical and steam, at 90c per $100	630 00
$5 000 insurance upon stores at 90c per $100	15 00
A total of	$ 875.00

Sec. 4 Any violation of or neglect or refusal to comply with the provisions of this ordinance and any person who shall deliver or attempt to deliver coal or coke of less weight than that purporting to be delivered by the certificate mentioned aforesaid, shall be punished with a fine not to exceed one hundred dollars and costs of prosecution and in the imposition of any fine and costs the court may make a further sentence that the offender be imprisoned in the Detroit House of Correction until the payment thereof provided that the term of such imprisonment shall not exceed the period of six months.

Sec. 5 This ordinance shall take immediate effect.

Read twice by title ordered printed and referred to the Committee on Ordinances.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council:

Gentlemen—It becomes my painful duty to announce to you the death of Capt. Joseph Nicholson who has for the last twenty years and upwards occupied the responsible position of Superintendent of the Detroit House of Correction.

I leave it to such action on the part of this body as to the Council may seem meet.

Very respectfully,
ROBT BARRIE,
Acting Mayor.

Accepted and placed on file.

On motion of Ald Coote and by unanimous consent Hon J hn W McGrath representing a committee appointed at a meeting of city officials held in the Mayor's office on the 19th inst., was granted the privilege of the floor, briefly addressed the body and read the following.

To the Members of the Common Council, City Officers and Members of the Various Municipal Boards.

In the death of Captain Joseph Nicholson the state has lost a devoted citizen the city an upright and honest official and humanity a zealous friend.

Joseph Nicholson was born September 2 1826 at Kilkee Co. Clare Ireland. He came to America in 1847 following the great famine in 1848. He became night inspector for the Detroit Fire & Marine Insurance Company and in 1858 he was appointed superintendent of the Detroit House of Correction which position he held up to the time of his death.

During his administration of the affairs of that institution Capt Nicholson demonstrated what strong principles and high regard for public interest in a man's breast can accomplish in matters of municipal concern.

He took charge when the institution had been for years an annual expense to the city of thousands of dollars. To-day it has not only paid its own way but for many years has been a source of revenue to the county of hundreds of thousands of dollars which have from time to time been converted into the city treasury.

More than this the Detroit House of Correction as a penal reformatory has become and is regarded as second to none in this country.

The question of the care control management and reformation of prisoners is a long head perplexing one to men of large culture and experience.

No prison manager ever came nearer to the practical solution of the question than did Capt Joseph Nicholson. He saw all men as brothers, the subject. He seemed to have been endowed with a keen insight into human nature with the faculty of governing men with a master hand.

With strong moral principles of right of them, and with a firm but kindly will he summoned these with a tender sympathetic nature, great humanity and an ever-abiding charity for the erring.

Thus equipped he applied himself to the task which he will go down as one of the best known and most favorably regarded prison managers of this continent.

As has been well said "A man perhaps cannot be said to have made a success of life who has not left behind him a name that will be remembered with affection by his fellows." He learned to appreciate their needs and to grant rights better than could possibly be realized by any one not a physical prisoner of the walls.

His life is rounded, but his work is not done.

Resolved, That we extend to the family of the deceased our sincere sympathy in their bereavement, be it further

Resolved, That the Acting Mayor be requested to order a message to be sent with these resolutions and to

Indians and asking that they be spread upon the minutes of the council proceedings and that a engrossed copy of the same be forwarded to the family of Capt Nicholson.

Accepted and referred to the Committee on Claims and Accounts

FROM THE SAME

To the Honorable the Common Council:

Gentlemen: On November 16th 1897 you, honorable body passed a resolution directing the City Controller to draw his warrant on the contingent fund to refund or pay back to such persons as had paid their taxes for the widening of Randolph street on the petition to the Control of, & receipt for money paid for said purpose.

At the time, this office assumed the right to publish a notice of such refunding action by your honorable body, most of the claims have been paid. There is no provision either by resolution or ordinance to make it the duty of any city officer, either the City Clerk, Receiver of Taxes, City Treasurer or Controller to give individual notice of such refunding resolution. I would suggest that either by resolution or ordinance that it be made the duty of some officer to mail a letter of notice of the action of the Common Council to the last known address of each person entitled to receive moneys under such petition of your honorable body.

I recommend that this communication be referred to the Committee on Ways and Means to determine the proper officer to be charged with this duty and the best method either by resolution or ordinance of accomplishing the work.

Respectfully,
F A BLADES,
Controller

From the Corporation Counsel.

To the Honorable the Common Council

Gentlemen -The suit commenced August 14th 1899 by the Detroit Citizens' Street Railway Company against the City of Detroit, the Mayor and the Corporation Counsel, in the United States Court to declare the five ordinances passed August 14th 1899, by which it was attempted to reduce the rates of fare upon certain lines of the said railway was recently decided by the United States court in favor of the railway company. The court holding that the said ordinances were invalid and granted an injunction restraining the enforcement thereof

Section 2 of the act creating the law department of this city provides that if a judgment or decree be entered in any case to which the city is a party the Corporation Counsel may take an appeal or other proper proceeding to be taken to remove such case to the appellate court if in his judgment the interests of the city so require

I was clearly the intention of the law in creating the law department that if it were [illegible] the Corporation Counsel with full power to conduct legal proceedings to determine [illegible] of law, [illegible] whether after a determination in a lower court, an appeal should be taken

At the time these ordinances were passed, and I advised you that they were invalid and I advised further that there was no legal defense to the suit commenced in the United States court. The matter was brought by your direction by you to be of such importance to ignore my advice and I comply with your request with a full understanding that the rights of the city could be [illegible]

The [illegible] of the exhaustive opinion of Judge Swan who has made a careful study and I [illegible] of the [illegible] cases under which the street railway company operates in the City of Detroit [illegible] upon which I gave to you [illegible] only and I am not a judge to decide as to the power conferred upon the by law and [illegible] appeal in this case and [illegible]

pense to the city in costs alone of not less than from $5K to $1 000.

I therefore respectfully ask your honorable body to release me of the exercise of the discretion which the law imposes upon me and to assume the responsibility of taking such further action in this case as in your opinion may seem proper

Yours respectfully
CHAS FLOWERS
Corporation Counsel.

To the Honorable the Common Council:

Gentlemen Herewith in accordance with your resolution I present the proper ordinance to amend Section 3 of Chapter 123 of the Revised Ordinances of 1895, in reference to firing of fireworks and firearms

Very respectfully,
GEORGE P PALMER
Assistant Corporation Counsel

Accepted
The following is the ordinance.

AN ORDINANCE to amend Section 3 of Chapter 123 of the Revised Ordinances of 1895 with reference to fireworks and firearms.

It is hereby ordained by the People of the City of Detroit

Section 1 That Section 3 of Chapter 123 of the Revised Ordinances of 1895 with reference to fireworks and firearms be and the same is hereby amended so as to read as follows

Sec 3 No person shall fire or set off any squib, cracker gunpowder or fireworks, or fire any gun revolver pistol toy pistol cap or cap pidge of any kind in any street lane, alley or other public space or in any yard public or private place within said city Provided however that the Mayor by a general order or proclamation may grant permission to all persons within the city to use fireworks on the fourth day of July in each year under such restrictions and restrictions as he may deem proper provided for, however that nothing in this ordinance shall be construed to permit the firing of any kind of fireworks on the fourth day of July except between the hours of 12 o'clock a m and midnight, nor within a distance of 300 feet of any hospital at any time on said day nor to the use of pistols revolvers, toy cannons or dynamite crackers so called at any time on said day nor to the use of any kind of fireworks to be set off in street railway tracks or by persons in or by the passing of street cars nor to the placing on said tracks of any such fireworks or explosives

Sec 2 This ordinance shall take immediate effect.

Read twice by title ordered printed and referred to the Committee on Ordinances

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen At the last session of your honorable body by a resolution was adopted asking my opinion as to whether officials of the City [illegible] by virtue of their authority [illegible] the City of Detroit regulating [illegible] the [illegible] of [illegible] and if so whether they are subject to a

tax upon the amount of premium as well as upon the bond

Bonds of city officials and all bonds required by law to be given to the city are exempt from the payment of a stamp tax under the decisions of the Supreme Court of Michigan and the Supreme Court of the United States and if such stamps are placed upon the bonds either by city officials who are required to give the bonds or by the surety companies which furnish the bonds such act upon the part of either is a mere gratuity to the United States government

The reason for this construction of the law is that the United States government has no right to tax a municipality or in any way interfere with any of the functions of the government

To the Honorable the Common Council

Gentlemen—On February 3d last a judgment was rendered against the City of Detroit in the Circuit Court for the County of Wayne in favor of Henry Boyd for the sum of $300 and costs of the plaintiff have been taxed at $64 15

This was an action for services rendered to the Board of Health as ambulance officer from July 1st 1895 to January 1st 1898 the total amount claimed by the plaintiff was $2130 Upon the trial of the case I succeeded in reducing the claim to the sum of $300

Under the evidence in the case it appeared that the plaintiff was entitled to some compensation and the court left the question to the jury to determine the value of the services The court having ruled in favor of the city upon all questions of law presented thus enabling me to secure the substantial reduction of the plaintiff's claim above referred to there is nothing left from which to appeal to the Supreme Court and the plaintiff having assented to waive his right to appeal I would recommend the payment of the judgment and costs which are a charge against the funds of the Board of Health

From the City Engineer.

To the Honorable the Common Council

Gentlemen In accordance with a resolution offered by Ald. Hearer and adopted by your honorable body March 13th, 1909 I hereby transmit a general description of the plans prepared in the City Engineers office for the separation of grades in the City of Detroit

A careful study of grade separations as accomplished in other cities has led me to believe that the elevation of tracks being the most economical as well as the least unsightly, is best suited to existing conditions in this city I have therefore endeavored to carry out this plan and with the exception of the D G H & M Ry tracks all tracks in the city are, according to this plan, elevated

On the Detroit Grand Haven & Milwaukee Ry the heavy grade from Jefferson avenue northward prohibited the raising of tracks and therefore a depression was made in this line starting at the present elevation at Jefferson avenue and getting deeper until a cut of 13 feet is reached at Grand avenue this depression is carried forth to the city limits with cut of 11 feet at Forest avenue 9 feet at Ferry avenue, and 9 feet at the city limits

The reasons for the depression of this track are as follows (1) It lightens the grade of the D G H & M Ry (2) It is the only way in which we can approach the large number of tracks belonging to the Detroit Car & Foundry Co (3) It saves the present bridge at the Boulevard which cost in the neighborhood of $30,000 to construct (4) It saves the cost of a new stone subway at this point estimated at $70,000 (5) It separates the crossing of the D G H & M and the Detroit & Bay City railroads (6) It furnishes material for elevation of other roads (7) It does not necessitate the closing of any streets

The bridges crossing the D G H & M will be of steel with a grade of 1 foot 6 inches to the foot. The structure at Grand avenue will be 8 feet in height and have an approach 200 feet in length A stone or concrete retaining wall will have to be constructed on each side of the railroad right of way for the whole length of this work

The elevation of tracks starts on the east side of city with the Lake Shore & Michigan Southern Ry affecting [illegible] the first subway being at Russell street The street is depressed at this point to a depth of 5 feet, and the tracks elevated 8 5-10 feet. In all manufacturing districts the elevation has been made lighter than on residence streets to facilitate as far as possible, the handling of sidetracks.

All structures west of Russell street with the exception of the existing bridges over the Michigan Central tracks will be subways and at most of the streets there will be very little if any depression of sidewalks, the roadways alone being lowered

The fact that the Michigan Central tracks in the vicinity of Sixteenth and Seventeenth streets can either be raised or lowered without destroying the present bridges will make the subways at these streets very deep and the approaches long but it will not be necessary to close any streets in the city

The number of structures to be built will be 119 of which 43 will be viaducts and 76 subways

The approximate estimated cost of the work is as follows and refers to all the passenger roads in the city the Belt Line and Transit Railways not being included No estimate of damage to property has been made

[illegible]	$ [illegible]
Excess of embankment over excavation	655 64
Retaining walls	440 72
Steel tanks 119 at $30 000	3 [illegible]
Ballasting	107 [illegible]
Steel trestle	2 [illegible]
Engineering and contingencies	10 [illegible]
Total	$ [illegible]

The plans as prepared for your committee on Grade Separation are now in the Engineers office and an inspection of same is invited

From Board of Inspectors House of Correction.

To the Honorable the Common Council.

Gentlemen The Board of Inspectors of the Detroit House of Correction respectfully present herewith the thirty eighth annual report of the Superintendent together with the reports of the physician and teacher of the institution, the same being for the year ending December 31st 1909

The usual good care and attention have been given the prisoners and it is a pleasure to be able to say that the year just closed, in point of not making a most gratifying financial showing

Not only does the year's showing, by the statements accompanying and forming a part of the Superintendent's report, are [illegible] but we have been able to dispose of [illegible] of our stock of manufactured goods there is on hand as a result a large [illegible] asset than is necessary for the needs of the institution

[illegible] of the force of prisoners we have had the usual [illegible] year as we like pleasant relations with [illegible] we are pleased to say [illegible] City Treasurer [illegible] and to date $30,000 when called upon by [illegible] to do

The [illegible] of carrying on [illegible] year [illegible] and successful management [illegible]

present Superintendent, Capt. Joseph [illegible], we deem it not amiss to [illegible] your attention the [illegible] is played under his [illegible] results unequaled, we [illegible] by any prison manager in the [illegible]

In addition to so conducting the affairs of the institution that a reputation of the highest during his capable management there has been paid into the city an sum from the profits [illegible] including the sum [illegible] herewith presented for your acceptance the sum of $67,538.36 and in addition more than $15,000 has been expended from the profits of the institution [illegible] construction and repairs. No dollar has been appropriated by the city during this entire period to the needs of the institution for any purpose whatsoever. All of this has been accomplished by him with the assistance of John L. McDonald, chief clerk with a class of prisoners the best of whom were people sentenced for short terms of imprisonment and were of an ordinary misdemeanant type considered of very doubtful value.

The valuable services rendered the institution by Superintendent [illegible] are we believe worthy of high commendation, and it affords the Board of Inspectors much pleasure in stating in this connection that the opinion of every citizen and taxpayer of Detroit has much occasion for congratulation upon the most economical and profitable management of the institution by its superintendent [illegible] in his remarkable ability, his great business actions and essential knowledge of human nature, the [illegible] to handle a class of the highest order that seldom can be found only manufactured [illegible] upon the best and most approved methods of the age if it possible [illegible] the best advantage a committee of business men which we [illegible] to [illegible] a most rare [illegible]

On motion the report referred to was received and placed on file.

To the Board of Inspectors

Gentlemen: I have the honor of submitting herewith the thirty-eighth annual report of the Detroit House of Correction, the same being for the year ending December 31, 1894.

The report as to the various conditions of the institution for the year as well as to the financial condition of all three industries conducted at this institution during the year ending is with pleasure I say, that the manufactured goods [illegible] and plenty of orders on hand for future business. We therefore [illegible] by that a very [illegible] of the [illegible] goods and [illegible] the [illegible] [illegible] [illegible]

interests such laws are supposed to be adjusted.

The question as to the best methods to be pursued in the reformation of criminals and the system of employment to be adopted for the inmates of prisons institutes to be agitated and discussed at the meetings of penal and charitable organizations but a satisfactory solution of the vexed question appears about as far away as ever. As to the system of employment this would be most fair to the state the convicts would be free laborers, conditions very great as between the contract the state account the piece price and the new system. Each state has such system having its strong supporters, and as a result of these systems of employing prisoners are being operated in the different persons throughout the United States at the present time.

The same may be said about prison reform, better education with libraries and debating clubs athletic exhibitions and other forms of entertainment are favored by some while others put their faith to a plain common school education supplemented by habits of industry and obedience to be acquired through the daily routine of prison life. But as heredity and environment are responsible for much of crime life they must first receive attention and correction before any decrease in crime can be expected. It would seem that the favorable condition of business today would render it unnecessary for any able-bodied man who is willing to work remaining in idleness and that men and women cannot be said to have been forced into crime against their will through want, and therefore when found following crime as a means must be considered to have entered upon crime life through choice. Upon this class prison reform methods cannot be expected to make much impression but with the young and first offenders against the laws when placed under restraint for a sufficient length of time for a proper reorganization of their transgressions may be and undoubtedly is accomplished.

As will be seen by reference to the reports of the Physician and Trustee handed you herewith the health of the inmates has been very good during the year and the usual educational advantages have been extended to those who desired to improve their condition.

Religious services in our chapel were conducted on each Sunday morning as heretofore by the clergy of the City whom we do not thank the less for their kind interest in these unfortunate people.

Taxes.

To the Honorable the Common Council

Gentlemen—Your Committee on Taxes, to whom was referred the petition of McGregor Mission for the refunding of a tax respectfully reports that we have given the matter careful consideration and beg leave to state that the City of Detroit in June 1899 the Trustees of McGregor Mission contracted to purchase lots 96, 99 and 102, Houghton section of the Brush Farm,

Brush street, for the purpose of erecting a suitable building to be used for the carrying on of its mission work, that immediately after the acquirement of said property the Trustees had the buildings located thereon removed and erected a new one constructed that said Mission was assessed the sum of $[illegible] for general city taxes for the year 1899. Your Committee feel that said Mission should not be required to pay any taxes upon said property for the year in question. The McGregor Mission was incorporated for benevolent and charitable purposes and there is not the slightest doubt but what their objects are carried out to the letter. In view of the arguments presented before the Committee we recommend that they be refunded the taxes paid by them upon said property amounting to $150 03 and we herewith offer the following resolution.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on ordinances to whom was referred an ordinance entitled "An Ordinance to provide for the appointment and prescribe the duties of an officer to be known and designated as the Chief Accountant" approved June 22, 1898, as amended July 16, 1894, and an ordinance to provide for the appointment and prescribe the duties of an officer to be known as the Secretary of Common Council Committees respectfully report that we have carefully considered the same and recommend their adoption.

Respectfully submitted,

J. J. HAARER,
PETER KNAUSS,
BASIL A. LEMKE.

Accepted.

Ald Haarer moved that the ordinance entitled "An Ordinance to amend section 2 chapter [illegible] of an ordinance entitled "An Ordinance to provide for the appointment and prescribe the duties of an officer to be known and designated as the Chief Accountant approved Jan 22, 1898 as amended July 16, 1900" be placed on the order of third reading, which motion prevailed.

The ordinance was then placed on the order of third reading and adopted as follows

Yeas—Ald Atkinson Bleil, Coots, Frueher, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Schneider, Smith, Snow, Stiegler, Weibel, Wildman and the President—27.

Nays—None.

The title to the ordinance was confirmed.

Ald Haarer then moved that an ordinance entitled "An ordinance to provide for the appointment and prescribe the duties of an officer to be known as the Secretary of Common Council Committees," be placed on the order of third reading, which motion prevailed.

The ordinance was then placed on the order of third reading.

Ald Lemke moved that Sec 2 be amended by adding thereto the following:

"In the performance of his duties the said Secretary of the Common Council Committees shall be under the control and direction of the Committee on Ways and Means of the Common Council" which motion did not prevail.

The ordinance was then adopted as follows:

Yeas—Ald Atkinson Bleil, Coots, Frueher, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Stiegler, Weibel, Wildman and the President—28.

Nays—None.

The title to the ordinance was confirmed.

Special.

To the Honorable the Common Council:

Gentlemen—Your committee of one appointed by the Common Council to go to Washington to co-operate with a committee appointed by the Merchants & Manufacturers' Exchange in the matter of procuring pneumatic mail tubes for the city of Detroit begs leave to respectfully report that in accordance with the instructions given by the common council your representative appeared with the other members of the Detroit delegation before the committee of the house of representatives on postoffices and post roads in Washington, on Friday and Saturday, March 9th and 10th inst.

The Detroit delegation represented the Chamber of Commerce, Merchants & Manufacturers' Exchange, Street Railway Employes' Union, Trades Council and Common Council and I feel the Detroit delegation was the strongest representation before the committee.

Pneumatic mail tubes are in use at the present time in Boston, New York and Philadelphia, and result in more prompt delivery of mail than any system of mail wagons or mail trolley cars.

The plan adopted by the government in the before mentioned cities is to grant an appropriation sufficient to pay 10 per cent on the cost of constructing the system of pneumatic tubes under government supervision. The government then agrees to use the tube system for the transmission of mail for the period of four years. A local company is then organized and the

tube system installed in such streets or alleys and in such a manner as the city government dictates. Out of the 10 per cent paid by the government the rapid pneumatic tube company must pay operating expenses and maintain the system in good condition, giving such service as the government may require.

The delegations from the cities where the pneumatic tube system is now in use covered that mail is delivered more rapidly and with greater promptness than formerly and strongly argued before the house committee in Washington for a larger appropriation of $2,000,000 for the service in their respective cities.

Respectfully submitted

To the Honorable the Common Council

Gentlemen: Your Special Committee, appointed on resolution of Ald. Marx relative to a petition of the Common Council in the plans outlined by the Bicentennial Memorial Committee in the matter of an electric fountain memorial to celebrate the 200th anniversary of the founding of the City of Detroit, We feel that the opportunity that offers itself at this time is one that should receive the heartiest support and indorsement of every member of this body whose members are the direct representatives of the people.

There is no question whatever but what the people of the City of Detroit are desirous of having their share in promoting this beautiful memorial which will be an enterprise of the people by the people and for the people, another point of interest. The small subscription of the poor workingman or clerk will be just as welcome as the larger ones given by those who can better afford so to do.

The plan which your committee has had best to adopt is outlined as follows:

We desire that the Aldermen of every ward appoint himself as a committee of one to look after the residents of his ward. In each ward Aldermen usually find certain districts quite distant from other districts and might be willing to assign so that they divided between themselves as they may best see fit to do. They in turn can appoint a chairman for each block and their respective duties shall be that the committeeman shall personally solicit subscriptions from all persons within the district, whether the party desires to be solicited or not.

There are no obligations to be made by any member of any committee appointed by the Aldermen of the wards, for the reason that the residents of the wards pay only the interest on the money borrowed.

The Aldermen are not compelled to adopt the plan which is outlined here as above what might be the best plan in the First or Second ward might work just the opposite in the outlying wards and vice versa.

If there are any parties who desire to subscribe and not have their names mentioned as may be the case in a good many instances trust them to forward their subscriptions to the Board of Public Works at Headquarters, located at room No. 12 [illegible] Trust Building or leave word at the Committeeman to take down address and forward the list to headquarters for their further disposition.

The members of the Finance Committee desire us to state to the members of the Council that they will be at your service at any time of the day or night in gathering and promoting this fund. If the chairmen of the various wards see fit to have a mass meeting with citizens the Finance Committee will arrange to have speakers there to fully explain the proposed plan. The district managers will be ready for distribution within a very few days. We desire to state so that we believe that a week should be set apart especially for this purpose and after thoroughly discussing the matter have decided that the week commencing May 30th will be the most opportune so that a speedy termination can be had and not let the matter drag along for an indefinite time.

Committeemen shall have with them a list of subscribing citizens that they may be able to lay the matter before the people in their respective districts and each in every one thereon may have a thorough understanding as to time of payment and how to be paid, etc.

Receipts will be given by the Finance Committee to all those who have paid into the fund for the erection of the Memorial, upon presenting them at the office of the Board of Public Works the total amount subscribed.

To the Honorable the Common Council:

Gentlemen—In compliance with a resolution by Ald. Koenig, adopted by your honorable body on the 20th inst., I beg leave to submit herewith a supplemental estimate, as follows:

Public Building Fund—For the purpose of making alterations in the City Hall..... $10,000 00

I understand that this estimate is for the purpose of doing the preliminary work to the remodeling of the City Hall when it shall be vacated by the various county offices.

Also, in response to a resolution by Ald. Grunow, the following:

General Fund—Care of ladies' toilet, basement, and third floor toilet	$ 950.00
Care public closets, basement	700.00

These are the figures submitted by the Board of Public Works, and which now appear in the Public Building fund.

Also the accompanying supplemental estimate from the Metropolitan Police Commission, aggregating..... $ 1,500.00

Respectfully submitted,
F. A. BLADES,
Controller.

Accepted.

The following is the supplemental estimate of the Police Commission:

Hon. F. A. Blades, Controller:

Dear Sir,—I am directed by the Board of Police Commissioners to request you to include in their Supplemental Estimates an estimate for $1,500.00, for proposed changes in Fremont street station, made necessary by present poor sanitary condition of the building.

I have the honor to be,
Yours respectfully,
J. EDWARD DUPONT,
Sec. Met. Police Commission.

The supplemental estimate for public building fund was referred to the Committee on Public Buildings, and those for the general fund and Metropolitan Police fund were referred to the Committee on Ways and Means.

From the Board of Public Works.

To the Honorable the Common Council:

Gentlemen—The Board of Public Works herewith submits the twelfth estimate for constructing a stone and brick market and memorial building for the Grand Army on the Cass market site, bounded by Grand River, Adams and Cass avenues, as certified by the Superintendent, as follows:

City of Detroit,
To Spitzley Bros.

To twelfth estimate on contract for constructing stone and brick market and memorial building for the G. A. R. on the Cass market site, between Grand River, Adams and Cass avenues $1,142 00

The Board respectfully recommends the payment of the above on account of said contract.

Respectfully submitted,
J. W. MILLEN,
President.

Accepted, and leave being granted, the following resolution was offered:
By Ald. Hansjosten.

Resolved, That the Controller be and is hereby directed to draw his warrant on the Public Building Fund in favor of Spitzley Brothers, for the sum of $1,142.00, as twelfth estimate for constructing a stone and brick market and memorial building for the Grand Army, on Cass market site, bounded by Grand River, Adams and Cass avenues.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Bleil, Coots, Fracher, Grunow, Haarer, Hansjosten, Hilliger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Schneider, Smith, Snow, Steiger, Weibel, Wildman, and the President—30.

To the Honorable the Common Council

Gentlemen—The Board of Public Works respectfully reports that lateral sewer No. 1137, heretofore ordered constructed, has been fully completed according to contract and specifications therefor, and that all parties interested have been duly notified as required by ordinance, and the Board herewith transmits assessment roll No. 6201 for constructing said sewer, and respectfully asks its approval and confirmation.

Respectfully submitted,
J. W. MILLEN,
President.

Accepted and leave being granted, the following resolution was offered:
By Ald. Koch:

Whereas, It appears from a communication from the Board of Public Works that lateral sewer.

No. 1137—In alley between St. Aubin ave. and Dubois street, north of Ferry avenue;

Has been fully completed in accordance with the contract and specifications for the same;

Whereas, No person has appeared to object to assessment roll No. 6021, and due notice having been given as required by ordinance;

Resolved, That the lateral above described is hereby accepted, and that said assessment roll therefor is hereby approved and confirmed and the Controller is hereby directed to place the same in the hands of the Receiver of Taxes for collection

Adopted as follows

Yeas Ald. Atkinson, Beamer, Biell, Coots, Fracher, Grunow, Haarer, Hunsiosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Schuster, Smith, Snow, Steiger, Weibel, Wildman and the President—30.

FROM THE SAME

To the Honorable the Common Council

Gentlemen—The two manhole explosions of last Thursday whereby one man was struck and injured by a falling piece of iron and another blown into the air, are matters of sufficient importance to merit attention at this time in order that future accidents of this kind may be avoided, if possible. The manholes in use by the Board of Public Works have perforated covers and are so constructed that explosions of this kind are almost impossible. The manhole covers used by some of the companies, having conduits in the streets are solid and close fitting and constructed in such manner that explosions from accumulations of gas, etc. are very liable to occur. The Board having charge of the streets the Commissioners are of the opinion that an ordinance should be drafted compelling all companies or corporations having conduits in the streets or alleys to use a safety manhole cover. Accompanying this communication is a blue print of a manhole cover manufactured by a Detroit firm which will serve as a guide to the Committee on Ordinances to whom we respectfully ask that this ordinance be referred.

Gentlemen—The Public Buildings Fund of the Board of Public Works has been exhausted by the continual drains upon it from the City Hall, Municipal Court and Health buildings for necessary repairs to these buildings and their forces which had to be taken care of. Out of this fund comes the salaries of the two janitors and their assistants as well as the item of supplies. The Board respectfully asks that it be allowed the sum of one thousand dollars to carry on the work necessary to the end of the fiscal year.

Respectfully submitted.

To the Honorable the Common Council

Gentlemen—There has been submitted to the Board of Public Works two designs for a carriage for the gun from the Spanish cruiser Vizcaya, which has been loaned to the City of Detroit by the United States Government. In accordance with the resolution adopted by your honorable body the Board has submitted an estimate of $500 to defray the expense of a carriage for this cannon, which amount will undoubtedly be passed upon favorably by the Board of Estimates. The Board would suggest that the designs referred to be submitted to the proper committee, leaving it to this Board to carry out whichever plan may be adopted. The cannon is now at the western yard of the Board of Public Works and as soon as the committee of your honorable body shall decide upon the most suitable carriage contractors will be asked to submit proposals for its construction.

Gentlemen—The time is approaching when the sprinkling of streets will be not only desirable, but necessary. The Board of Public Works has been informed by the President of the Water Commission that, following the court decision in the matter of the Park and Boulevard Commission, the Board of Public Works will be expected to pay for whatever water is used in sprinkling. The Board sprinkles the streets where sweeping is being done, newly paved streets and around public parks and buildings. The street railway company sprinkles between the tracks and under its ordinance adopted June 20, 1897, the City of Detroit shall furnish said company without charge the water necessary for such sprinkling. The same ordinance provides that such hydrants as in the opinion of the Board of Public Works and Common Council shall be necessary to supply sufficient water to sprinkle the streets shall be provided for the street railway company by a number equal to this Board's days' work. We may say that they were very much overtaxed last season by the fact that the comparatively small number of hydrants were supplied and that it was only by the courtesy of the Fire Department that they were able to sprinkle at all. In as much as we are not prepared at this time to give an approximate estimate of the amount of money that would be needed for water and hydrants the Board respectfully requests that the communication be referred to the Committee on Ways and Means and that the Board will be directed to get in touch with said committee and present to it such figures as we deem necessary for water and hydrants for the above purpose.

To the Honorable the Common Council.

Gentlemen: A resolution introduced at the last meeting of your honorable body by Ald. Schneider, and referred to the Board of Public Works, relative to a request of John J. Gorman, the hatter at 15 Michigan avenue for permission to construct show windows in front of his place of business, was considered by the Board, and believing that encroachments on the public streets, especially so busy a thoroughfare as Michigan avenue is an injustice and if granted to one would have to be granted to others, the Board has denied the request and notified Mr. Gorman that such a report would be made to the Common Council.

Your committee beg leave to state that in the matter of cutting out the item of $35,500 00 for purchasing land adjoining site of the Washington Irving school, it was done for the reason that we believe the price to be put on the land is too high The assessed valuation of the land is about $1 000 00 and we believe it an outrage to be asked to pass an item for the purchase at less which is about three times its assessed valuation We would suggest that the Board of Education try to have an enabling act passed at the next session of the legislature allowing them to condemn said property for school purposes

Your committee beg leave to state further that we are of the opinion that the new school buildings to be sites should be paid for by the issue of bonds as is allowed by the committee will foot up $34 000 This will come within the amount of the bonding limits with a surplus of about $150 000 be [illegible] limit as shown in the Controller's communication which appears in the form of the estimate pamphlet allow the issuance of bonds to the amount of $34 000 We therefore recommend such action on the part of this body and respectfully offer the following resolution

Taxes.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes to whom was referred the petition of Aaron Hayes for the cancellation of a general city tax respectfully report that the petitioner is the owner of a certain house and lot on Locust avenue and that the city taxes for the year 1899 are unpaid, that she asked to be relieved from the payment thereof for the following reasons, to wit: That she is a widow and her sole support of five children depended upon the rental of the premises, that she is a widow and has been for years, that she is trying to [illegible] and that she is a member of St. Mary's Hospital and is sick [illegible] of a long [illegible] of several diseases which have over-

taken her, that there is a mortgage upon the home for the sum of $450, upon which she is hardly able to pay the interest due thereon, and further, that she has been aided by the Poor Commission from time to time for several months past to keep the family from starving. Your Committee feel after carefully considering the above reasons which are shown to be facts, that this is certainly a most worthy case and that the taxes due upon said home for the year 1896 should be cancelled, and therefore recommend that such action be concurred in by the adoption of the following resolution

Respectfully submitted,

HOMER M'GRAW,
OLIVER H. GRUNOW,

Accepted and on leave the following resolution was offered

By Ald. McGraw.

Resolved, That the City Controller be and he is hereby authorized and instructed to draw his warrant in favor of the Receiver of Taxes for the sum of $12 50, being the taxes due upon lot 18 Meiers' subdivision of lot 7 of the partition of the E. Sheldon estate being part of private claims 47 and 583, E. Lovett avenue.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Bell, Coots, Fracher, Grunow, Haarer, Hansjosten, Hilliger, Houghton, Joy, Knauss, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrill, Meyer, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Steiger, Weibel, Wildman and the President—30.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen: Your Committee on Taxes, to whom was referred back the report and resolution relative to the petition of Ludwig Zoebe for the cancellation of certain general taxes, respectfully report that we have carefully considered the matter and beg leave to state that after further investigation of the same, we feel satisfied that said tax referred to in the previous report of this committee presented at a session held on March 13, should be cancelled and therefore recommend that the resolution offered by Ald. McGraw at the session above referred to (C. P. 130) be adopted.

Respectfully submitted,

HOMER M'GRAW,
OLIVER H. GRUNOW.

Accepted.

On motion of Ald. McGraw the resolution above referred to was then adopted as follows:

Yeas—Ald. Atkinson, Beamer, Bell, Coots, Fracher, Grunow, Haarer, Hansjosten, Hilliger, Houghton, Joy, Knauss, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrill, Meyer, Moeller, Peoples, Reinhardt, Schneider, Smith, Snow, Steiger, Weibel, Wildman and the President—30.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen: Your Committee on Taxes, to whom was referred the petition of Henry Rowe, for permission to pay certain general city taxes without penalty, respectfully report that we have given the matter our most careful consideration and beg leave to state that we can see no reason why the petitioner should be relieved from the payment of any portion of the penalty or interest. It was purely carelessness on the part of his own employes that said piece of property was omitted from his tax list for the year referred to in his petition and not the fault of the city. If this request was granted, it would open the door for hundreds of others placed practically in the same position which would certainly be a bad precedent to establish. Although it may be a hardship to pay such an enormous rate of penalty and interest, we can not conscientiously grant the prayer of the petitioner, and therefore recommend that it be denied.

Respectfully submitted,

HOMER M'GRAW,
OLIVER H. GRUNOW.

FROM THE SAME

To the Honorable the Common Council

Gentlemen—Your Committee on ordinances to whom was referred the ordinance regulating the speed of street railway cars, respectfully report that we have carefully considered the same and beg leave to state that the question of speed of cars has been thoroughly gone over and we find that if the speed is slackened to 10 miles an hour it will only be a delay of 1 minute and 3 seconds in going from the M C R R depot to the R R crossing on Woodward avenue a delay of 1 minute and 30 seconds on the Fourteenth avenue line from Fourteenth avenue and the Boulevard to Bethune avenue and so proportionately all about the city on the remaining lines. It might require the few more extra cars but the service under those conditions will be almost as good as it is today in so far as time is concerned and a great deal better so far as accommodations are concerned. We therefore recommend that the ordinance offered by Ald Haarer at a session held March 13 and (P. P. 170) be adopted

FROM THE SAME

To the Honorable the Common Council:

Gentlemen On the afternoon of Sunday the first day of April last past, Mr Alexander A Stenger formerly Clerk of the Common Council and President of the Board of Estimates of the City of Detroit, died very suddenly A meeting was called of the city officers including the members of the Common Council and Board of Estimates at the office of the Mayor, on on Monday April 2 to take suitable action on the death of our late associate The tributes paid by his late associates to the memory of Mr Stenger were touching and impressive to character, and evidenced the very high esteem by which he was held by his fellow officers and fellow citizens and gave assurance that his memory will be long cherished as that of a faithful friend and most efficient officer A committee was appointed by the meeting to give expression to the feelings of his late associates and also a report I am directed to transmit to your honorable body the following preamble and resolution for the consideration of your honorable body, and for such action in the premises as you may deem meet and proper

Respectfully submitted,

WILLIAM C MAYBURY

Mayor

Accepted and placed on file

The following is the resolution

IN MEMORIAM.

ALEXANDER A STENGER

Died April 1, 1900

Our esteemed friend and fellow citizen has in the disposition of Providence been removed from an active and successful life to a quiet and higher one. He lived to the age of [illegible] with [illegible] friends and with a record unblemished

We learn with sorrow of his death, and it is but fitting that a slight tribute be paid to his memory the knowledge that words will fail to record what should be expressed forces itself upon us.

Mr. Saenger has been so thoroughly identified with the city of Detroit, both as a citizen and official, that the realization of his death comes to us with a suddenness that prevents its full understanding. He passes from amongst us but his presence with us will remain a delightful memory.

He was City Clerk from 1882 to 1885 and member of the Board of Estimates from 1897 until the date of his death, at which time he was serving as president of said board.

In the death of Mr. Saenger the City of Detroit has met with a serious loss by reason of his close relation to the interests that are of such benefit to a community as well as by the grand example he has given us of unfatiguable industry, simple honesty, irreproachable character, an exemplary official and a disinterested adviser.

In his memory, therefore, be it resolved, that we on behalf of the City of Detroit express recognition of his services and of the benefits derived by the city through the life of Alexander A. Saenger, of the city's loss through his death and our sincere sympathy with the bereaved family.

JOHN A. SCHMID,
NOTE
FRED A. ROBINSON

The resolution was then, on motion of Mr. Note, adopted as follows:

Yeas—Messrs. Chinnick, Bramer, Bleil, Coste, Helmel, Frasher, Groscurth, Hamer, Hemmeter, Hodges, Hoghton, Jos. Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reichert, Schlaefer, Smith, Stowinger, Tossy, Weibel, Weiler, Wildman and the President—31.

Nays—None.

The resolution was then ordered printed in the proceedings and transmitted to the Board of Estimates.

F. A. BLADES,
Controller

Accepted and referred to the Committee on Claims and Accounts.

From the Corporation Counsel.

To the Honorable the Common Council

Gentlemen—A suit is pending relative to certain paving assessments, in which J. C. Hamett and others are seeking to enjoin the city from collecting such assessments.

A proposition has been made to settle said suit and it is recommended that the matter be referred to the proper committee for investigation.

Very respectfully,
C. D. JOSLYN,
Assistant Corporation Counsel

Accepted and referred to the Committee on Streets.

From the Board of Public Works.

To the Honorable the Common Council

Gentlemen—Although the Board of Public Works has placed on record its intention to award the contract for the erection of the pest house of an asphalt plant, yet should the amount be allowed by the Common Council and Board of Estimates it will be some time before the plant will be available for the purchase of the plant and possibly some months will elapse before it will be in operation. In the meantime there are a number of bad holes in the asphalt pavement some of them in the downtown district on streets on which the guarantees have expired and which it is the Board's business to keep in repair. The Board respectfully asks permission to advertise for proposals per yard for said patching. Until the question of the asphalt plant is decided it is the intention of the Board to confine the patching to the narrowest possible limit in the downtown asphalt pavements, patching only in such places as it is absolutely necessary to attend to, an estimate for which would be hard to determine—although it will not probably be more than a few hundred dollars.

Respectfully submitted.

J. W. MILLEN,
H. KALLMAN,
MARSHALL H. GODFREY.

Accepted and leave being granted, the following resolution was offered:

By Ald. Moeller

Resolved, That the Board of Public Works be, and is hereby authorized and instructed to advertise in the usual manner for proposals per yard for asphalt patching, where absolutely necessary in the downtown streets for 500 yards, more or less.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Bielt, Coots, Fischer, Grunow, Hafter, Hansjosten, Hieger, Houghton, Joy, Krauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Schneider, Smith, Snow, Steiger, Weibel, Weller, Wildman, and the President—31.

FROM THE SAME.

To the Honorable the Common Council

Gentlemen—The Standard Life & Accident Insurance Co., with whom the elevators in the City Hall are insured has notified the Controller and he the Board that the cables are stranded in places, and should be replaced with new ones as soon as possible. The Board of Public Works secured the services of an expert who looked over the cables and made a report to the same effect. In order that there may be no accident the Board is of the opinion that the matter should be attended to at once, and asks permission of your honorable body to advertise for bids for putting in new cables. The estimated cost of the cables is about five hundred dollars and inasmuch as the Public Building Fund is in a depleted condition and the replacement of the cables may be considered in the light of a contingency, the Board suggests that the cost of the same be taken from the Contingent Fund.

Respectfully submitted,
J. W. MILLEN,
H. KALLMAN,
MARSHALL H. GODFREY.

Accepted and leave being granted, the following resolution was offered:

COMMUNICATION.

From the Controller.

To the Honorable the Common Council

Gentlemen On the twelfth (12th) of September in 1899 you passed two resolutions directing the Controller to draw his warrant upon the proper fund in favor of each and all of the several parties who have paid their assessments for the widening of Rivard, Antoine and the opening of Canfield ave upon the presentation to him of their receipts for said payment which you ordered

It is to be hoped that several parties have now their receipts Some have often called at my office and others wait to know when they can get their money This is a matter for the Common Council to act upon and not the Controller as to how he is to do the matter

I therefore suggest that this communication be referred to the proper committee and that a report be had, that they will be able to act upon, just receipts

REPORT OF COMMITTEE.

Special.

To the Honorable the Common Council:

Gentlemen—Your Special Committee on Ways and Means and Streets, to whom was referred the communication from the Board of Public Works relative to the furnishing of water for sprinkling purposes, and the supplemental estimates for the same, respectfully report that we have given the matter our careful consideration and beg leave to state that the Chairman of the Water Commission appeared before your special committee and stated that the Water Commission would most willingly furnish the City of Detroit with all the water that may be required by the Board of Public Works and the Street Railway companies for sprinkling purposes free of charge up to July 1st of this year, that after that time they would charge the Board of Public Works the sum of $1,100 per annum for all the water that said Board may require for its own use or for the Street Railways companies to sprinkle the streets with, which offer, in the opinion of your Committee, was a reasonable one taking into consideration the Supreme Court decision in the case of the Park and Boulevard Commission vs. Water Commission, which decision gives said Water Commission the right to charge other Commissions or Departments for the use thereof.

Your Committee therefore recommend that the supplemental estimates submitted by the Board being as follows:

For furnishing water for use of Street Railway Companies in sprinkling between and along tracks for ensuing fiscal year	$1,100 00
For hydrants for use of Street Railway Companies to properly sprinkle between and along the tracks	1 000 00
Total required	$2 100 00

be allowed.

In regard to this last estimate your committee desire to state that it is absolute necessity that this money be allowed so that the Railway Companies may carry out the work proper of sprinkling between and along their tracks.

Respectfully submitted,

WALTER H. COOTS,
OSCAR B. MARX,
WM. C. HOUGHTON,
WM. F. MOELLER,
MICHAEL MILLER,
Committee.

Accepted and laid on the table.

All matter pertaining to the estimates hereto relating over was taken from the table and referred to the Committee of the Whole.

Committee of the Whole.

The Council then resolved itself into a Committee of the Whole with Ald. Marx in the Chair.

After some time spent in consideration of the estimates the Committee rose and the roll being called the following answered to their names:

Ald. Atkinson, Beamer, Bleil, Coots, Fischer, Hansjosten, Houghton, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayer, Merrill, Reinhardt, Smith, Snow, Steiger, Weiler, Wildman and the President.

Report of Committee.

To the Honorable the President of the Common Council:

Sir—Your Committee of the Whole to whom was referred the estimates for the fiscal year 1888, beg leave to report that the same have received their consideration and would recommend the adoption of the resolution herewith presented.

Respectfully submitted,

OSCAR B. MARX,
Chairman.

From the Board of Estimates.

To the Honorable the Common Council

Gentlemen—Action on a resolution authorizing the Board of Water Commissioners of the City of Detroit to issue bonds to the amount of $50,000 the proceeds to be used for the purpose of extending and improving the water works of said city, was indefinitely postponed at a session of the Board of Estimates held on the 7th inst.

Very respectfully,

JAMES B. M'KAY,
President.

JOHN A SCHMID
Secretary

Accepted and placed on file.

From the Board of Assessors.

To the Honorable the Common Council

Gentlemen—We desire to call your attention to the fact that this Board has been restrained from placing on the assessment rolls any of the personal property of the Michigan Mutual Life Insurance Company of this city by a decision of the circuit court of this county given on Monday, April 9, 1900. We believe that this matter should be tested in the supreme court, and ask that you instruct the Corporation Counsel to appeal to that court from this decision.

The last report of the State Commissioner of Insurance shows the Michigan Mutual to be possessed of upward of $[illegible],000,000 of assets, of which only $[illegible],000 is real estate. The remainder of the company's property is taken up largely with liabilities. These are more or less contingent in character and the circuit court's decision restrains this Board from inquiring into the facts.

Yours truly,

BOARD OF ASSESSORS.
Per P J M HALLY

Accepted and referred to the Committee on Judiciary.

From the Board of Health.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen — Your Committee on Claims and Accounts, to whom was referred the petition of Emma Mayis for damages for a fall upon an alleged defective sidewalk respectfully report that we have carefully considered the same and feel satisfied after reading the testimony that the petitioner has no legal claim against the city. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,
JOHN C. BLEIL,
RICHARD P. JOY,
BASIL A. LEMKE,
M. W. M'GUIRE.

Accepted and adopted.

Streets.

To the Honorable the Common Council:

Gentlemen — Your Committee on Streets, to whom was referred the resolution of Ald. Marx relative to the approval of the specifications for Division asphalt, respectfully report that we have carefully considered the same and beg leave to state that we feel that said specifications should be submitted to the Board of Public Works for their approval, modification or rejection before they are accepted by this Council and therefore recommend such reference.

Respectfully submitted,
WM. F. MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted and adopted.

Sewers.

To the Honorable the Common Council:

Gentlemen: Your Committee on Sewerage, to whom was referred the communication from the Board of Public Works submitting proposals for the construction of lateral sewers Nos. 1146, 1150, 1151, 1147 and 1149, respectfully report that we have carefully considered the same, and believe such construction to be a public necessity. We therefore recommend that the resolution offered by Ald. Koch at a session held March 29, ult. (C. P. 1961) be adopted.

Respectfully submitted,
MAX C. KOCH,
J. J. HAARER,
WM. HILLGER.

Accepted and on motion of Ald. Koch the resolution was then adopted as follows:

Yeas—Ald. Atkinson, Beamer, Bleil, Fischer, Grunow, Haarer, Hansposten, Hillger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Snow, Steiger, Weibel, Welter and the President—30.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen — Your Committee on Claims, to whom was referred the petition of the People's Savings Bank for the cancellation of a sewer assessment, respectfully report that we have given the matter our most careful consideration and beg leave to state that the petitioners are the owners of Lots A, B and C of D. C. Holbrook's sub. of lot 1 N. of Fort street, P. C. 727, formerly described as a 130 feet of lot 1, P. C. 727, that on April 21, 1874 an assessment was made against the above described property for the construction of a sewer in Fort street, that by a decree of the Superior Court on March 21, 1877, said assessment was declared illegal and void, but that through an oversight the assessment was never cancelled upon the books of the City Treasurer in whose hands said assessment was at the time the decree was granted. That we are advised by the Corporation Counsel that there is no other course to pursue than to comply with the decree.

In view of these facts, your committee recommend that the City Treasurer be instructed to cancel said sale and we herewith offer the following resolution.

Respectfully submitted,
MAX C. KOCH,
J. J. HAARER,
WM. HILLGER.

Accepted and on leave the following resolution was offered:

By Ald. Koch:

Resolved, That the City Treasurer be and he is hereby authorized and instructed to cancel the sale against lots A, B and C of D. C. Holbrook's sub. of lot 1 N. of Fort street, P. C. 727, formerly described as a 130 feet of lot 1, P. C. 727, n. w. corner of Fort and Twenty-first streets, the same having been declared to be illegal and void by a decree of the Superior Court.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Bleil, Coots, Fischer, Grunow, Haarer, Hansposten, Hillger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Snow, Steiger, Weibel, Welter and the President—30.
Nays—None.

Taxes.

To the Honorable the Common Council:

Gentlemen: Your Committee on Taxes, to whom was referred the petition of Arthur T. Sloss for the refunding of a personal assessment, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is a widow and has been for a number of years past a resident of the village of Dearborn, Mich., that a personal assessment was made against him for the year 1898 in this city amounting to $14 and in the year 1899 amounting to $14.80, that notice of said assessment was sent to a resident of Detroit of similar name and was subsequently forwarded to him at the village of Dearborn where he resides, that upon the receipt of said notice of personal tax levied in Detroit said party that he was legally bound to pay the same came to the city and paid the items above referred to on the 2d of September, 1898, and 24th day of August, 1899, respectively, that your committee are informed that said assessment was illegal and void, that said petitioner is not a resident of this city.

In view of these facts we recommend that the petitioner be refunded the

Acepted, and on leave the following resolution was offered:

By Ald. Coots:

Resolved, That the quitclaim deed of Geo. B. Angell and wife to the City of Detroit of a certain piece or parcel of land, known and described as follows, to-wit: The westerly two feet of lot 10 in block 4 of Bela Hubbard's subdivision of part of private claim 78, south of Dix road and north of Fort street according to the plat thereof recorded in Liber 3 of Plats, page 49, be and the same is hereby accepted and the City Controller be and is hereby authorized and instructed to cause the same to be recorded in the office of the Register of Deeds, County of Wayne, Mich.

Adopted as follows:

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen: Your Committee on Ways and Means, to whom was referred the petition of Frederick Ebel in reference to the purchase of certain property located at the corner of Champlain street and Concord avenue, respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is about to purchase the south 33 feet of the north 158 feet of lot 3, Walker & Cooper's subdivision of private claim 572, L. Chapaton farm, north of Jefferson avenue, situated on the east side of Concord avenue, near Champlain street, that there is a strip of land 2.76 feet in width lying between said lot above described and the line of Champlain street, that he will not buy said lot unless he can acquire said strip from the city for it to whom it is practically useless, that there is a paving tax due for the paving of Champlain street, the original amount of which is $204.76, but which at the present time amounts to about $400 with interest and penalty added thereto; that in 1893 the Common Council directed the City Controller to deed to the owner of the adjoining lot the said strip upon the condition that he pay the original amount of the paving tax, but for some reason or another he failed to avail himself of this offer; that said action was never rescinded by the Council, but it still exists as it did at that time, but the Controller thought it best to have the present Council sanction the matter instead of acting under the former resolution, which is almost 8 years old.

After carefully considering all the facts as presented before your committee, we think it to be to the best interests of the City to deed to said Ebel said strip of land upon the payment of the original amount of said paving tax providing the contractor is willing to accept his share of said amount without penalty or interest, and we therefore recommend that such action be taken by the adoption of the following resolutions:

Respectfully submitted,
WALTER H. COOTS,
OSCAR B. MARX,
OLIVER H. GRUNOW,
WM. C. HOUGHTON,
JOHN WEIBEL.

Accepted, and on leave the following resolution was offered:

By Ald. Coots:

Resolved, That the City Treasurer be and he is hereby authorized and instructed to receive from Frederick Ebel the sum of $204.76, being the original amount of the paving tax for the paving of Champlain street, assessed against the north 2.76 feet of south 194.85 feet of lot 3, of Walker & Cooper's subdivision of lot 4, of A. T. Reynold's subdivision of private claim 572, L. Chapaton farm, north of Jefferson avenue, east side of Concord avenue.

Provided, The contractor files an agreement that he is willing to accept his share of said monies without penalty and interest up to the time that the same may be paid, and further

Resolved, That the City Controller be and he is hereby authorized and instructed to draw his warrant in favor of the City Treasurer for the sum of $28.64, being the amount of interest and charges due at the time said tax was sold to the city, and further,

Resolved, That the City Controller be and he is hereby authorized and instructed to execute to Frederick Ebel a quit claim deed of the strip of land known and described as follows, to-wit: The north 2.76 feet of the south 194.85 feet of lot 3 of Walker & Cooper's subdivision of lot 4, of A. T. Reynolds subdivision of private claim 572, L. Chapaton farm, north of Jefferson avenue, east side Concord avenue, for a consideration of $1.00, and upon presentation of the receipt showing that he has paid parts 1, 2, 3 and 4 for the paving of Champlain street, amounting to $204.76.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Biehl, Coots, Frucher, Grunow, Haarer, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGrew, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schneider, Snow, Stelger, Weibel, Weiler and the President -30.

To the Honorable the Common oCuncil:

Gentlemen — Your Committee on Taxes, to whom was referred the petition of C S Waite for the cancellation of certain general city taxes, respectfully report that we have carefully considered the matter and beg leave to report that the petitioner is the owner of a lot adjoining a strip of land 1 43 feet in width, situated on the southeast corner of Stanton and Kirby avenues that when the city ordered Kirby avenue opened it condemned 8 06 feet of a strip of land 7 49 feet in width for said opening, leaving a strip 1.43 feet in width that the owner of said strip refused to pay the taxes upon the same consequently it came into the possession of the city for the non payment of taxes for the years 1889 1890 and 1891 that the party owning lot adjoining on the south secured at that time this strip of 11 43 feet, on condition that he build a sidewalk, which cost him about $40 that a short time ago he purchased the lot adjoining said strip on the south and also said strip he giving the petitioner a warranty deed for both pieces that the taxes for said years are assessed against the entire strip of 7 49 feet amounting to $7 16 for 1889 $7 62 for 1890, and $7 34 for 1891 that your committee after due consideration came to the conclusion that it would be to the interest of the city to cancel said taxes

We therefore recommend that the City Treasurer be instructed to cancel the tax and assessment the above described strip of land 7 49 feet in width for the taxes of the years 1889 1890 and 1891 and we herewith offer the following resolution

Ordinances.

To the Honorable the Common Council

Your Committee on Ordinances to whom was referred the ordinance rela

tive to the carrying of light freight through the streets of the City of Detroit during the hours between 8 a m and 4 p m, respectfully report that we have given the matter our fullest investigation, and beg leave to report the following

The committee held a public meeting some weeks ago, which was well advertised at that time, for the purpose of giving the petitioners for said ordinance a hearing but that when the time arrived, there were no others present than the representatives of the suburban lines, and Mr Hutchins of the different lines operating within the city and a very few business men As was most natural to expect, the suburban representatives argued for the adoption of the ordinance explaining to the committee the benefits that would be derived by the business men of this city, citing in substantiation thereof the return of business from the neighboring suburbs and towns which heretofore went to Chicago and Toledo and the increased facilities for handling their goods should such an ordinance be granted When the business men present expressed their views, we found that there was quite a difference of opinion as to whether or not such an ordinance was a necessity, for the reason that it was cheaper and more expedient for the individual who shipped in small quantities, but a good deal more expensive for the firm or corporation that shipped in large quantities because the rates were considerable higher than those charged by the railroad companies

These same arguments were advanced at the meeting of the Merchants and Manufacturers' Exchange held some weeks ago to which your committee were invited The members of the Exchange were about equally divided as to the necessity Some of the members thought that the time allowed by the State law to carry this freight through the streets, was sufficient for present demands while others thought that the companies ought to be allowed to run a certain number of cars each day but that the city should receive a good liberal compensation for the allowance of such a privilege which was the opinion of your committee if an ordinance was granted at all by this Council

We feel that the innumerable difficulties and complications of street railway affairs at the present time are of sufficient magnitude to keep this Council busy without granting the Street Railway companies of this city any more rights or franchises

We believe that the right to carry freight between the hours of 8 p m and 4 p m is sufficient to meet the demands of all at the present time and therefore recommend that the ordinance offered at a session held Feb 13 1900 (C P 81), be indefinitely postponed and the resolution offered by Ald Smith at a session held Feb 20 1900 (C P 107) be adopted

COMMON COUNCIL

(OFFICIAL.)

Detroit, Tuesday, April 17, 1900

The Council was called to order by the President, the Honorable Robert Barrie.

Present—Ald. Atkinson, Beamer, Biell, Delmel, Fracher Grunow, Hanssloten, Hilliger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Merrell, Moeller, Peoples, Reinhardt, Schneider, Smith, Steiger, Wilhelm, Weiler, Wildman and the President.

There being a quorum present, the Council was declared to be in session.

The Journal of the last session was approved.

Third Reading of Ordinances.

Ald. Beamer moved to take from the table an ordinance laid over April 10, 1900, entitled "An Ordinance to amend an ordinance entitled 'An Ordinance to provide for the sprinkling with water of the tracks and road beds of the street railway companies of Detroit,'" which motion prevailed.

The ordinance was then placed on the order of third reading.

The ordinance was then referred to the Committee on Ordinances.

Unfinished Business.

Ald. Knauss moved to take from the table a report of committee on ordinances laid over April 10, 1900, in relation to an ordinance authorizing the carrying of light freight by street railways, also a resolution of Ald. Smith forbidding the same, which motion prevailed.

Ald. Knauss then moved that the ordinance be indefinitely postponed.

Ald. Joy moved that the matter be again laid on the table, which motion did not prevail, as follows:

Yeas—Ald. Beamer, Biell, Grunow, Hilliger, Joy, Koch, Koenig, McGraw, Steiger, Wildman and the President—11.

Nays—Ald. Atkinson, Delmel, Fracher, Hanssloten, Houghton, Knauss, Lemke, McGuire, Merrell, Moeller, Peoples, Reinhardt, Schneider, Smith, Wilhelm and Weiler—18.

The motion of Ald. Knauss then prevailed.

Ald. Koch was excused.

Ald. Knauss then moved the adoption of the resolution presented by Ald. Smith, Feb. 26, forbidding street railway companies, etc., from adding a suburban express business between the limits of Detroit and Highland Park, etc.

The following was offered as a substitute:

By Ald. Beamer.

Resolved, That the Corporation Counsel be and he is hereby instructed to commence the Detroit Citizens' Street Railway Company to prohibit the street car company from carrying freight.

Ald. Beamer moved the adoption of the substitute, the adoption of which was objected to and under the rules the resolution was laid on the table.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council

Gentlemen—In the matter of the suit of the Detroit Citizens Street Railway Company against the City of Detroit the Corporation Counsel and myself recently decided in the United States Court for the Eastern District of Michigan. I am most desirous that an appeal should be taken from the judgment of the court in order that the question raised may have adjudication, in a court of last resort. In respectfully urging an appeal in this case I would reiterate and reaffirm my convictions as heretofore expressed that the law when finally interpreted will be found to lie in the direction in which I have contended in messages heretofore presented to your honorable body and in accordance with the contention made by my counsel in the case. I repeat this conviction with all due respect for the learned judge of the United States Court, whose decision has been recently announced and who gave to the subject a most patient hearing and careful consideration. The question raised is one of too great importance to rest upon the opinion of any court less than that of highest authority for its decision is far-reaching in its results and cannot but affect legislation and the course of municipal procedure throughout all the future. In view of the fact that the questions raised involve constitutional interpretation, and, it is claimed, the integrity of an existing contract I am advised by counsel that the only court of review in such cases is the Supreme Court of the United States. It is to this court that I desire the case to go for final submission and I again announce that I will be responsible for the fees of counsel in the latter court and only ask that the ordinary expenses of printing and possibly the actual expense of travel to Washington and return, be assumed by the city. I would say in this connection, however that if the proposed allowance of this moderate expense is objected to, I will assume the expense and only ask of the Common Council that authority be given for an appeal of the whole case, and for the benefit of all parties defendant. I would further say that it is the purpose of my counsel to take the appeal at once and file the necessary papers in the Supreme Court following this movement up by a motion to the court that the case be placed upon the calendar at an early day in view of its public nature and the importance attaching to an early decision.

All of which is respectfully submitted,

WILLIAM C. MAYBURY,
Mayor.

Accepted and referred to the Committee on Judiciary.

Unfinished Business.

Unanimous consent being granted Ald. Smith moved to take from the table a resolution laid over April 10, 1899, instructing the Corporation Counsel to cause an appeal to be taken from decision of Judge Swan in case of Detroit Citizens Street Ry. Co. vs. City of Detroit, Charles F. Werp and William C. Maybury to the U. S. Court of appeals which motion prevailed.

The resolution was then again laid on the table.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—It is a matter of common fame that certain telephone companies enjoying privileges in the streets of our city under ordinances adopted by your honorable body have lately entered or effected a sale of the properties of one company to the other, thereby destroying competition and its public benefits, and creating a monopoly which may be most detrimental to the interests of our people.

I am not informed as to the nature of the compact or agreement between the companies mentioned nor am I prepared to say whether the bargain which they have made one with the other is helpful or hurtful to the interests of the people except so far as it is generally understood that the destruction of competition in any line of business is a menace to the best interests of the consumer. With my present purpose the question of benefit or injury has no special concern as my chief object is to call the attention of your honorable body to the consideration being effected between these companies and my insistence that no compact should be made between them which involves the use or misuse of a public franchise or a public right or the destruction of competition which was fairly involved in the concessions made to the respective companies without the people of Detroit through the Common Council being made aware of all the conditions of combination, and the beneficial results or evil consequences to follow such a step.

It is a plain proposition that no person corporation or company exercising a privilege conferred in the nature of a public license or grant and for certain specified public purposes can sell or otherwise divert or dispose of such privilege without the concurrence of that body from whence their privileges originated.

Section 14 of an ordinance, entitled An Ordinance granting to the Detroit Telephone Company, its successors and assigns permission and authority to construct operate and maintain lines of telephones and electric wires with the necessary conduits poles, wires and appurtenances in the City of Detroit, approved March 14, 1898, provides that "if the said company shall at any time during the term of this franchise transfer its rights to any other telephone company now operating in Detroit or make any consolidation with such company the company acquiring such rights of the consolidated company shall be subject to the terms and conditions of this ordinance as operating lines under this ordinance."

Whether it is the purpose of the combining companies to operate under the ordinance in question or whether it is for the best interests of the people that the combined companies should so operate as well as all other companies will in all affect the public welfare and convenience, should in my judgment be discussed by your honorable body to the end that you may adopt such procedure as the condition would seem to warrant. That public rights may be involved by this procedure is very great, as it is equally apparent that the Council as representing the people in such matters should be aware of any interests proposed to be waived by companies which seek to thereby [illegible] interests [illegible] injuriously affect the convenience of the

people as involved today in telephone service. It is, in my judgment, a matter of necessity, and surely a matter of prudence for your honorable body to take up this subject, and to appear in the relation of a third party, representing the body of the people giving their consent or protesting against the consequences of what may be now taking place. I therefore earnestly suggest that a special committee of your honorable body be appointed to make inquiries regarding the matters referred to, and to report the results of such inquiries to your honorable body at the earliest day possible with recommendations for such procedure as may seem to such committee meet and proper.

Respectfully submitted

From the Corporation Counsel.

To the Honorable the Common Council

Gentlemen—The case of Marissa Rice vs the City of Detroit is set for trial this week in the Circuit Court. This office is in receipt of a proposition from her attorneys in which she says he will accept for her $600 in settlement. A copy of said proposition is herewith transmitted.

The undersigned does not believe that the Common can recover such a sum as is asked, nevertheless he would advise that she be offered in settlement a small sum which would about cover the cost of trying the case even if we should win it but nothing more.

I also transmit a copy of the testimony taken before a former committee.

Very respectfully,
C D JOSLYN
Asst Corporation Counsel.

To the Honorable the Common Council:

Gentlemen In reply to a notice from this office the following proposals for paving, etc, were received

Cortland avenue (asphalt)—Repaving from the asphalt pavement of Woodward avenue to the asphalt pavement of S 32nd avenue 30 and 28 feet wide, with stone base and concrete foundation Medina curbstone

Estimated cost per square yard $1 91

John R street (brick) Repaving from the end of circle southeast of Cass street to the south line of Adelaide street, 28 feet wide, with brick on concrete foundation, Medina curbstone

Liphardt & Winterhalter . $12,961 32

Estimated cost per square yard, $1 90.

In submitting these bids for the repaving of John R street and Canfield avenue the Board of Public Works desires to say that the proposals for brick pavement were rejected on the ground that they were too high In regard to the asphalt, the bids of the Barber Asphalt Paving Co were accepted by unanimous vote of the Board for both John R street and Canfield avenue, on the ground that the lower bid of Archibald Grant designated a material which was not provided for in the Board's specifications The bid of Mr Grant was $2 18 per yard for Canfield avenue and $2 22 for John R street, that of the Barber Asphalt Paving Co, the next lowest, was $2 45 for Canfield avenue and $2 47 for John R street. The rejected bids for the same streets opened in February, at a figure much higher than that of the Barber Co of yesterday shows a determination on the part of the Board to try to give the people of Detroit a good asphalt at reasonable prices, and the Board's action at that time has been the means of bringing the price down below $2 50 per yard for repaving the amount fixed in the Board's estimates for the coming fiscal year

These two streets were in the bunch allowed for repaving by the Board of Estimates of 1899 and having hung fire since last spring, owing to the fact that bids have been too high property owners on both streets are now very anxious that the work should proceed as soon as the weather is suitable for paving operations

The customary resolution which the Board attaches to all contracts submitted to your honorable body is omitted in this case the Board believing that the council will do as it thinks best in the premises

Respectfully submitted,

J W MILLEN,
President.

Gentlemen—I have the honor to submit herewith copy of report made to the Superintendent of Police John Martin by Capt C C Starkweather relative to the running of cars by the Fort Wayne & Belle Isle Railway Co west of Clark avenue on River road and Fort street

Very respectfully,

J EDWARD DUPONT,
Secretary Metropolitan Police Commission

Accepted

The following is the report

John Martin, Esq, Superintendent of Police

Dear Sir—In compliance with your instructions as per request of Common Council I, on the 12th and 14th days of January, 1900, detailed Sperla Officers Favor and Thomas to take notes as to the running of cars on Fort Wayne & Belle Isle railway west of Clark avenue on River and Fort streets They were at that time running on 12 minutes time instead of six as per ordinance The facts were laid before Assistant George Palmer of the City Counselor's office on the 17th of January, 1900 Mr Palmer after consultation with Mr Flowers declined to take a complaint, saying that he thought the matter would be settled by mandamus, and in that way a final settlement would be reached much earlher than by taking the complaint I also on the 2d day of April 1900 detailed same officers to take notes as to time made on same streets, and we find that the regular schedule is 9 minutes and they average from 6½ to 9 minutes between cars on Fort street On River the half-hourly Wyandotte car makes them average a little less time between cars The ordinance was approved Jan 2 1900

Also that he has received the following

To the Honorable the Common Council

Gentlemen—The baseball season for the year 1900 will be opened by the American League in this city on Thursday afternoon the 19th inst. The opening game will be between the Detroit and the Buffalo league teams. It is hardly necessary to inform you that the game will be a good one each team being anxious, for more than necromantic reasons to score the initial victory.

The new management of the Detroit Baseball Club are anxious that the opening of the season in our beautiful city should be as auspicious as possible. To that end we desire that the administrators of the municipality should be our honored guests on this occasion. We therefore extend to your honorable body an invitation to be present at the opening game and to participate in the procession which will occur just prior thereto. If you will kindly inform us the number of your honorable body who will attend, we shall take pleasure in providing carriages for you at the City Hall at 1:30 o'clock Thursday afternoon.

Trusting that you may find it convenient to accept, we have to honor to be,

Very sincerely yours,

THE DETROIT BASEBALL CLUB

JAMES D BURNS

President

Accepted and leave being granted the following resolution was offered

By Ald Schneider.

Resolved That we accept the very kind invitation and attend in a body as per request and extend our best wishes to the new and enterprising baseball managers, Burns and Shanks, as they will certainly finish close to the top in the pennant race.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—I respectfully report that I have been served on behalf of the City of Detroit with a copy of subpoena issued out of the Circuit Court for the County of Wayne in Chancery, in a cause pending therein wherein Edward W. Volgt is complainant and the City of Detroit and James Grant are defendants.

I have referred the same to the Corporation Counsel.

Very respectfully,
JOHN A. SCHMID,
City Clerk.

Accepted and placed on file.

Special.

To the Honorable the Common Council.

Gentlemen Your Committee on Ways and Means and Taxes to whom was referred the petition of Henry Haigh for the acceptance of a deed and the refunding of certain taxes respectfully report that we have carefully considered the matter, and beg leave to state that on Sept 18, 1895 the petitioner caused to be filed in the Register of Deeds office a plat of certain property extending from Woodward avenue to Oakland avenue, known as 'Haigh's subdivision of lot 8 of the subdivision of quarter section 44 10 000 acre tract, that upon the advice of the agents of the petitioner, the 20-foot alley extending from Haigh avenue southerly in rear of the two lots on the southeast corner of Woodward and Haigh avenues also the 10-foot alley extending from the rear of said Woodward avenue lots easterly to Brush street platted as lot "" also the extension of said alley lot "C" from Brush street to Oakland avenue on the south line of said tract designated as 'private alley' also the alley beginning 696 49 feet easterly from Woodward avenue on the north line of said plat designated as lot "B" also said alley, lot "B extending from Brush street to Oakland avenue designated as "private alley" were not dedicated to the City of Detroit that on April 29, 1895, the petitioner together with his wife, executed a deed of said five alleys hereinbefore described to the City of Detroit and on April 30, 1895, filed the same with the City Controller supposing that that was all the action that was necessary on his part, but in reality said deed has never been accepted by the city, that he first noticed that said deed was not accepted on March 10 1900, when he had an abstract of said plat prepared and certified down to said date by C M Burton which showed that the deed above referred to was not accepted and recorded, hence said alleys were sold to the City of Detroit for 99 years for the taxes thereon for 1895, 1896, 1897 and 1898, that the taxes for 1899 also remain unpaid that the taxes upon said alleys, which were paid by your petitioner in order to negotiate a mortgage loan upon the rear portion of the said lots, amount to $226.35, being divided as follows 95 38 97 and 98 for which years said land was sold to the City, $130 99 and for 1899 $95 36

In view of the above facts your committee recommend that the petitioner be refunded the amount of taxes paid by him and the Controller be instructed to issue the draft which is certified to by the City Engineer as being correct in description and by the Corporation Counsel as being correct in form and execution and title satisfactory, to be paid on the office of the Register of Deeds and we herewith offer the following resolution

COMMON COUNCIL

(ADJOURNED—OFFICIAL.)

Detroit, Wednesday, April 18, 1900.

Pursuant to adjournment the Council met and was called to order by the President, the Honorable Robert Burtie.

Present—Ald. Beamer, Bleil, Grunow, Hansjosten, Hilliger, Houghton, Joy, Koch, Koenig, Lemke, McGraw, McGuire, Merrell, Moeller, Smith, Steager, Webel, Weiler, Wildman and the President.

There being a quorum present, the Council was declared to be in session.

Petition Presented.

BY THE CLERK.

Of D. A. MacLachlan, asking relief from a personal tax.

Referred to Committee on Taxes.

REPORTS OF COMMITTEES.

Judiciary.

To the Honorable, the Common Council:

Gentlemen—Your Committee on Judiciary to whom was referred the resolution of Ald. McGraw relative to the borrowing of money from the liquor license fund for the purpose of paying awards in the matter of opening the alley in the block bounded by Gratiot, Brush, Boughton and Mechanic streets respectfully report that we have carefully considered the same and recommend inasmuch as the Supreme Court decision in the Second avenue case has been decided in favor of the City that the resolution as offered by Ald. McGraw at a session held Feb. 13th, 1900, (C. P. 90), be adopted.

Respectfully submitted,

FRED W. SMITH,
ALPHIA C. PEOPLES.

Accepted.

Ald. Smith then moved the adoption of the resolution, which motion prevailed as follows:

Yeas—Ald. Beamer, Bleil, Grunow, Hansjosten, Hilliger, Houghton, Joy, Koch, Koenig, Lemke, McGraw, McGuire, Merrell, Moeller, Smith, Steager, Webel, Weiler, Wildman and the President—20.

Nays—None.

Ald. Fruehauf entered and took his seat.

Public Buildings.

To the Honorable the Common Council:

Gentlemen—Your Committee on Public Buildings, to whom was referred the communication from the Board of Public Works relative to the furnishing of cable for the City Hall elevators, respectfully report that we have carefully considered the matter, and beg leave to state that we can see no reason why the bid of J. T. Wing & Co. should not be accepted. The Gardiner Co. did not submit any samples at the time the bids were opened and the Board of Public Works together with the Engineer, could not tell whether the cable they were going to furnish was the flattened strand style or some other style. Your committee believe that J. T. Wing & Co. are entitled to the contract which the board has entered into, and therefore recommend that the resolution offered by Ald. Hansjosten at a session held April 17th, confirming the contract with Wing & Co., be adopted.

Respectfully submitted,

JOS. H. HANSJOSTEN,
WM. KOENIG.

Accepted.

Ald. Hansjosten then moved the adoption of the resolution.

The following was offered as a substitute:

By Ald. McGraw:

Resolved, That the Board of Public Works be and they are hereby authorized to enter into a contract for the cables for the elevators in the City Hall, after properly advertising for bids, without further action of this body.

Ald. McGraw moved the adoption of the substitute, which motion did not prevail. The adoption of the resolution was then objected to, and laid on the table.

Streets.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets to whom was referred the communication from the Board of Public Works submitting Obispo, Kentucky Rock and Assyrian Asphalt Specifications, respectfully report that we have carefully considered the same and recommend that the specifications as submitted be approved.

Respectfully submitted,

WM. F. MOELLER,
JOSEPH MERRELL.

Accepted.

Ald. Beamer moved that the clause requiring samples to be submitted be stricken out of the specifications, which motion prevailed.

The specifications as amended were then adopted.

Ald. Tossy entered and took his seat.

Reconsideration.

Unanimous consent being granted, Ald. Beamer moved to reconsider the vote whereby the aforementioned specifications were adopted.

Ald. Grunow moved that the motion of Ald. Beamer be laid on the table, which motion prevailed.

SAME.

Unanimous consent being granted, Ald. Beamer moved that the vote whereby a resolution of Ald. Moeller was adopted on the 17th inst., directing the Board of Public Works to readvertise for proposals for repaving John R. street and Canfield avenue with sheet asphalt, be reconsidered.

Ald. Grunow moved that the motion of Ald. Beamer be laid on the table, which motion prevailed.

COMMUNICATION.

From the Board of Public Works.

To the Honorable the Common Council:

Gentlemen—Believing that the furnishing of a sample of asphalt is unnecessary, and that the clause has been

stricken from the specifications covering Kentucky Rock, Assyrian and Obispo, the board requests that the specifications covering Trinidad Lake, Alcatraz and Bermudez be so amended as to strike out the section calling for the filing of samples in the office of the Board of Public Works.

Respectfully,
J. W. MILLEN
President.

Accepted, and leave being granted, the following resolution was offered

By Ald. Moeller.

Resolved, That the paving specifications for Trinidad Lake, Alcatraz and Bermudez asphalt be so amended as to strike out the paragraph calling for samples to be filed in the office of the Board of Public Works.

Adopted.

Resolution.

By Ald. Koenig

Resolved, That the Board of Public Works be and is hereby requested to close the elevators in the City Hall until such time as the Insurance Company pronounces the same in a safe and satisfactory condition to be used.

Ald. Koenig moved the adoption of the resolution which motion did not prevail.

The Council then adjourned

ROBERT BARRIE,
President.

SECOND AVE. STREET OPENING NOTICE.

Assessments for opening of Second Avenue are payable at Receiver of Taxes Office, without penalty or interest, on or before May 1st, 1900. Thereafter 5 per cent penalty will be added and interest at 7 per cent per annum from confirmation of said assessment roll.

THOS. M. LUCKING,
Receiver of Taxes.

BOARD OF PUBLIC WORKS.

Detroit, April 5, 1900

PATCHING ASPHALT PAVEMENT.

Sealed proposals will be received at this office until Wednesday, April 11, 1900, at 11 o'clock a. m. local time, at which time they will be opened for furnishing all the labor and material and patching five hundred square yards more or less of asphalt pavement, wherever said repairs may be required and so ordered by the Board of Public Works.

The measurement of the City Engineer will be conclusive evidence of the amount of work completed.

The bidder whose bid is accepted will be required to furnish with his contract an approved bond to the City of Detroit in the sum of 25 per cent of the contract price for the work conditioned on the full and faithful performance on his part of the contract.

No bids will be accepted from any person or firm who is in default to the City of Detroit upon debt or contract, or who is in default as surety or otherwise, upon any obligation to said City.

Printed specifications may be had at the office where the above work are on file at the office of the Board, and copies thereof may be had on application at the Secretary's office.

The Board of Public Works expressly reserves the right to reject any or all proposals.

J. W. MILLEN
President Board of Public Works.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council

Gentlemen—Admiral Dewey has fixed June 7 as the date for his arrival in Detroit.

As the admiral is to be the guest of the City of Detroit and the Fellowcraft Club jointly I have thought best to suggest to your honorable body that a special committee of the Common Council be appointed to act with a similar committee to be appointed by the Fellowcraft Club to make arrangements for the reception and entertainment of the Admiral and Mrs Dewey.

I would therefore suggest that the committee be appointed immediately so that no time may be lost in making all preliminary arrangements.

I am informed by Mr [illegible] the president of the Fellowcraft Club that a similar committee will be appointed at their meeting with the special committee of the Council.

Respectfully submitted,

ROBERT BARRIE,
Acting Mayor.

Accepted, and on motion of Ald. Haarer the President was requested to appoint a special committee of five in relation thereto.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen:—Your Committee on Claims and Accounts, to whom was referred the petition of A. Anderson asking that a certain check now held by the Board of Public Works be delivered to him, respectfully report that we have carefully considered the matter and beg leave to state that we are informed by the Corporation Counsel that from the evidence presented it appears that Archibald Grant entered into a contract with the City of Detroit to pave River street, and he in turn sublet a portion of the work to the petitioner. Subsequently a certain Wm. Lacy drove or fell into an excavation made by the petitioner and which had been left unguarded by him and recovered a judgment for $1,600 against the city. Suit has been brought against said Grant to recover back the amount paid on said judgment. The check in question was issued by Mr. Grant and the Corporation Counsel is of the opinion that the issuer is the only one who can claim it. If any one but under the circumstances he advises that the check be withheld from Mr. Grant pending determination of the present suit against him.

As between the City and Mr. Anderson, he advises the opinion that he does not think that there is any liability in the matter and therefore recommends that petition be denied which recommendation is concurred in by your Committee.

Respectfully submitted,

JOHN C. BLEIL,
EDWARD WILDMAN,
RICHARD P. JOY,
BASIL A. LEMKE,
M. W. McGUIRE.

Judiciary.

To the Honorable the Common Council:

Gentlemen:—Your Committee on Judiciary to whom was referred the communication of Emil Heilbronner, the Mayor, relative to the appointment of the trustees of the Detroit House of Correction, beg leave to report that we have carefully considered the matter and believe that the appointment of a special committee composed of the Committees on Ordinances and Judiciary to act in conjunction with the Mayor in the appointment of the trustees of the House of Correction would be the best method of procedure.

We therefore recommend that this matter be referred to a committee of three, consisting of the Committees on Ordinances and Judiciary.

Respectfully submitted,

JOHN C. BLEIL,

Streets.

To the Honorable the Common Council:

Gentlemen:—Your Committee on Streets, to whom was referred the petition of Park Hill Land Co., Ltd., for permission to erect an ornamental entrance to Boston Boulevard at the intersection of Woodward avenue, respectfully report that we have carefully considered the matter and beg leave to state that the petitioners are the owners of all the abutting property and that upon which the gateway is to be erected, that we believe that the permission asked for should be granted for the reason that it will be an improvement to the city and which will be constructed entirely at the expense of said Land Company. We therefore recommend that the request be granted and herewith offer the following resolution.

Respectfully submitted,

WM. F. MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted, and on leave the following resolution was offered.

By Ald. Moeller:

Resolved, That permission be and is hereby granted to the Park Hill Land Co., Ltd., to erect an ornamental entrance or gateway on Boston Boulevard at the intersection of Woodward avenue, provided said work shall be done under the supervision of the Board of Public Works and in accordance with plans submitted to and approved by said Board.

Provided, That no rights in the street shall be considered waived by the permission which is granted expressly on the condition that said entrance or gateway and all obstructions in connection therewith shall be removed at any time when so directed by the Common Council.

Adopted as follows:

Sewers.

To the Honorable the Common Council:

Gentlemen Your Committee on Sewers to whom was referred the petition of Jos Kosmalski asking for relief from the payment of a sewer tax respectfully report that we have carefully considered the matter, and beg leave to state that we are advised by the Corporation Counsel that assessments for lateral sewers do not depend upon the frontage of a lot, but upon the area drained

The petitioner further avers that the sewer does not run the full width of his lot and that on account of such he does not think that he should pay as much as those who have the sewer running the entire distance This is explained by the fact that in this particular case it was unnecessary to build it that way, on account of it being a "T" sewer and the running of said sewer up to the end of his lot line would just entail additional expense Sewers are constructed in this way in innumerable instances and give just as much satisfaction as if built otherwise In view of these facts we recommend that the prayer of the petitioner be denied

FROM THE SAME.

To the Honorable the Common oCuncil

Gentlemen: Your Committee on Taxes, to whom was referred the petition of Albert A Moca for the refunding of an erroneous tax respectfully report that we have carefully considered the matter and beg leave to state that the petitioner is the owner of the N 30 feet of lot 6 etc, east side Vinewood avenue that said lot through a clerical error in transferring the figures from the old book to the tax books, was assessed the sum of $750 whereas the old book shows that he should only be assessed the sum of $490.00 We therefore recommend that he be refunded the taxes upon the difference in value and we herewith offer the following resolution

FROM THE SAME

To the Honorable the Common Council

Gentlemen: Your Committee on Taxes to whom was referred the resolution of Ald Weibel relative to the matter of refunding Sarah A Kean the general taxes without pen-

Fort street west respectfully report that we have carefully considered the matter and find that the petitioner is the owner of fractional lot 5 block 19 and east 9 feet of lot 6, block 19 Baker farm, south side Fort street that the general city taxes for the years 1893 to '99 inclusive remain unpaid which occurred by reason of your petitioner feeling that said property was assessed too high in accordance with its valuation, which has been greatly depreciated since the erection of the Union Depot Station, as said property has been ruined entirely for residence purposes. After carefully considering all the facts presented before your committee we feel that although she should have appeared before the Board of Review at that time and had the assessed valuation reduced that an injustice has been done her and would therefore recommend that she be allowed to pay the amount of the original taxes due thereon, together with 6 per cent interest accrued thereto which amounts to $81.1 being divided as follows General city taxes for 1893 to 1899 inclusive $75.70 and interest thereon $5.42 and we herewith offer the following resolution

Respectfully submitted,

Special.

To the Honorable the Common Council:

Gentlemen—Your Special Committee on Streets and Franchises, to whom was referred the communication from the Board of Public Works relative to the matter of paving Mack avenue, from Baldwin avenue to the city limits respectfully report that we have carefully considered the matter and beg leave to state that the representative of the Street Railway Co., when asked whether or not the company would be willing to lay a double track on Mack avenue from its present terminus to the city limits, stated before your committee that a double track was unnecessary and undoubtedly would be for some years to come, as the traffic upon that line is very light. In view of this we recommend that the aforesaid street be paved 26 feet wide, less single track, from Crane avenue to Maxwell avenue, with cedar block on concrete foundation, and we herewith offer the following resolution.

AN ORDINANCE to amend Chapter 104 of the Revised Ordinances of 1895.

It is hereby ordained by the People of the City of Detroit:

Section 1. That Chapter 104 of the Revised Ordinances of 1895 be and the same is hereby amended so as to read as follows:

Section 1. No person shall sell or deliver any coal or coke within the limits of the City of Detroit unless there shall be delivered to the person in charge of the wagon or conveyance used in delivering such coal or coke a certificate duly signed by the person selling the same, and showing the weight of the coal or coke purporting to be delivered, the weight of the wagon or conveyance used in such delivery, the total weight of coal or coke and conveyance, and the name of the purchaser.

Sec. 2. No person in charge of the wagon or conveyance used in delivering coal or coke to whom the certificate mentioned in section 1 has been delivered shall neglect or refuse upon demand to deliver such certificate to the sealer of weights and measures of said city, or to his assistant or to any person designated by them or to the purchaser of the coke or coal being delivered, and when said officers, person so designated or such purchaser shall demand that the weight shown by such certificate be verified, it shall be the duty of the person delivering such coal or coke to convey the same forthwith to some public scale of the city or to any private scale in the city where the owner thereof shall consent to such use and to permit the verifying of the weight shown, and shall after the delivery of such coal or coke return forthwith the wagon or conveyance used to the same scale and verify the weight of such wagon or conveyance.

Sec. 3. It shall be the duty of the sealer of weights and measures of the city to inspect or cause to be thoroughly inspected and test the weight of coal and coke sold or delivered as aforesaid within the limits of the city of Detroit, and to take necessary proceedings to enforce the provisions of this ordinance.

Sec. 4. Any violation of or neglect or refusal to comply with the provisions of this ordinance and any person who shall deliver or attempt to deliver coal or coke of less weight than that purporting to be delivered by the certificate mentioned in sec. 1, shall be punished with a fine of not exceeding one hundred dollars and costs of prosecution and in the imposition of any fine and costs the court may make a further sentence that the offender be imprisoned in the House of Correction until the payment thereof provided that the term of such imprisonment shall not exceed the term of six months.

Sec. 2. This ordinance shall take immediate effect.

Approved April 3, 1900.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council:

Gentlemen—I herewith return without my approval, that portion of the proceedings of your honorable body adopted at the last session wherein a plan was submitted for the erection of a suitable base or stand for the cannon loaned to the city by the United States government My purpose in withholding approval of this portion of your proceedings is that an opportunity may be afforded to your honorable body to consider the question of adopting the plan of marine mounting specified. The fact that the cannon in question came to us from its mountings on board of the destroyed cruiser Vizcaya, and that it is practically a marine trophy has created in the minds of many a desire to see it mounted somewhat after the manner of its mounting upon shipboard It would certainly seem that under the circumstances such mounting would be most appropriate and that the base or mounting proposed would not be consistent with the history, or, possibly with the model of the cannon itself

My attention has been called to this matter by citizens interested, and who believe that we should cause the mounting of this cannon to correspond with its history and with its surroundings

I do not desire to utter one word of criticism upon the very beautiful design or base prepared by Col Kalman **unanimously adopted by your honorable body** but I deem the point made regarding the nature of the mounting, **well worthy of your further consideration** and for this reason only to oppose my objection It is also to be borne in mind that a short delay will not interfere with this matter in any way, as there is abundance of time to prepare either mounting that may be adopted for its dedication on the Fourth of July ensuing

I therefore most respectfully ask your honorable body to reconsider this matter and allow the parties who appeared before me to submit their views as well as designs for your further consideration

I am also influenced in my action by the fact that it is believed that the question of cost of marine mounting will not exceed the amount of the appropriation as already made for this purpose

Respectfully submitted

WILLIAM C. MAYBURY
Mayor

Accepted and on motion of Ald. Beamer the vote by which the report was adopted was reconsidered as follows:

Yeas—Ald Beamer, Bleil, Coots Grunow, Haarer Hansjosten, Hilger, Houghton, Joy, Knauss Koch, Koenig Lemke, McGraw, McGuire Marx Merren, Miller, Moeller, Reinhardt, Smith, Snow Steiger Weibel, Wildman and the President—26.

Nays—None.

The report and communication was then referred to the Committee on Public Buildings.

Ald. Schneider entered and took his seat.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—I respectfully nominate and request your honorable body to appoint, Mr. Otto Scherer a member of the Board of Poor Commissioners, for the unexpired term of the late Louis H Beck, deceased, the term of this appointment to expire on the 30th of June, ensuing.

Respectfully submitted,

Accepted and referred to the Committee on Claims and Accounts

FROM THE SAME

To the Honorable the Common Council

Gentlemen: The question of some legal and definite manner of handling the

matter of the assessments on property taken for street opening purposes seems to require some action of your honorable body

The property taken for street opening purposes is assessed against the original owner even after the benefit or damage award is made until such time as the awards are settled by the city. The result is that the original owner, who still has the use of the land, in some instances, at least, either neglects or refuses to pay these taxes. The property in the course of business is sold for the taxes, and in time a tax title matures on the property.

Then again the city bids in a part or the whole of certain taxes and under present forms an effort is made to clear the title by the cancellation of the tax and under the present plan of the city so far as state and county taxes are concerned seems to be unsatisfactory.

County Treasurer Buhrer handed me the following letter from the Auditor General's department this morning.

Wayne County Treasurer, Detroit, Mich.:

"Dear Sir: Referring to your letter of April 14th inclosing certificate on blank No. 47, relative to assessment on part of Glynn Court for taxes of 1896, which was deeded to the City of Detroit and accepted for street purposes on July 6th 1896, I do not find that certificate made by you is sufficient authority for the cancellation of this tax.

"This is the same proposition that has been before the office several times recently, you will remember, in the site for county building, and in each instance the Auditor has refused to cancel.

"Very truly yours,
"JOHN F. WILKINSON
"Deputy Auditor General."

I also call attention to two public alleys in Porter's subdivision of north half of outlot 72, and southerly 78 feet of outlot 23. (See plat in my office and letter from the Board of Public Works after investigating the facts in this case.)

I recommend that this communication be referred to the Committee on Street Openings, and that they request a conference with the County Treasurer, Mr. Buhrer, as he is familiar with the whole subject.

Respectfully,
F. A. BLADES,
Controller.

Accepted and referred to a special committee to be appointed.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—As you are aware in 1897 there was an amendment made to the City Charter on the subject of laying water mains by the Board of Water Commissioners and provision made in section 78 for submitting the "Estimated cost thereof," and also in the same section the following language: "When the work of laying and constructing such pipes and mains is fully completed and performed, the said commissioners shall report the completion thereof to the Common Council and shall at the same time report the cost thereof."

Subsequently it is provided that "The sums reported as aforesaid shall be levied and collected by the same officers that levy and collect assessments for the construction and building of lateral sewers, and in such manner as the common council may by ordinance prescribe." And further in the section: "The moneys received from collection of said assessments and the sale of lands therefor shall be credited to the funds of said Board of Water Commissioners and paid over in the same manner as other moneys belonging to them."

I find on looking over the assessment roll that the city has paid for advertising the rolls for the laying of these water pipes the sum of $[illegible]. I sent the Board of Water Commissioners a bill for this amount and they declined to pay it. I submitted the question to the Corporation Counsel and his opinion is that the city cannot enforce the claim.

I also call your attention to the fact that the city has paid for advertising delinquent taxes on these rolls 458 subscriptions at 42 cents each $[illegible]. This amount is charged up to the properties. The city pays the printer his bill, but when the money is collected it is under the present ruling turned over to the Water Board.

It is not so much the amount of money involved now as it is a question for the future, which under the law would amount to a good deal of money.

If the Common Council can remedy these apparent defects it is well and good. I think it ought to be referred to the Committee on Charter and City Legislation.

The ordinance to carry out the provisions of the law was approved February 8, 1895.

I recommend that this communication be referred to the Committee on Ways and Means.

Respectfully,
F. A. BLADES,
Controller.

Accepted and recommendations concurred in.

From the Board of Public Works.

To the Honorable the Common Council:

Gentlemen: The Board of Public Works, to whom was referred the resolution, on asking consideration of the matter of paving Mack avenue from Crane to Maxwell, under the charter clause permitting $200,000 worth of paving to be contracted for in any one year without the consent of abutting property owners, respectfully recommend that Mack avenue within the limits stated be paved with cedar blocks on concrete foundation under the clause of the charter referred to.

It is estimated that this improvement will cost as follows:

Mack avenue from east curb line of Crane on the south to the east line of Maxwell	$10,300 00

Respectfully submitted,

J. W. MILLEN,
MARSHALL H. GODFREY.

Accepted and by unanimous consent, Ald. Moeller offered the following:

Resolved, That Mack avenue be and the same is hereby ordered to be graded and paved from Crane avenue to Maxwell avenue, and that said avenue within said limits be paved with cedar blocks on concrete foundation, 36 feet wide, less single track Medina curbstone, according to the specifications adopted by the Common Council and the estimates of the City Engineer, and it is hereby declared that this action is had under that clause of the City Charter authorizing the Common Council to annually enter into contracts for the grading, paving, etc., of streets, alleys and public places the cost of which will not exceed in the aggregate $200,000, without the petition of the holders of the larger portion of the real estate directly abutting upon the portions of the street or alley proposed to be improved.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and curbing Mack avenue from the east curb line of Crane avenue on the south to the east line of Maxwell the lots and parcels of real estate situated on said avenue embraced within said limits and fronting the portion of said avenue ordered to be improved by said grading, paving, etc., shall be, and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be and is hereby ordered and directed to ascertain and report to both the City Assessor and Board of Public Works, according to the form and the ordinance in such case made and provided, the quantities of work and materials required for grading and paving said avenue within said limits as follows:

1. The quantity of all grading, paving, curbing and other work in said avenue within said limits, excepting the said portions of said street and alleys forming the intersections of cross streets and alleys.

2. The quantity of all grading, pa-

within the lines of intersection of the cross streets and alleys with said avenue

3 The quantity of all crosswalks at each intersection of said avenue with the cross streets and alleys

Resolved That as soon as the Board shall receive the report of the City Engineer showing the quantity of the grading, paving, curbing, crosswalks, material and other work required as above provided on said avenue said Board shall and is hereby ordered and directed to advertise five times for proposals for grading paving, crosswalks, curbing and materials and improving said avenue in accordance with the resolutions and proceedings above provided, and the provisions of the Charter and Ordinances of the City of Detroit.

Adopted as follows:

Yeas—Ald Beamer, Biehl, Coots, Fischer, Grunow, Hauser, Hansjosten, Heger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Merrell, Miller, Moeller, Reinhardt, Schneider, Smith, Snow, Steiger, Weibel, Willman and the President 28.

Nays—None.

FROM THE SAME

To the Honorable the Common Council

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Anton Schneller for the refunding of certain taxes, respectfully report that we have carefully considered the matter, and beg leave to state that the petitioner is the owner of the south 131 feet of lot 9 of the subdivision of the estate of P. Trudel, being lot 3 of the subdivision of private claim 228, known as the Lafferty farm, north side of Lafayette avenue, that he has been assessed upon the south 131 feet of said lot 9 since 1891, when he purchased said lot, but that upon investigation we find that a division has been made whereby a certain Hurlbut obtained the rear 20 feet of said lot which lies directly in line of the alley, which division was not brought to the attention of the Board of Assessors, that said parcel of property is only assessed at a valuation of $1,600, which is below the assessed valuation of other property in the immediate neighborhood, that although the description under which he is and has been assessed covered 20 feet more property than he owned we desire to state upon information given this committee by a member of the Board of Assessors that the assessed valuation upon 131 feet would be just as great if not upon a depth of 111 feet, which is accounted for by the fact that 131 feet with an alley is worth just as much as 151 feet without an alley. Your committee in conclusion desire to say that we have given the matter our most thorough consideration and investigation and feel that the petitioner has not been unjustly assessed upon his property and therefore recommend that the prayer of the petitioner be denied.

To the Honorable the Common Council

Gentlemen—Your Committee on Street Openings, to whom was referred

the petition of Thomas Campau & Son for the vacation of a certain plat and the acceptance of a new plat in place thereof respectfully report that we have carefully considered the matter and beg leave to state that the plat desired to be vacated is that of the property in the block bounded by Sixteenth and Seventeenth streets and Warren, Hancock and Grand River avenues; that said vacation is desired for the reason that the lots are cut up to such an extent that the Board of Assessors find much difficulty in placing a proper assessed valuation thereon, that it will be to the best interests of the city to vacate the present plat and accept the new one in place thereof. We therefore recommend that the plat now on record be vacated and the new plat of said property be accepted, and we herewith offer the following resolution.

Respectfully submitted,
HOMER M'GRAW
JOHN J. STEIGER
LOUIS F. FRACHER.

Accepted, and on leave the following resolution was offered

By Ald McGraw:

Resolved, That the plat of all that portion of the block bounded by Sixteenth and Seventeenth streets and Hancock, Warren and Grand River avenues, which lies northerly of the northerly line of the alley lying north of Hancock avenue, and said line of said alley extending to the easterly line of the alley west of Sixteenth street, and also northerly of the southerly line of lot No. 600 on the westerly side of Sixteenth street being lot 859 and lots 845 to 851 both inclusive, of Stanton's sub. of that part of private claim 473 as recorded in liber 10 at page 16 (of plats) and lots 600 601 602 653 654, 655, 656 and 657 of the sub. of that part of private claim 44, as recorded in liber 38 page 2 (of deeds) and alleys lying adjacent to and in the rear of said lots be and the same is hereby vacated and further

Resolved, That the plat of the above described property offered in place thereof be and the same is hereby accepted and the Board of Public Works be and is hereby authorized to sign and approve said plat and change the plan of the city in accordance therewith.

Laid on the table.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council:

Gentlemen—By a recent order of the War Department, the Battalion of the Seventh United States Infantry recently stationed at Fort Wayne, has been ordered to the Pacific coast, to be succeeded by a battalion of the Fourteenth United States Infantry, recently returned from active service in the Philippines

The Fourteenth regiment has made a gallant record both in Cuba and in the Philippines and this battalion returns to the United States for a well-earned rest and recuperation A number of citizens of Detroit including members of the Loyal Legion, the Grand Army of the Republic, and local militia companies have expressed a desire to tender these gallant regulars a reception upon their arrival in Detroit The Loyal Legion has already appointed a committee with whom I have consulted with regard to the nature of this reception but I have thought it best to communicate with your honorable body, and suggest that this welcome should be made more official and ask that your honorable body appoint a committee to co operate with the committee of citizens already appointed in making this a most hearty welcome

I am now in communication with military authorities at Kansas City and expect to be able to state, definitely, when the troops will arrive in Detroit It will be necessary however to take immediate action as the date of their arrival will not be later than Thursday or Friday

Respectfully submitted,
WILLIAM C. MAYBURY,
Mayor.

Accepted and leave being granted, the following resolution was offered: By Ald Beamer

Resolved That the President of the Common Council appoint three members of the Council to serve with the Mayor and a committee of citizens as a committee on arrangements for the reception of the battalion of the Fourteenth United States Infantry now on its way to be stationed at Fort Wayne

Adopted

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I hereby nominate and respectfully request your honorable body to appoint Darius D. Thorp to succeed himself as a member of the Board of Water Commissioners for the full term of five years, commencing May 1, 1900

Respectfully submitted
WILLIAM C MAYBURY.
Mayor

Accepted and laid on the table

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I have the honor to transmit herewith a letter from Admiral Dewey in response to the invitation sent by your honorable committee and myself. The letter spaks for itself, and I would suggest that the same be referred to the special committee having this matter in charge

Respectfully submitted,
WILLIAM C MAYBURY
Mayor

Accepted The following is the letter referred to:

Hon William C Maybury, Mayor, Detroit, Mich.

Dear Sir—I have the honor to acknowledge the receipt of your very cordial letter of the 3d instant renewing the invitation extended last fall to Mrs Dewey and myself to visit Detroit as the guests of the city Please accept our thanks for the courtesy, which I assure you is greatly appreciated.

It will give us pleasure to accept your invitation, and as you have left to me the selection of the date I will say that we will arrive in Detroit on the afternoon of Friday June 8th, and remain over the following day, leaving the city on Sunday

Again extending to yourself and the committee hearty thanks, I am

Very truly yours,
GEORGE DEWEY.

F. A. BLADES,
Controller

Accepted and referred to the Committee on Claims and Accounts

FROM THE SAME.

To the Honorable the Common Council

Gentlemen—The condition of the Fourth ward District Fund requires from me a statement of its condition to you.

The cash balance in the fund May 8, 1900 is $348 96. There are bills and pay rolls in my office for audit amounting in all to $772 96. If they were all audited and passed by your honorable body the Fourth ward District Fund would be overdrawn $424.01 I have held from audit and refused to send to the Common Council, two pay rolls amounting to $429 51, leaving a balance of $4 50 in the fund.

Respectfully,
F. A. BLADES
Controller

Accepted, and leave being granted the following resolution was offered, By Ald Mayhew

Resolved, That the City Controller be and he is hereby directed to place to the credit of the Fourth ward Road District Fund the sum of $1,000, said sum to be taken from the House of Correction account; and be it further

Resolved, That the City Controller be and he is hereby directed to return to the House of Correction account from said road fund the sum hereinbefore advanced as soon after July 1, 1900, as the money shall be available in said road fund.

Adopted as follows

Yeas—Ald Atkinson, Beamer, Brett, Coots, Grunow, Haarer, Hanejosten, Heger, Houghton, Joy, Krauss, Koch, Koenig, Lemke, McGraw, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Peoples, Reinhardt, Schroeder, Smith, Snow, Stelkar, Weibe, Weiler, Willman and the President—21.

Nays—None

From the Corporation Counsel.

To the Honorable the Common Council

Gentlemen—The case of E. W. Voigt vs. the City of Detroit has been decided by the supreme court in favor of the city.

It will be remembered that the bill of complaint in this case asked the court to restrain the Common Council from levying a special assessment for benefits

to property from opening or establishing a public highway. The particular matter involved was the assessment roll to pay the benefit derived from opening Second avenue. Since this decision the case has been taken to the United States supreme court on a writ of error.

The question has arisen as to whether we should continue to prosecute the street opening cases, pending the decision of the case on writ of error. Inasmuch as there is no attempt to attack the recorder's court proceedings or the law relating to them, but only the method of raising the money to pay the awards for benefits there would seem to be no good reason why the pending cases should not be prosecuted. If the case should be decided adversely to the city by the United States supreme court, it would simply prevent a special assessment to pay the award and would compel the whole amount to be raised by general taxation.

But the question whether to proceed or not is an administrative one to be determined by your honorable body, rather than by this office or by the recorder's court.

Upon the advice of this office an order has been entered by the recorder directing the street opening cases now pending to proceed and this will be done unless your honorable body should determine that they ought not to.

It is suggested that this communication be referred to the proper committee for such action as may be deemed wise.

Very respectfully,

CHAS. FLOWERS,
Corporation Counsel.

Accepted and referred to the Committee on Street Openings.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I inclose herewith letter received from Messrs. Barbour & Rexford in reference to the claim of the American Savings Bank, growing out of proceedings to open Mack avenue, and ask that the same be referred to the Committee on Street Openings for investigation and adjustment.

Yours respectfully,

CHAS. FLOWERS,
Corporation Counsel.

Accepted and referred to the Committee on Street Openings.

From the Board of Public Works.

To the Honorable the Common Council:

Gentlemen—Under instructions from your honorable body the Board of Public Works advertised for proposals for a gun carriage for the Vizcaya cannon. Proposals were received May 1st and opened, but the bids were not made public in view of the fact that a request was presented to the Board by a committee from the Naval Reserve Militia through Mayor Maybury, asking that the original design of Col. Kaltman, accepted and approved by the Committee on Public Buildings be changed so as to conform to that of modern gun carriages such as are used for mounting this kind of gun on shipboard. The Board respectfully asks [illegible] proposals under the new plans presented by the committee from the Naval Reserves.

Respectfully submitted,

J. W. MILLEN,
President.

Accepted and referred to the Committee on Public Buildings.

To the Honorable the Common Council:

Gentlemen -The request of the Board of Public Works for money with which to purchase an asphalt plant was granted by the Board of Estimates and Common Council and before many weeks the plant will be in Detroit and in operation. Some space will be required for the storage of the plant and the care of the appliances used in the work of patching asphalt, and permission is respectfully asked of your honorable body for the use of a portion of the old reservoir site, in the block bounded by Wilkins, Orleans, D., G. H. & M. R. R. and where Watson street would come through if extended. The piece of ground is 102 feet wide by 282 feet long The Board desires to say that there will be no smoke nor any offensive odors of any kind of which persons in the immediate neighborhood can complain. The Board asks that this matter be referred to the proper committee. Attached herewith is a tracing showing the exact locatino for the proposed site, which they ask your honorable body to grant

Respectfully submitted,
J. W. MILLEN,

From the Board of Commissioners of the City Sinking Fund.

To the Honorable the Common Council:

Gentlemen At a meeting of the City Sinking Fund Commissioners held May 2, 1900 the following Commissioners were present viz Commissioners Maybury, Blades Coots Marx, Weibel, Houghton and Thompson

The following resolution was offered by Commissioner Maybury

Whereas, In the sale of bonds issued by the city for the use of the Park and Boulevard Commission, in the erection of an Aquarium and Horticultural building, there was realized a premium of $9 811 beyond the par value of the stock issued, viz: $150,000 par value, and

Whereas, The provisions of the act under which the issue of the bonds was authorized provide that a sum not to exceed $150,000 shall pass into the control of the Park and Boulevard Commission, for the purposes indicated in the act The excess above referred to is resultant upon the city's high credit and in the opinion of this committee of the Sinking Fund it belongs wholly to the city, and,

Whereas, The custom pursued by the Controller in the matter of depositing this excess money to the credit of the Sinking Fund has been uniform in every case where sales of this character have been made and the premium accrued, since 1836 therefore be It

Resolved, That this committee decline to accede to the demand of the Park and Boulevard Commission, directing the Controller to place to its credit the excess of $9 811, and that the act of the Controller in placing the same to the credit of the Sinking Fund is hereby approved, and the Controller is hereby requested to forward a copy of this resolution to the Park and Boulevard Commissioners

Adopted as follows Yeas—Maybury, Blades, Coots, Marx, Weibel, Houghton and Thompson.

Street Openings.

To the Honorable the Common Council

Gentlemen—Your Committee on Street Openings, to whom was referred communication from the City Controller relative to the refunding of taxes to parties who had lost their receipts, would respectfully report that we have had the matter under consideration and were advised by the Corporation Counsel that in all ordinary cases the affidavit of the owner of the receipt showing that it is lost and an agreement that he will deliver it to the city if found, is sufficient protection for the city.

And we therefore recommend that the Controller be directed to pursue this course in the refunding of taxes on lost receipts.

There will probably be some cases where the question will arise as to who shall make the affidavit such as when a refund is to be made to an estate; and in these instances we would suggest that the Controller advise with the Corporation Counsel before making the refund.

Respectfully submitted,
HOMER M'GRAW,
JOHN J. STEIGER.

Ash street	July 2, 1900

Should the Common Council fail to perform any of the above on or before May 16, 1900, the date of completion shall be extended to cover any delay in construction beyond that date.

Said streets and avenues to be paved according to the specifications for base on concrete and cedar block or concrete adopted by the Common Council May 16, 1900, also to the estimates of the City Engineer as above, and the Charter and ordinances of the City of Detroit.

For the above work bidders will name the price per cubic yard for excavation, price per lineal foot for curbing, price per square yard for paving or relaying and price per lineal foot for relaying plank or stone, etc.

Bids will only be received for the entire of the work or material for any street or section of street as per quantities stated in the estimates, and the bid will be accepted which is the lowest on aggregating the above items, regardless of any error of extension or footings made by the bidders.

Each bidder must deposit with his bid inclosed in a separate envelope a certified bank check payable to the order of the Board of Public Works of the City of Detroit, as follows:

Dix avenue	$1 000
Holden avenue	500
Orleans street	600
Randolph street	600
Humboldt avenue	900
Ash street	1 000

Which sum will be forfeited to the City of Detroit in case the bidder refuses or neglects to enter into agreement for the work subject to the terms as set forth by the Common Council in this [illegible]

days after acceptance of his tender by the Board of Public Works. Checks deposited with rejected bids will be returned to the bidder on demand.

The bidder whose tender is accepted will be required to furnish with his contract an approved surety bond to the City of Detroit in the sum of 35 per cent of the contract price for the work, conditioned on the full and faithful performance of his part of the contract.

No bids will be accepted from any person or firm who is in arrears to the City of Detroit upon debt or contract or who is in default as surety or otherwise upon any obligation to said city.

On the proper execution of the contract bond the amount deposited with the tender will be returned to the contractor.

Printed specifications in detail for the above work are on file in the office of the Board and copies thereof may be had on application to the Secretary.

The Board of Public Works expressly reserves the right to reject any or all proposals.

We find that the Detroit, Rochester Romeo & Lake Orion Ry , the Wyandotte & Detroit River Ry the Detroit & Lake St Clair Ry and the Detroit & Pontiac Ry , whose offices it was decided were outside of this city are therefore not subject to taxation in Detroit.

In regard to the petition of C M Burton we recommend that the amount be reduced to $5,000; which reduction is based upon the opinion of the Corporation Counsel, citing Supreme Court decisions that the abstracts cannot be assessed

In reference to the valuation fixed by the Board of Assessors for the personal property of the various street railways of Detroit and suburban railways entering the city, and also the Detroit Gas Co we recommend as follows That the Detroit Gas Co be reduced to $1,800 000, that the assessment of $357,000 as personal property of the Ypsilanti & Ann Arbor railway be reduced to $100 000 that the assessment placed upon the personal property of the Rapid Railway Co be reduced from $220,000 to $100 000 that the assessment for personal property of the Detroit Citizens' Street Railway Co, exclusive of the Grand River avenue lines be reduced from $5,521 000 to $1 900 000, that the assessment placed upon the personal property of the Detroit Citizens Street Railway Co for the portion of its system known as the Grand River avenue lines be reduced from $2,114 900 to $135,00., that the assessment for personal property placed upon the Detroit Electric Railway of $1,360 800 be reduced to $1 200 000, that the assessment placed upon the personal property of the Fort Wayne & Belle Isle Railway be reduced from $1,061 200 to $200 000 that the assessment for personal property placed upon the Detroit Suburban Railway upon the Jefferson avenue division, being the line running upon Jefferson avenue, east of Baldwin avenue be reduced from $50,000 to $20 000, that the assessment for personal property upon the Detroit Suburban Railway upon Mack avenue east of Baldwin avenue be reduced from $50,000 to $15 000 that the assessment placed upon the personal property of the Detroit Suburban Railway upon Woodward avenue be reduced from $150,000 to $40 000, that the assessment for personal property of said Suburban Railway on Grand avenue east of Sheridan avenue be reduced from $60 000 to $1 000

We respectfully report that our reasons for making the above reductions are that it was admitted by the Board

of Assessors that in placing the respective values for personal property upon the various railways above enumerated except the Detroit Electric Railway, the value of the franchises was taken into consideration and we have been advised by the Corporation Counsel that there is no statute in this state permitting the taxing of franchises, and we are of the opinion that it would be unwise to tax such franchises unless the amount for which they are proposed to be taxed shall be itemized in order that the distinction between the tangible and intangible property may be clearly shown, so that if the courts shall hold that the taxation of franchises is illegal the value of the personal property representing the tangible or corporeal assets of the companies would remain upon the tax rolls.

We have been informed by the Corporation Counsel that unless a division is made and it should appear to the Court, that an attempt has been made to tax the franchises of the companies, and no evidence is furnished from the tax roll itself to enable the Court to divide the tangible from the intangible property the result might be that the whole amount would be stricken from the rolls and the State and County thereby lose the amount which they would receive if a proper division was made.

The statements received by the Assessors while the rolls were in the hands of the Common Council were received and ordered placed on the rolls for the amounts assessed on them by the Assessors.

Your Committee would recommend that if it is true, that there is no authority of law for taxing franchises of corporations, that some affirmative action be taken by the Common Council requesting that the Legislature of the State enact suitable laws similar to those in force in other States, where franchises are taxed.

And that the assessment of all property as late as placed by the Detroit Board of Assessors and unchanged by this Committee be and they are hereby approved and ratified.

All of which is respectfully submitted.

HOMER McGRAW,
OLIVER H. GRUNOW.

Accepted and leave being granted the following resolution was offered:

By Ald. McGraw:

Whereas, The Board of Assessors of the City of Detroit having completed its review and corrections and having duly signed and returned to the Common Council of said city the assessment rolls of all the real and personal property subject to taxation by the laws of the state within the limits of each ward respectively in said city for the year 1900 and,

Whereas, A special committee appointed by said Common Council for that purpose has fully considered said rolls and has heard and determined all appeals in reference to said rolls, and has corrected all such errors as it has discovered in said assessment rolls [illegible]

Resolved, By the Common Council of the City of Detroit, that said assessment rolls of the several wards of said city for the fiscal year 1900 as submitted with the additions, deductions and corrections as made by said special committee be and they are hereby fully approved and ratified by the Common Council and shall remain the basis of taxes to be levied and collected in the City of Detroit according to property valuation, until another assessment shall have been duly made and confirmed as provided by the charter of the city.

Ald. McGraw moved the adoption of the resolution.

Pending a vote on the question the Council took a recess of 15 minutes.

Upon reassembling and the roll being called the following answered to their names:

Ald. Atkinson, Beamer, Coots, Detmel, Grunow, Hansjosten, Hilger, Joy, Knauss, Koch, Koenig, Lemke, McGraw, Marx, Merrell, Miller, Moeller, Reinhardt, Schneider, Smith, Snow, Weibel, Weller and the President.

There being a quorum present the Council was declared to be in session.

The following report was then presented:

To the Honorable the Common Council.

Gentlemen: The undersigned, members of your special Committee on Review, appointed to review the assessment rolls for the year 1900 as prepared and presented to this body by the Board of City Assessors for the City of Detroit, respectfully report that we concur in the recommendations of the report offered by the chairman, except as to the following petitions presented, being those from Clarence M. Burton, for the cancellation of an assessment of $100,000 placed against him for personality and of the Detroit Citizens' Street Railway Co., the Grand River Avenue Co., Fort Wayne & Belle Isle Railway Co., Detroit Electric Railway Co., Detroit Suburban Railway Co., Detroit, Ypsilanti & Ann Arbor Railroad Co., Rapid Railway Co., and the Detroit City Gas Co., for reductions of personal assessments that your committee have carefully and thoroughly investigated each of said cases and listened to the testimony offered by the petitioners and arguments by counsel, and thereupon make the following findings:

1st. Your committee find that the petitioner Clarence M. Burton, has an abstract office in this city, located in the Home Bank building, that said contents of said office is personal property, that the true cash value of said abstract plant is, if anything in excess of $100,000. Your committee also found that the opinion of the Corporation Counsel was to the effect that said personality was not assessable, and that the Supreme Court has so held but your committee feel that inasmuch as the last decision of the Supreme Court on this question was rendered prior to the time of the act of the last legislature making an abstract plant liable to seizure and sale on execution, that the said decisions do not cover the case as it now stands and that said abstract plant is now property and his contention is supported, as your committee believe by a opinion recently rendered by the Attorney General of the state.

Your Committee therefore believe that in the execution of the duties devolving upon them they are not warranted in departing from the fundamental laws of taxation that is that all property shall be taxed uniformly, and accordingly find that the assessment as placed by the Board of Assessors against said C. M. Burton in

wise upon any obligation to said city.

On the proper execution of the contract bond the amount deposited with the tender will be returned to the contractor.

Printed specifications in detail for the above work are on file in the office of the Board, and copies thereof may be had on application to the Secretary.

The Board of Public Works expressly reserves the right to reject any or all proposals.

AN ORDINANCE requiring a schedule or time table of the operation of street cars to be posted in each car.

It is hereby ordained by the People of the City of Detroit:

Section 1. It shall be the duty of all street railway companies operating cars within the limits of the City of Detroit to have prepared and displayed in some conspicuous place in each car, a card showing the time when the first car leaves each terminus of each route in the morning, and the frequency of cars leaving said points during the entire twenty-four hours. Said cars shall show also the time allowed for cars to make the run from one terminus to the other of each route in order that the average rate of speed of all cars may be readily determined.

Sec. 2. For any failure to comply with the terms of this ordinance any company shall, upon conviction thereof, be punished by a fine not to exceed $100 for the recovery of which proceedings may be had in any court of competent jurisdiction.

Sec. 3. This ordinance shall take immediate effect.

Approved April 11, 1900.

COMMUNICATIONS.

From the Mayor.

To the Honorable the Common Council:

Gentlemen—Agreeable to the action of your honorable body appointing a special committee to co operate with other committees of citizens and the Mayor in the reception of the Fourteenth United States Infantry I beg to say that a very cordial reception was tendered to the regiment and the rank and file were given a substantial breakfast on their arrival at the Detroit Light Guard armory. The expense incurred is found in the bills hereto attached. I am advised by the Controller that the Board of Estimates made no allowance for an entertainment fund, and that consequently, there is no money in the fund to pay the bills incurred in this matter but I am further advised by the Controller that there is to the credit of the House of Correction moneys over which the Council has supreme control, that it can expend for any reasonable purpose. Your committee with the Mayor found it necessary to incur this expense in order to properly receive the regiment and were encouraged to believe that your honorable body would cheerfully make provision for the payment of the expense as made. I therefore request the adoption of the accompanying resolution providing for the payment of the obligations incurred

Respectfully submitted

WILLIAM C. MAYBURY,
Mayor

Accepted and leave being granted, the following resolution was offered.

By Ald Beamer

Resolved That the sum of $68 be appropriated from the House of Correction fund to pay the expenses incident to the reception of the Fourteenth United States Infantry by the City of Detroit

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—I received this morning, from Commander Duncan Kennedy, commanding the U S S Detroit an American ensign and one homeward-bound pennant. The ensign was one of the battle flags of the Detroit and was hoisted during the bombardment of San Juan Porto Rico May 12 1898. The homeward bound pennant was first hoisted when the ship returned from China, and the last time when the ship [illegible] San Juan, Costa Rica, for the

1900.

I have acknowledged the receipt of these flags and would suggest that it would be proper for your honorable body to have suitable resolutions accepting the same in the name of the city.

Respectfully submitted,
WILLIAM C. MAYBURY,
Mayor.

Accepted and leave being granted, the following resolution was offered:

By Ald Merrell

Whereas Commander Duncan Kennedy commanding U S S Detroit has forwarded as a g to the city of Detroit a battle ensign and homeward-bound pennant of his ship, therefore be it

Resolved By the Common Council that the thanks of the people of the city of Detr be extended to Commander Kennedy for the gift of these historical momentos

Resolved That a copy of these resolutions be forwarded to Commander Kennedy

Adopted

FROM THE SAME.

To the Honorable the Common Council

Gentlemen I return, with approval, the action of your honorable body in directing the Board of Public Works to contract with Mr James Hanley for laying asphalt on Canfield avenue and Adelaide street, as set forth in the proceedings of your honorable body

In view of my persistent objection to the laying of further asphalt pavements in this city, I deem it but proper that I should, briefly state to your honorable body the reasons which have impelled me to concur in your action in the matter of the streets mentioned

In the first place, it appears that your honorable body on a former occasion, during the levying of general taxes for the coming fiscal year as well as the Board of Estimates in reviewing the action of your honorable body, unanimously concurred in the suggestion that the streets named should be paved with asphalt The reasons advanced and which were potent in controlling the action of your honorable body as well as the Board of Estimates in these several matters are no before me but I can well understand that reasons which were eminently satisfactory to all, were submitted, and the action of the co-ordinate bodies made unanimous

I have no means of knowing whether the asphaltum to be laid by Mr Hanley is superior in any respect to that which has been heretofore laid nor do I know that Mr Hanley is more skilled in the matter of laying asphalt than those who have heretofore been engaged in the business. I have in my possession a letter from Mr Hanley in which he accedes to a request, which I have frequently urged, that there be included in the contract when made between the city and himself a provision for the appointment of a specially skilled person who shall be to inspect the composition of the asphaltum at the works, with full permission to make such inspection both at the works and upon the streets where the pavement is being laid I interpret the letter of Mr Hanley to convey also the consent that the directions of the person so appointed with such inspection upon the mixing and laying of asphaltic binder and surface shall be the governing [illegible] of composition and laying

I may be permitted to say in this connection, that the experience of our asphalted streets in the last year has in a most decided manner, justified what has been heretofore claimed that certain parts of the streets seem to be satisfactorily laid with asphalt, and other portions decay very quickly The conditions of repair, as evidenced on Jefferson avenue, Woodward avenue Lafayette avenue, and other streets that might be mentioned confirms my claim that, as a general rule, asphaltum in the City of Detroit, as said heretofore, has not been durable in character and that when the repair of streets reverts to the city which will be the case in a few years the repairs will constitute an enormous and continuing expense

Reverting again to the employment of a competent inspector of asphalt it may be desirable for the city to have such a person in its employ whose services can be made valuable and available in the matter of the construction of the asphalt repair plant the means for the construction of which has already been provided by your honorable body

I will lay the proposal of Mr Hanley for the employment of an inspector before the Board of Public Works and request that the employment of such an expert and with duties defined be made a part of his contract believing as I do that the city will reap great advantage from the employment of such a person

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The following is a statement of the condition of the several road districts for which bills have been presented and bills paid, which have been presented to this office up to the present time.

Road District 1, balance	$1 [illegible]	87
Road District 2 overdrawn	[illegible]	80
Road District 3, balance	[illegible]	19
Road District 4, balance	[illegible]	73
Road District 5, balance	[illegible]	80
Road District 6, balance	[illegible]	79
Road district 7 balance	[illegible]	76
Road District 8, balance	[illegible]	28
Road District 9, balance	[illegible]	31
Road District 10, balance	[illegible]	31
Road District 11 balance	[illegible]	63
Road District 12, balance	[illegible]	68

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The old cobblestone pavement of the alleys in blocks bounded by Washington, Woodward, Clifford and Park streets, Maine, Randolph, Gratiot and Wilcox, Randolph, Brush, Monroe and Macomb, are in such a condition as to necessitate an account of the depressions therein holding stagnant and filthy water during wet weather, creating a nuisance and a menace to the health of the public. The Board of Health having concurred, the Board of Public Works therefore recommends that the alleys mentioned be repaved with brick on concrete foundation in accordance with an ordinance entitled "An ordinance to provide for the grading and paving or regrading and repaving of alleys in the City of Detroit," adopted 1897.

Estimated cost as follows:

Alley bounded by Washington, Woodward, Clifford and Park	$1,424 30
Alley bounded by Miami, Randolph, Gratiot and Wilcox	1,780 00
Alley between Randolph, Brush, Monroe and Macomb	1,700 00

By Ald. Moeller:

Resolved, By the Common Council of the city of Detroit, that the alley extending from Monroe to Macomb, between Randolph and Brush be and the same is hereby ordered to be graded and to be paved with brick on concrete foundation, 20 feet wide more or less, and it is hereby declared that this action is had under that clause of the City Charter authorizing the Common Council to appropriate $200,000 annually, without a petition of a majority of property owners, and in accordance with an ordinance entitled, "An Ordinance to provide for the grading and paving or regrading and repaving of alleys in the city of Detroit." Adopted 1897.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading and paving said alley from the north curb line of Monroe to south curb line of Macomb street and from the north and south alley to west curb line of Brush street, the lots and parcels of real estate embraced within said limits and abutting the portion of said alley ordered to be improved by said grading and paving, shall be, and the same is hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be, and is hereby ordered and directed to estimate and determine:

1. The quantity of all grading, paving and other work on said alley within the limits ordered to be graded and paved, excepting those portions of the intersection of cross streets and alleys.

2. The quantity of all grading and paving of each portion of said alley

Resolved, That whenever the City Engineer shall make such estimate, showing the quantity of the grading, paving and other work required on said alley, the Board of Public Works shall, and are hereby ordered and directed to advertise five times for proposals for grading, paving with brick on concrete, said alley, in accordance with the provisions of the Charter and ordinances of the city of Detroit.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Delmel, Fracher, Hanajosten, Hilliger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Smith, Snow, Steiger, Tossy, Weibel, Weiler, Wildman and the President—27.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Public Works respectfully reports that lateral sewers Nos. 1151 and 1165, heretofore ordered constructed, have been fully completed in accordance with contracts and specifications therefor, and that all parties interested have been duly notified as required by ordinance, and the Board herewith transmits assessment rolls Nos. 6310 and 6311 for constructing said sewers, and respectfully asks their approval and confirmation.

Respectfully submitted,
J. W. MILLEN,
President.

Accepted and leave being granted, the following resolution was offered:

By Ald. Koch:

Whereas, It appears from a communication from the Board of Public Works that lateral sewer:

No. 1151—In N. & S. alley, E. of Cameron, between Philadelphia avenue and Alger street;

No. 1165—In alley W. of Pennsylvania avenue, between Vinoennes and Navarre streets;

Have been fully completed in accordance with the contracts and specifications for the same;

Whereas, No person has appeared to object to assessment rolls Nos. 6310 and 6311, and due notice having been given as required by ordinance;

Resolved, That the laterals above described are hereby accepted and that said assessment rolls therefor are hereby approved and confirmed, and the Controller is hereby directed to place the same in the hands of the Receiver of Taxes for collection.

Adopted as follows.

Yeas—Ald. Atkinson, Beamer, Delmel, Fracher, Hanajoosten, Hilliger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Smith, Snow, Steiger, Tousy, Weibel, Weller, Wildman and the President—27.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—It has developed that the elevators for the G. A. R. building, called for in the specifications and contract, and since contracted for by Spitsley Bros., contractors, from the manufacturers, require a water pressure of at least 85 lbs. to run them, whereas the water pressure of the city's system is only about 35 lbs. The elevators, if installed according to specifications, would therefore be useless, and barely able to hoist their own weight, if empty. The error seems to have been due to an oversight on the part of the original architect of the building, Mr Julius Hess, deceased. The necessary changes to adapt the elevators to the city's water pressure, are estimated to cost from $300 to $400, exact figures not being yet attainable, and in the meantime the Board of Public Works recommends the reference of the matter to the Committee on Public Buildings.

Respectfully submitted,
J. W. MILLEN,
President.

Accepted and recommendation concurred in.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—In reference to the petition of the Talbot Paving Co., for payment for cleaning brick; also for brick alleged to have been removed by the city from different points on Grand River avenue in the year 1895, when the tracks of the Detroit Railway were laid, etc., amounting to a total of $239.35, referred by your honorable body to the Board of Public Works; the latter begs leave to report that at the date mentioned none of the present Commissioners were in office, and consequently they have no personal knowledge of the transaction, and have not as yet been able to find anything on their records to substantiate the claim. The Board respectfully recommends that the matter be referred to the Committee on Streets.

Respectfully submitted,
J. W. MILLEN,
President.

Accepted and recommendation concurred in.

From the Receiver of Taxes.

To the Honorable the Common Council:

Gentlemen—There remain upon the books of this office assessments against certain individuals for city taxes of 1899 due upon bank stock, aggregating about $7,000. Demand has been made for the payment of these taxes, and payment has been refused by the various parties against whom the assess-

ments stand, for the reason that they are not residents of the City of Detroit, and therefore claim to be exempt from the payment of city taxes.

I inclose herewith the names of the respective parties and the residences claimed by them, and ask that your honorable body either direct suits to be brought by the Corporation Counsel for the purpose of testing the question of their liability, or that I be instructed to cancel the amounts due from them if in your opinion such taxes are not collectable.

Respectfully,
THOS. M. LUCKING,
Receiver of Taxes.

Accepted and referred to the Committee on Judiciary.

From the Board of Health.

Transmitting report of non-collection of garbage, etc., for week ending May 12, 1900.

Accepted and referred to the Committee on Health.

From the Clerk.

That he presented such portion of the proceedings of the last session as is required by the charter to be so presented, to his honor the Mayor for approval on the 12th and 14th inst., and that they were approved on the 15th inst.

Also that he has presented to the Mayor for approval that portion of the proceedings of the session of the 1st inst. upon which notice of reconsideration was filed which was approved on the 9th inst.

Accepted and placed on file.

Also that the following named persons have filed their indemnity bonds for trafficking in liquor: Ph. Kling Brewing Co., John Cavagnaro, Antoony Krecht, The East Side Brewing Co., Irwin R. Swan, Josephina Stewart, Charles E. Hollister, John A. Zinger, Chas. E. Hollister, Frederick A. Potter, William H. Burke, William H. Burke and Nelson A. Tabor, Alfred L. Walker, Frederick A. Cooke, A. Ruoff Brewing Co., Tivoli Brewing Co., Tivoli Brewing Co., Tivoli Brewing Co., Joseph P. Kaiser, Ph. Nagel Brewing Co., David Wallace & Sons, Nicholas Trost, Mitua Brewing Co., Detroit Brewing Co., Chas. H. Johnson, John Harvey.

Referred to the Committee on Liquor Bonds.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen: I respectfully report that I have been served on behalf of your honorable body with a petition and order to show cause, issued out of the Circuit Court for the County of Wayne, in a cause therein pending wherein the Common Council is required to show cause why it should not order stricken from the assessment rolls the sums which pretend to represent the values placed on the franchises of the Detroit Citizens' Street Railway Co. and the Detroit Electric Railway Co., and to place the valuation upon the said assessment rolls of the personal property of the petitioners at the actual cash value of its tangible property subject to taxation.

I have referred the same to the Corporation Counsel.

Very respectfully,
JOHN A. SCHMID,
City Clerk.

Accepted and placed on file.

REPORTS OF COMMITTEES.

Ways and Means.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending May 12th, 1900, respectfully report that with the Chief Accountant we have examined the same, and believing them to be correct, recommend their approval.

Respectfully submitted,
OSCAR B. MARX,
JOHN WEIBEL.

Accepted and adopted as follows:

Yeas—Ald. Atkinson, Beamer, Dimmel, Fracher, Hanssjosten, Hilger, Houghton, Joy, Krauss, Koch, Koenig, Lemke, McGuire, Marx, Maybury, Merrell, Miller, Moeller, Reinhardt, Smith, Snow, Steiger, Tessy, Wendt, Weller, Wildman and the President—27.

Claims and Accounts.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of May 15, 1900, respectfully report that we have examined the same, and believing the same to be correct, recommend that they be paid from the proper funds.

Respectfully submitted,
EDWARD WILDMAN,
RICHARD P. JOY,
BASIL A. LEMKE,
M. W. McGUIRE.

Accepted and adopted as follows:

Yeas—Ald. Atkinson, Beamer, Dimmel, Fracher, Hanssjosten, Hilger, Houghton, Joy, Krauss, Koch, Koenig, Lemke, McGuire, Marx, Maybury, Merrell, Miller, Moeller, Reinhardt, Smith, Snow, Steiger, Tessy, Wendt, Weller, Wildman and the President—27.

Nays—None.

Judiciary.

To the Honorable the Common Council:

Gentlemen—Your Committee on Judiciary, to whom was referred the communication from the Corporation Counsel relative to mandamus proceedings instituted by the Detroit Citizens' Street Railway Co., beg leave to report that we have carefully considered the same and concur in the opinion of the Corporation Counsel. That in view of the well-known position taken and received in said case that the city should procure other counsel and that our Corporation Counsel would not be authorized should he be asked to proceed with the city's defense and that he would not be able under the circumstances to do the city or himself

justice. Your committee feel that inasmuch as Judge Allan B. Morse is familiar with the case in question, he having previously advised other parties on the same subject, your committee feel that it would be to the best interests of the city to procure his services, which, we are informed will be rendered for reasonable compensation and we herewith offer the following resolution

Respectfully submitted,
FRED W. SMITH,
LOUIS E. TOSSY.

Accepted and on leave the following resolution was offered.

By Ald. Smith:

Resolved, That the President of the Common Counsel be and he is hereby authorized to enter into a contract with Allan B. Morse for legal services to be rendered to and on behalf of this city in the case of the Detroit Citizens' Street Railway Co. vs. the City of Detroit and be it further

Resolved, That the President of the Common Council be further authorized to procure additional counsel to assist in said case should circumstances require.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Delmel, Fracher, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Smith, Snow, Steiger, Tossy, Weibel, Weber, Wildman and the President—27.

Nays—None.

Suspension of Rules.

On motion of Ald. Beamer, Rule 28 was suspended for the purpose of reconsidering the vote whereby the foregoing resolution was adopted.

Reconsideration.

Ald. Beamer moved to reconsider the vote whereby the foregoing resolution was adopted.

Ald. Weber moved that the motion of Ald. Beamer be laid on the table, which motion prevailed.

Streets.

To the Honorable the Common Council.

Gentlemen — Your Committee on Streets, to whom was referred the communication from the Board of Public Works submitting the specifications for asphalt block pavement respectfully report that we have carefully considered the same and recommend that the specifications be approved as submitted.

Respectfully submitted,
WM. F. MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted and adopted as follows:

Yeas—Ald. Atkinson, Beamer, Delmel, Fracher, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Smith, Snow, Steiger, Tossy, Weibel, Weber, Wildman and the President—27.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen — Your Committee on Streets, to whom was referred the communication from the Board of Public Works submitting proposals for the repaving of Jefferson avenue, Bagley and Piquette avenues respectfully report that we have carefully considered the matter and beg leave to state that we fee satisfied that the bids submitted are reasonable. We therefore recommend that the contracts entered into by the Board with the lowest bidders in each case be approved and confirmed and that the resolutions offered by Ald. Moeller at a session held on the 1st inst., confirming said contracts, be adopted. (P. C. 320.)

Respectfully submitted,
WM. F. MOELLER,
MICHAEL MILLER,
JOSEPH MERRELL.

Accepted.

Ald. Moeller then moved the adoption of the resolution confirming the contract with James Hanley for the repaving of Jefferson avenue, from the Boulevard to 207 feet east of Baldwin avenue with sheet asphalt on concrete foundation, which motion prevailed as follows:

Yeas—Ald. Atkinson, Beamer, Delmel, Fracher, Hansjosten, Hilger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Smith, Snow, Steiger, Tossy, Weibel, Weber, Wildman and the President—27.

Nays—None.

Ald. Moeller then moved the adoption of the resolution confirming the contract entered into with James Hanley for the repaving of Piquette avenue, from Woodward to Brush, with sheet asphalt on concrete foundation, which motion prevailed as follows:

Nays—Ald. Deimel, Knauss, Koch, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Schneider, Smith, Snow, Steiger, Tossy, Weibel, Weller, Wildman and the President—19.

Sewers.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the communication from the Board of Public Works, submitting proposals for the construction of lateral sewers Nos. 1159, 1160, 1161, 1162, 1163 and 1164, respectfully report that we have carefully considered the same and beg leave to state that Wm H Whittaker is the lowest bidder for Nos. 1159, 1160 and 1163; that Liphardt & Winterhalter are the lowest bidders for No. 1161 and Wm. Porath for Nos. 1163 and 1164. We therefore recommend that the contracts entered into by the Board with the above mentioned contractors be approved and confirmed and we herewith offer the following resolution:

Respectfully submitted,
MAX C. KOCH,
WM. HILLGER.

Accepted, and on leave the following resolution was offered:

By Ald. Koch:

Resolved, That the contract entered into by the Board of Public Works with William H Whittaker for construction of lateral sewers.

No. 1159. In alleys between Chene street and Grandy avenue, Ferry and Palmer avenues.

No. 1164. In alley south of Sylvester street, between Parker avenue and alley east.

Be and the same are hereby approved and confirmed.

Adopted as follows

Yeas—Ald. Atkinson, Beamer, Deimel, Fracher, Hanasjosten, Hilliger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire Marx Mayhew, Merrell, Miller, Moeller, Reinhardt, Schneider, Smith, Snow, Steiger, Tossy Weibel, Weller, Wildman and the President—23.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Liphardt & Winterhalter, requesting the rescinding of a resolution confirming a contract with them for the construction of a lateral sewer in the block bounded by River street, Dragoon, Artillery and Battery avenues, respectfully report that we have carefully considered the matter and beg leave to state that the petitioners were informed by the attorney representing a large portion of the property in said block that he would commence legal proceedings to prevent the construction of said sewer, until such time as he may be given a hearing before the committee, claiming he was not notified when the same was under consideration, which is contrary to the minutes of the meeting. Your committee feel that they do not wish to do an injustice to anybody in the matter of construction of sewers, and therefore recommend that so much of said resolution adopted at a session held April 24th last (C. P., 206) as refers to sewer No. 1156, be rescinded and referred back to this committee for further consideration, and we herewith offer the following resolution.

Respectfully submitted,
MAX C. KOCH,
WM. HILLGER,

Accepted, and on leave the following resolution was offered:

By Ald. Koch:

Resolved, That so much of a resolution, adopted at a session held April 24th last (C. P., 206), as refers to the confirmation of a contract with Messrs. Liphardt & Winterhalter, for the construction of lateral sewer No. 1156, in alley in block bounded by River street, and Dragoon, Artillery and Battery avenues, be and the same is hereby rescinded.

Adopted as follows:

Yeas—Ald. Atkinson, Beamer, Deimel, Fracher, Hanasjosten, Hilliger, Houghton, Joy, Knauss, Koch, Koenig, Lemke, McGuire, Marx, Mayhew, Merrell, Miller, Moeller, Reinhardt, Schneider, Smith, Snow, Steiger, Tossy, Weibel, Weller, Wildman and the President—23.

Nays—None.

Street Openings.

To the Honorable the Common Council:

Gentlemen — Your Committee on Street Openings to whom was referred the resolution of Ald. Schneider for the opening of the alley in the block bounded by Lafayette and Fourteenth aves., Lafferty and Howard streets, respectfully report that we have carefully considered the matter and beg leave to state that we have listened to the testimony of interested parties, and feel satisfied that it is an absolute necessity that said alley should be opened at this time, when the expense of opening is but a mere trifle against what it is liable to cost if left in its present condition for years to come and then be ordered opened. In view of this we recommend that the Coporation Counsel be requested to cause the proper resolution to be prepared for the opening of said alley where not already opened

Respectfully submitted,
HOMER M'GRAW
JOHN J. STEIGER.
LOUIS F. FRACHER.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen — Your Committee on Street Openings to whom was referred the petition of Justice R. Pearson et al for the vacating of Bancroft avenue between Woodward avenue and Hamilton Boulevard respectfully report that we have considered the matter very carefully and beg leave to state that the petitioners are the owners of the property abutting on both sides of Bancroft avenue for the entire length sought to be closed a distance of 1,013 feet that the reason they desire the street vacated is because the distance from Bancroft to Clairmont avenue is only 116 feet, and from Bancroft to Atkinson 115 feet hence it will be seen that the lots running from street line to street line are too shallow to build houses fronting upon both streets. Thus they ask for the vacation of Bancroft avenue so as to improve the existing circumstances. If Bancroft avenue is vacated, allowing 10 feet thereof for the alley it will make the lots facing Clairmont and Atkinson avenues of a reasonable depth. Bancroft avenue is 66 feet wide reserving 16 feet thereof for alley purposes would mean the giving of 25 feet of property upon each side of said street to the adjoining property holders, as it exists at present it is practically unusable, and we believe that it will be to the best interests of the City of Detroit to vacate that street. The increased assessed valuation upon the property adjoining said street will in time fully compensate the city for the property given them. This street is an alley at the present time that is it is used for such purposes, and will never be anything else. In view of the facts presented before your committee we recommend that said Bancroft avenue, between Woodward avenue and Hamilton Boulevard, be vacated upon the following conditions and provisions:

The owners of the property to dedicate Third avenue, from Clairmont to Bancroft, to dedicate a strip of land off the west end of lot 40 in said block, so as to make Hamilton Boulevard the same width there as it is laid out above that point, being 100 feet in width; also that they dedicate an alley 20 feet in width off the westerly portion of lot 47 also that they reimburse the city with the amount of money it expended for the paving of Woodward avenue in the line of said Bancroft avenue being a distance of 66 feet and amounting to $[illegible] 66, and we herewith offer the following resolution.

Respectfully submitted,

HOMER MORRAW

Special.

To the Honorable the Common Council

Gentlemen—Your Special Committee on the Dewey reception beg leave to report that they have held several meetings, together with the Citizens' Committee and the Committee of the Fellowcraft Club and are at present preparing a program for the entertainment of the Admiral and Mrs Dewey.

The Board of Estimates this year failed to allow any money for the purpose of entertainment and it was therefore be necessary in order to meet the expenses incident to this reception by the City of Detroit to appropriate a sum of money from some fund over which the Council has control

Your committee would therefore recommend that the money for this purpose be appropriated from the House of Correction fund and that the sum be limited to $1,200 Your committee believe that the expenses will come within this amount but have thought it prudent to allow some leeway

Respectfully submitted
